THE REGENCY AUCTION 36

Auction Room: Casanova 504 Thursday, January 30th at 4:30PM PT

Dear Friends,

Welcome to 2020! We are excited to start the New Year off with this exceptional offering of numismatic rarities! Regency Auction 36 is the definition of a boutique auction presentation. The entire sale was carefully curated by our team, working diligently to offer only coins that pass our standards for quality and price. We could have had a much larger sale, but in the end, we would not lower our standards and we are extremely proud of the 394 lots that appear in the pages the follow.

Anchoring the auction are the Banker's Collection of Standard Silver Patterns, a small grouping of coins purchased in our January and May 2017 offerings from the Bob Simpson Collection. The Santa Fe Collection features a nearly complete late date set of Walking Liberty half dollars, each coin clearly chosen for quality, grade, and eye appeal. The Bear Creek Collection begins our silver dollar offering, made up of mostly Mint State Seated Liberty dollars, concentrating on the challenging 1840s issues. Selections of Morgan dollars from several major collections are also being offered, the grand highlight being the monster 1892-S MS67+ PCGS CAC, which we estimate at \$550,000!

Gem quality coins abound in all series, from Fugio coppers to rare date Saints. We are also pleased that Regency Auction 36 a has coins in all price points from about \$1,000 to six-figures, allowing collectors of all budgets the chance to participate in this great event.

TERMS AND CONDITIONS

This is a public auction, conducted in accordance with these Terms and Conditions of Sale, by Legend Rare Coin Auctions (hereinafter referred to as "LRCA"). By bidding on any lot offered by LRCA, the bidder indicates acceptance of the following Terms and Conditions of Sale. Bidders are to comply with the Terms and Conditions of Sale, posted on LegendAuctions.com, at the time of the auction in which they are participating.

BUYER'S PREMIUM

A 17.5% buyer's premium will be added to all successful bids, and is payable by the winning bidder as part of the total purchase cost.

SALES TAX

All sales are subject to applicable state and local taxes. Any lots that are picked up and/or delivered in the state of of The Regency Auction are subject to applicable state and local taxes.

PAYMENT

All merchandise must be paid for within TEN (10) days of the date of sale. We reserve the right to cancel any unpaid order after that time and to ban the bidder from future sales. Credit cards (Visa, MasterCard and Discover) are accepted for auction payments up to \$2,500.00 per invoice. Invoices and/or balances over \$2,500.00 must be paid via personal or certified check, money order, or wired funds. Personal checks, money orders and cashier's checks may be held for up to 10 business days in order to allow time for them to clear appropriate banking channels. Please email info@legendauctions.com for bank-wiring instructions and/or to provide numismatic references.

E-CHECK PAYMENTS

E-check payments now available. Please email form to info@legendauctions.com

INTERNATIONAL BUYERS

Foreign buyers, unknown to us, are required to deposit 25% of their anticipated expenditures before bidding. Please contact us in advance of bidding for bank wiring instructions.

EXTENDED PAYMENT TERMS

For all items \$15,000.00 and over, LRCA is now offering Extended Payment Terms. Please advise us at least 48 hours before bidding or purchasing the item in question. Pre-approval is required.

RETURN POLICY

All lots are sold "as is." Lots graded by PCGS, NGC or other third-party grading services, or any lot viewed by the buyer or anyone on buyer's behalf prior to the auction, may not be returned. This is not an approval sale. All sales of lots to the highest bidder are final. Bidders are strongly advised and encouraged to research any lots upon which they plan to bid, and to determine bids, based upon their own evaluation. Bidders assume all risks concerning and related to the grade, quality, appearance, condition, history and origin of any lot. Bidders acknowledge that coin grading is not an exact science, that it can be subjective and inconsistent and that it is possible that two parties might assess or grade the same coin differently. LRCA makes every effort to accurately describe all items offered in its sales. All items will be available for preview prior to the auction.

SHIPPING

Shipping costs will be billed separately and are non-refundable. Items will usually ship within 5-10 business days after payment has been received and/or funds have cleared. Coins will be shipped via Fed Ex or USPS or transported via armored carrier.

The shipping charge includes fees for our third-party insurance coverage, as well as any costs incurred through the USPS or Federal Express. Any shipments made via armored carrier (Brinks, Dunbar, etc.) will be calculated and assessed at the time of shipment.

INTERNATIONAL SHIPPING

It is not possible for LRCA to ship to some countries. Please email questions to info@legendauctions.com. Payment for all international orders is required in US funds. Please contact julie@legendauctions.com for bank wiring instructions.

Customs requirements for each country are the responsibility of the buyer. All packages shipped outside of the United States will include the required customs declaration and full value of the invoice.

BIDS VIA TELEPHONE

An absentee bidder may also participate live, during the auction, via telephone. Requests for phone bidding must be received at least three days prior to the auction date. Please fill out our phone bidding request form online or call 732-935-1168 to request a call from one of our representatives during the live auction. LRCA cannot guarantee phone lines, but will make every effort to accommodate those who wish to participate via this method.

RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer, alone, has the right to reopen the bidding for an item, if deemed necessary. LRCA and its representatives reserve the right to remove any attendees who impede the preview and/or the auction. Title to all merchandise shall pass to the winning bidder after receipt of good funds by LRCA. Bidders will be held responsible for their bids, including those bids placed incorrectly. PLEASE VERIFY BIDS BEFORE SUBMITTING THEM. In order to have a bid removed or corrected, bidder must contact LRCA prior to start of the auction. Bidder waives auctioneer's responsibility and holds LRCA harmless for failure to recognize, accept, receive or execute any lost or missing bids by internet, telephone, email, floor bid, fax, mail or other means. LRCA reserves the right to postpone or cancel an auction without notice. Lots may be withdrawn at LRCA's discretion, without prior notice. Lots may carry a reserve. A reserve is a price below which the auctioneer will not sell an item, or will re-purchase the item on behalf of the consignor or for LRCA. LRCA permits bids to be placed by the auctioneer, or an employee of the auctioneer, up to the pre-determined reserve set by the consignor. Legend Rare Coin Auctions' partner, Legend Numismatics, reserves the right to bid on items, for its own account and for the accounts of its clients.

DISCLAIMER AND WARRANTIES

No warranty of merchantability or fitness for a particular purpose is made or implied on any lot. No warranty, whether expressed or implied, is made with respect to any lot except for warranty of title, and in the case of title, auctioneer is selling only that right or title to the lot that the consignor may have as of the auction sale date. All lots are sold "as is" and with all faults. Purchaser hereby assumes all risks concerning and related to the grading, quality, description, condition, authenticity, and provenance of a lot.

- a. Coins and currency listed in this catalog graded by PCGS, NGC, or any other third party grading service or examined by the buyer prior to the auction sale may not be returned for any reason whatsoever by any buyer, except for claims related to authenticity.
- b. For non-certified coins that have not been examined by the Buyer prior to the Auction Sale: if it is determined in a review by LRCA that there is a material error in the catalog description of a non-certified coin or the LRCA no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by LRCA, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence.
- c. If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- d. Late remittance or removal of any item from its original container, or altering a coin constitutes just cause for revocation of all return privileges.
- e. Grading or condition of rare coins may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of LRCA. LRCA shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- f. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- g. All oral and written statements made by LRCA and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of LRCA has authority to vary or alter these Terms and Conditions of Auction Sale. LRCA reserves the right to vary or alter the

Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of LRCA authorized to do so.

- h. LRCA is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, LRCA is not making, and disclaims, any warranty of title.
- i. Bidder acknowledges that the numismatic market is speculative, unregulated and volatile, and that coin prices may rise or fall over time. LRCA does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.
- j. Bidder acknowledges and agrees that neither LRCA, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

WAIVER AND RELEASE

Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges LRCA, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale.

DISPUTES

If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, LRCA reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. LRCA reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither LRCA nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from LRCA. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Legend Rare Coin Auctions to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Monmouth County, New Jersey. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of New Jersey shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Monmouth County, New Jersey; and any court proceeding shall be in the Monmouth County Superior Court, in the State of New Jersey, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale.

Auction participants expressly waive any right to trial by jury.

OUR ESTIMATES

The estimates you see published in this catalog are based on HAMMER. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us.

We are here to help you!

PRINCIPALS

Laura Sperber Partner

Laura was raised in Highland Park, NJ. During high school, the coin bug hit her hard. Her trip to the 1976 NYC ANA left a lasting mark and huge desire for her to own and handle the greatest rarities. While attending Monmouth University, Laura attended coin shows more than classes. After college, she started LSS RCI, a wholesale coin company. In 1986, she realized the need for a "better" coin retailer and teamed up in 1986 with George Huang to form Legend Numismatics.

In 1996 Bruce Morelan became a partner and since then Legend has exclusively built or assisted in assembling this generation's greatest collections. In 2012 Laura saw the need for a smaller, boutique auction firm, and created Legend-Morphy with Dan Morphy, whom she split with in 2014. Today, Laura is also a leading consumer advocate for coins. The passion has never subsided, and she keeps a beautiful Proof Walker on her desk to this day.

Bruce Morelan Partner

Bruce started collecting coins when he was only six years old and by the time he was in high school his dream was to be a coin dealer. But life intervened and instead, Bruce went into business. By chance, he became Legend Numismatics' financial backer in 1996. His great grandmother had given him three coins when he was young, one of which being a Trade Dollar, so he set out to build the finest Trade Dollar set. After a few years with ultra rarities, Bruce returned to his love of dollars and completed both a set of Gobrechts and a set of Seated Dollars.

After selling those sets, Bruce recently returned to dollars with a new Gobrecht set and a spectacular early dollar set capped by his dream coin, the Amon Carter 1794 Dollar. Not many collector's can say they have completed not only the finest 1794-1885 Dollar Sets and have over the years owned such coins as two 1913 Liberty Head Nickels, an 1894-S Dime, 1876-CC Twenty Cent piece, 1827 Original and Restrike Quarters, 1838-O Half Dollar, two 1885 Trade Dollars and four 1884 Trade Dollars!

Julie Abrams President

Julie Abrams started in numismatics in 1986 when she joined up with Bernard Rome and launched Teletrade, the first computerized auction company. Teletrade developed a unique coin trading method, utilizing state-of-the-art digitized voice board technology to run live auctions before the advent of the internet. As President of Teletrade, Julie helped expand the company, increasing the frequency of auctions and expanding annual sales to \$24 million within a few years. In 1999, GMAI, a publicly traded company, purchased Teletrade and Ms. Abrams became Executive Vice President of Sales for the parent company. Her job responsibilities included continuing her role as CEO for Teletrade as well as marketing to buyers and consignors, with the goal of maintaining a balance between inventory and sales while growing the business.

In 2004 she joined Stacks-Bowers, an old world traditional auction house where she worked to expand their e-commerce presence, including the development of an online bidding platform for the firm. She also marketed Stacks' programs to secure consignments from dealers and institutions such as banks, museums and universities.

Julie is a member of the American Numismatic Association, the Central States Numismatic Association and Florida United Numismatists.

The Banker Collection is a small group of some of the finest Patterns that exist. They were all purchased under the direct eye of Laura Sperber. The collector (who has a very impressive collection - sorry, we cannot mention the Type) thought these were cool and decided to venture into this unique series while coins for his main set proved exceptionally scarce. He still admires these

coins, but is now focusing on his main collection, and wants these coins to go to a collector who is actively building a pattern set.

These are all ex Simpson and rank among the very best. There is no such thing as finer coins. Overall, these kinds of Patterns are a great value in today's market. Opportunity knocks loud here!

LOT 1 10C 1870 J-845. PCGS PR66+ BN CAC

Ex Simpson Collection.

What a great Standard Silver pattern dime! Finest graded in the BN category, this tough Rarity-7- variety was struck in copper with a reeded edge.

This coin is not far off from a RB designation. Moderate mirrors are super clean and have good reflection. Both sides are evenly bathed in a totally original mix of faded Mint red/gold/light brown/violet/pale blue colors. Miss Liberty and every detail are so razor sharp in strike if you don't wear gloves you could cut yourself! The eye appeal is fabulous.

PCGS 3, NGC 1, CAC 2. This is the only PR66+ BN graded by PCGS. Truly a wonderful and affordable rarity! Realizing \$3,290 in our January 2017 sale of the Bob Simpson Collection. Bound for another world class Pattern collection!

PCGS# 61089 | ESTIMATE: \$3,200+

LOT 2 10C 1870 J-855. PCGS PR66 CAC

Ex Simpson Collection.

When we first offered the Bob Simpson Standard Silver Patterns, this Rarity-6+ dime, struck in silver with a reeded edge, was this cataloger's (GC) favorite coin! A standout among the many GEMS and SUPERB GEMS, this coin has a MONSTER look!

This coin has AMAZING toning! First, the mirrors are deep and beam from all over. They have bold clarity and are clean too. The highlight of this coin is monster totally original royal blue/gold/lime/tangerine/violet colors that circle the obverse. The reverse has a U shaped covering of the same killer colors. Miss Liberty and the details stand out with stunning thick creamy white frost. On an eye appeal scale of 1-10-this coin easily hits 11!

PCGS 1, NGC 0, CAC 1. We do not know where Collectors Universe gets their value of \$3,200, but this beauty brought \$3,878 in our January 2017 auction. Considering how much rarer these are compared to regular Proof dimes of 1870, this coin should be worth way more! Good luck!

PCGS# 61099 | ESTIMATE: \$3,600+

LOT 3 10C 1870 J-865. PCGS PR66 CAM CAC

Ex Simpson Collection.

This is an incredibly RARE Standard Silver dime pattern, rated Rarity-7+, with 4-6 examples known in all grades. Struck in aluminum with a reeded edge.

Ultra high end! Superb mirrors beam from all over. They are above average in clarity, cleanliness, and reflection. A few raised Mint made die lines are visible-this coin lacks the rough planchet so many aluminum coins have. Miss Liberty and

every detail are needle sharp in strike and enjoy strong frost. The eye appeal is great!

PCGS 2, NGC 0, CAC 1. The current PCGS Price Guide value is listed at \$7,500 and this SUPERB GEM brought \$7,638 in our January 2017 sale of Part 1 of the Simpson Collection of Standard Silver Patterns. Worthy of a great pattern collection.

PCGS# 800020 | ESTIMATE: \$5,250+

LOT 4 25C 1870 J-897. PCGS PR66+ RB CAC

Ex Simpson Collection.

This is the SINGLE FINEST example of this Rarity-7+ Standard Silver Pattern quarter, one of fewer than half a dozen examples known. Struck in copper with a plain edge.

This is a stunning VERY HIGH END SUPERB GEM. Shimmering mirrors are deep, crystal clear, clean, and have vivid reflectivity. Even using a strong glass, we

really cannot find any reason this coin is not a PR67 (that is NO guarantee). Both sides have a gorgeous even brown/blue/violet color mix that is unquestionably totally ORIGINAL. Miss Liberty and the details are frosty and have full strikes. The eye appeal is fabulous!

PCGS 1, NGC 1, CAC 1. This coin hammered for \$6,000 in our May 2017 Regency Auction's offering of Bob Simpson's Standard Silver Patterns, and the Judd book values a PR65 at \$9,200; there is a Collectors Universe value at \$7,500. No other examples of any RB piece have ever been sold via auction ion nearly 7 years! Keep in mind, this is NOT your average coin-it really is VERY high end! Good luck!.

PCGS# 71141 | ESTIMATE: \$6,000+

LOT 5 25C 1870 J-898. PCGS PR67 CAM CAC

Ex Simpson Collection.

A STUNNING, SUPERB example which is the single FINEST KNOWN specimen of this excessively RARE Rarity -7+ Standard Silver pattern quarter, struck in aluminum with a reeded edge.

Deep and "watery" mirrors beam from all over. The mirrors are super clean, have excellent clarity, and are super flashy. The planchet

does not have the typical defects the majority of aluminum pieces show. Miss Liberty and the details are thickly frosted and have remarkable strikes. The eye appeal is fabulous!

PCGS 1, NGC 0, CAC 1. The only other example is graded PR61 and has never been sold in auction. From our sale of the Simpson Collection, Part 1 January 2017, where it realized \$11,750. Prior to that it was in the Southern Collection of Patterns, which was the huge pattern deal in 2008 (it was figured in that deal for \$16,500). Unpriced by Collectors Universe, this coin is worthy of a premium bid and placement in an advanced pattern collection.

PCGS# 800064 | ESTIMATE: \$9,000+

LOT 6 25C 1870 J-907. PCGS PR65+ CAC

Ex Simpson Collection.

A wonderful GEM example of this RARE, Rarity-7- Standard Silver pattern, struck in silver with a plain edge.

Phenomenal mirrors beam from all over. The mirrors have intense clarity, cleanliness, and are boldly reflective. We consider these mirrors ultra-deep. A slight ring of reddish gold/pale gold frames the rims. Miss Liberty and the details have silvery frost and are fully struck. The eye appeal is high end and very cool!

PCGS 2, NGC 1, CAC 2. This is the ONLY PR65+ and this is the only example to ever sell in auction, bringing \$4,935 in our January 2017 sale of the Simpson Standard Silver Pattern Collection.

PCGS# 61151 | ESTIMATE: \$4,000+

50C 1870 J-940. PCGS PR65 CAM CAC

Ex Simpson Collection.

One of the FINEST extant of this tough Rarity-6+ Standard Silver pattern, struck in silver with a plain edge.

Bold mirrors are so strong you can see them from across the room. Just a few light lines can be seen only when using a strong glass. The mirrors have excellent clarity and overall cleanliness. A beautiful ring of gold frames all the rims. Miss Liberty and the details are frosted a silver white. The eye appeal is fabulous!

PCGS 2, NGC 0, CAC 1. The current Collectors Universe value is listed at \$5,750. This GEM sold for \$4,700 in our January 2017 Regency Auction, featuring Part 1 of the Simpson Collection of Standard Silver Patterns. Once part of the greatest collection of patterns ever assembled. Now you have an opportunity to add this beauty to your collection.

PCGS# 800063 | ESTIMATE: \$4,500+

LOT 8 50C 1870 J-961. PCGS PR66 CAM CAC

Ex Simpson Collection.

This is the SINGLE FINEST known example of this Rarity-7+ Standard Silver Pattern half dollar struck in aluminum with a reeded edge.

For an aluminum coin the surfaces and mirrors are completely above average. The mirrors are exceedingly deep, have bold clarity, are clean, and there are no real planchet issues (save for some

light pitting on the reverse). Miss Liberty and the details are almost 3D in appearance with remarkable strikes and thick frosting. The eye appeal is fabulous!

PCGS 1, NGC 0, CAC 1. Here you have an extreme rarity, in an obsolete metal, from the greatest collection of patterns ever formed-Simpson. Unpriced in Collectors Universe, this SUPERB GEM brought \$8,519 in January 2017. Worthy of a great cabinet of patterns.

PCGS# 501859 | ESTIMATE: \$7,500+

LOT 9 50C 1870 J-990. PCGS PR66+ RB CAC

Ex Simpson Collection.

Easily one of the FINEST KNOWN examples of this Rarity-7+ Standard Silver pattern half dollar struck in copper with a plain edge.

We think only a little irregular toning keeps this wonderful piece from a PR67 RB. Deep and glass like mirrors offer bold clarity, cleanliness, and of course a stunning reflection. The color is a

mix of totally original GEM faded Mint red/pale brown/faded violet/deep gold colors. Miss Liberty and the details are frosty and are fully struck. The eye appeal is terrific!

PCGS 1, NGC 0, CAC 1. This beauty sold for \$11,750 in our January 2017 Regency Auction. It had been off the market for many years before that. Its quality is superior to the NGC PR67 RB that sold in March 2012 for \$13,225. The current Collectors Universe value is listed at \$14,500. This will be a great addition to any GEM Pattern collection.

PCGS# 71236 | ESTIMATE: \$8,000+

END OF BANKERS COLLECTION

LOT 10 10C 1870 J-852. PCGS PR66 RB CAC

An exceptional quality GEM example of this impressive and VERY RARE R-7+ Standard Silver pattern dime. Struck in copper with a plain edge, we believe this high end example to be the Judd Plate Coin. Ex Denali Collection, not on the holder.

Ultra PQ, this stunning coin is one of the nicest Standard Silver patterns struck in copper we have ever handled, rivaling even those in the famed Simpson Collection.

Exceptionally clear, clean and powerfully reflective mirrors beam from both sides. The color is about 65% GEM ORIGINAL MINT RED.

Miss Liberty and the details are frosty and have full strikes. The eye appeal is totally jaw dropping!

Minted). Struck in aluminum with a plain edge. It is the FINEST known, and there are less than half a dozen known of this issue!

For a trial striking, a lot of effort went into making this exceptional quality piece. Overall, the planchet was problem free, so when it was struck, there are practically NO imperfections. Glorious watery mirror fields that offer extraordinary quality and

preservation. This issue has a plain edge and is boldly struck on all the devices with snow white frost glistening over the mirror fields.

No spots or lines detract! Undoubtedly this is the finest known of this rare and seldom seen pattern issue.

PCGS 1, NGC 0, CAC 1. The ONLY other specimen we are aware of is the PR64+ Cameo in the all time finest ever Pattern Collection-the Simpson Collection. This coin sold in December 2017 for \$9,400. This is an R-7 (closer to a dozen minted). It is a Longacre Indian Princess pattern struck in copper. This is the FINEST graded, and it is more than worthy of that designation.

Remarkable mirrors are crystal clear, are perfectly clean, are deep, and have magical ultra strong reflectivity. The mirrors look like a freshly formed clear sheet of ice. Stunning ORIGINAL colors of pale Mint Red/gold/pale violet beam from both sides. There are NO spots, but there is a small unquestionable toning stain in the eagle on the reverse. Miss Liberty and every detail are frosted and have full crisp strikes. This coin is total delicious eye candy!

PCGS 1, NGC 1, CAC 1. This is the ONLY + and it is the FINEST graded. Collectors Universe Values a PR66 RB (NO +) at \$34,500. Deeply reflective, copper surfaces are intensified by EXQUISITE teal, aquamarine and honey gold overtones. Under powerful magnification, a couple of tiny fly specks and a small disturbance after the final A of are noted. Nothing that is not commensurate with the grade. Exceptionally crisp motifs are accented by thick mint frost. Although the obverse and reverse have a slightly different interpretation of Miss Liberty and the eagle motif, the reverse is quite similar to the adopted Mint design used for regular issue twenty-cent pieces whose production commenced in 1875.

PCGS 6, NGC 1, CAC 2. This is the SOLE 64+ and FINEST GRADED for the designation at PCGS! This piece sold in August 2019 for \$10,800 (before being upgraded to the "+"). With the way collectors are pursuing the 20C pattern series, we anticipate spirited bidding to break out for this beauty!

Newman 8-X, W-6750. A stunning GEM example of this famed Bank of New York Hoard variety. In 1948, the hoard contained a whopping 189 examples, accounting for 11.5% of the total number of Fugio coppers found. Tied for FINEST graded at PCGS in the RB designation, and there are none in RED!

This variety is known by the massive die break that created a bulge at the lower obverse that

obliterates part of MIND YOUR BUSINESS, and usually accounts for the weak strike on the corresponding portion of the reverse. This lustrous example is wonderfully sharp, with all of MIND YOUR BUSINESS complete. Every detail on the Sunface, the rays, the sundial, all of it is crisply impressed into the planchet. Perfectly centered on both sides. Exceptionally lustrous for a Colonial or Confederation copper, this coin has a monster visual allure.

PCGS 9, NGC 8. The last PCGS MS65 RB Newman 8-X to sell in auction brought \$10,575 back in 2013, and it did not look like this! LOT 17 1796 CASTORLAND SILVER RESTRIKE. PCGS MS66

____.6>****

Whitman-9150, Breen-1064. Listed in the Red Book, the Castorland medal or jeton was linked to a French settlement in upstate New York. These were a proposed coinage for the settlement. Originals were struck in silver and copper in very limited numbers and are very rare today. Later, restrikes were produced for collectors at the Paris mint. This is a Paris Mint Restrike, as evidenced by the marking on the edge at 6:00, including the word ARGENT for

silver. The obverse shows a crowned bust of the goddess Cybele with the name of the colony around. The reverse shows an allegorical scene of a goddess holding a cornucopia and tapping a maple tree. A beaver is below (castor is French for Beaver).

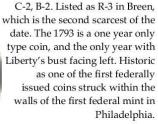

The present piece is the FINEST graded by PCGS and is the plate for PCGS CoinFacts. Possessing watery, almost fully PL reflective fields on both sides, it is totally original and beautifully toned. Exceptional antique teal, rose, and soft apricot-gold hues accentuate the high end quality surfaces and sharply struck devices. A tiny hidden mark can be found with a strong glass, noted for accuracy, but the eye appeal is truly amazing.

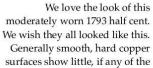

PCGS 1, NGC 0. Unlisted in the PCGS Price Guide in this lofty state of preservation, the last PCGS MS65 sold in February 2017 for \$1,763. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 22 L1C 1794 HEAD OF 1794. PCGS AU58 CAC

Amazing quality, truly what we love to call a "GEM" AU58! While the S-65 is a relatively common variety, it is very scarce in such a lofty grade. For a 1794 large cent, this coin is ever so close to a full Mint State grade, and possesses an extremely high end look.

First, the surfaces are solid and hard, devoid of any serious pitting or corrosion that often comes on large cents of the 1790s. The details are fully struck up with crisp, clean definition in Liberty's hair curls and facial features. Pleasing, even, medium brown with golden and chestnut highlights show off a lovely glossiness. There are no serious marks, ticks, or other issues that affect the overall eye appeal of this HIGH END piece. Struck from Noyes Die State B, there are clashes and die cracks that add to the charm of this early large cent. Very choice and extremely eye appealing. While we make no guarantees, it rivals the eye appeal of some of the AU58+s that we have seen offered.

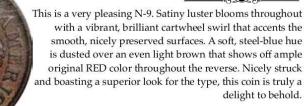

PCGS 42, NGC 12, CAC 9. This is the coin that sold in the 2012 ANA auction for \$21,150. There really is a wide range of APRs for PCGS graded AU58s sold in auction, depending on variety, pedigree, and eye appeal. The current PCGS Price Guide value is listed at \$17,500 which is a suitable average, and this one will yet again see bidding in excess of that level when the hammer drops. Soft brown color combines with tinges of original red color and light accents of violet tone. Sharply struck on both sides, the surfaces show just a touch of friction on both the highest points, only perceptible with a strong glass. Struck using the N-19 die pairing, which were only used to strike Proofs. While the exact number minted is unknown, PCGS CoinFacts estimates approximately 25 known in all grades and color designations; indeed, the current combined PCGS and NGC Population figures tally to 25 pieces. Over the years scholars have attempted to create a census of auction appearances, but due to lack of plates or poor old images, matching has proven impossible

in many cases. Including off the market institutional collections, as well as specimens yet to be graded, perhaps as many as three dozen are known total.

The present near-GEM boasts bold reflective mirrors with excellent clarity, depth and cleanliness. We note a tiny planchet flake in the left obverse field, it does not impact the excellent eye appeal. Wonderful, warm chocolate brown mixes with some pastel color that clings to the fields; the reverse shows some traces of original red. Every detail, razor sharp in definition, shows precision of strike. The eye appeal is excellent.

LOT 28 1C 1856 FLYING EAGLE. PCGS PR65 CAC

This is is a very high end and pleasing GEM example of the first year of the small cent. Exceptionally bold eye appeal defines this beautifully preserved example.

Very pleasing, reflective fields have a shimmering, watery texture that flashes brilliantly on the obverse. Accents of pale blue grace the natural orange-rose hue of the copper-nickel planchet on the obverse, while the reverse has a light overtone over the reflective surfaces. Both sides of this GEM are razor sharp in definition. A tiny tick or two on the reverse is the only thing we can see holding this back from an even loftier grade designation.

By the early 1850s, the cost of copper rose to the point where the large cent was no longer a viable coin, and the half cent had little use in commerce. Starting in 1850, and progressing to mid decade, the mint began experimenting with different sized planchets and different alloys. By 1856, they decided on the familiar diameter we still use today, but thicker and a copper/nickel alloy. A small number were struck in 1856 for VIPs. The total mintage is approximated at 1,500, many of the survivors are lower grade or impaired. Though scarce, GEMS are seen in auction a few times per year, and always bring strong prices when they do, especially when CAC approved.

PCGS 61, NGC 33, CAC 21. The most recent example to sell at the time of this writing was in our May 2019 Regency Auction for \$38,775. RARE any finer, just seven examples have ever graded higher. The PR65+ CAC in the database is no longer on the PCGS Population report, that sold for \$52,800 and we sold a 66 for \$70,500 in September 2019. This is a great grade for any collector looking to start, or upgrade a set of Flying Eagle cents. Bidding will be fierce for this one!

What a dramatic DCAM Proof GEM! What a stunning, high end example that has a great look!

Deep, beaming tan-gold surfaces have blazing icy mirrored fields on both sides. The frosty, razor sharp devices stand out dramatically, contrasting boldly against the highly reflective fields. A few scattered flecks and a tiny mark are all that hold this GEM back from an even loftier grade and placement with the FINEST graded.

Only 370 Proofs were struck. PCGS 2, NGC 0. Neither has ever sold via auction, but the PCGS Price Guide value is listed at \$10,500. Extremely RARE finer, we think this one has a better look than the PR66 DCAM we sold in May 2019 and thus should sell for more. Worthy of a great set!

LOT 40 1C 1873 CLOSED 3. PCGS PR66 RD CAM CAC

Clearly one of the absolute FINEST KNOWN 1873 Proof cents. Offering outstanding visual qualities, this SUPERB GEM has deep beaming mirrors in the flaming RED fields and frosted devices that stand out with bold cameo contrast. A dusting of the clearest of iridescence that confirms its

originality and imparts an exquisite eye appeal.

All 1873 Proof cents were struck from a single pair of dies, which utilized the Close 3 logotype.

Only 1,100 Proofs were struck. PCGS 3, NGC 0, CAC 1. There has only been one example sold in auction since August 2004, a non-CAC PCGS coin that brought \$9,600 in the 2019 ANA auction. The current Collectors Universe value is listed at \$13,000 and with CAC approval, this coin should surpass the record price of \$10,063 realized back in the 2004 FUN Auction.

FLASHY! The clarity of the mirrors allows vivid reflectivity to beam from deep red and golden surfaces. Only under strong magnification can a few tiny and scattered toning dots be seen. Miss Liberty and the wreath are caressed by mint frost. Gorgeous even color on both sides makes for an impressive, eye appealing piece.

PCGS 4, NGC 1, CAC 2. Only one finer for the designation, a 66+. To procure one in 66+ could run you upwards of \$25,000. Auction records are sporadic for this issue so you are going to have to use some ingenuity when figuring what this coin is worth. NO CAC examples have traded at auction in the grade! Recent sales data that follows is for non-CAC pieces. We sold an example in our July 2017 sale for \$11,163, a second piece sold in September 2017 for \$8,813 and of late, in August 2019 an example went for \$5,520. Collectors' Universe Price Guide is \$8,000. We expect feverish bidding on this choice, CAC stickered GEM!

A lovely GEM Cameo Proof example. Totally original, the surfaces show a trace of iridescent toning over rich, flashy, beaming mirrored reflection that contrasts against the richly frosted devices. A tiny tick or two can be seen with effort and a strong glass, nothing impacting the stunning visual allure for the grade. Double endorsed by CAC and Eagle Eye, this coin is very high end for the grade.

PCGS 16, NGC 10, CAC 1. We cannot find this coin ever selling in auction, and as the only CAC approved example in this grade it will see strong bidding, easily exceeding the current Collectors Universe value of \$2,000. There are eight in 66 RD CAM at PCGS and none finer, with a Collectors Universe value of \$6,000. This is a great looking GEM that will fit nicely in any carefully selected set.

A stunning SUPERB CAMEO Proof that has has a bold, vivid color and stunning eye appeal.

This coin has been off the market since May 2004 when it was sold in the Central States auction. The surfaces are a rich cherry red. The mirrors offer a fantastic display of deep, bold, and clear reflection that contrasts brilliantly against the

highly frosted and razor sharp devices. The cameo contrast is bold, especially on the obverse. We note a trace of light toning on both sides, attesting to the exceptional originality. The outstanding visual allure will excite even the pickiest of collectors.

PCGS 4, NGC 1, CAC 3. In a weak market, the last PCGS/CAC sold for just \$5,405 in the 2016 FUN auction, but prior to that, one sold in a June 2014 auction for \$7,931. Fresh to the market, and boasting both CAC and Eagle Eye stickers, this exceptional GEM belongs in a major Proof Indian Head collection. LOT 73 1C 1969-S DOUBLED DIE OBVERSE. PCGS AU58 CAC

Presented here is a very high end example of one of the most important Lincoln Memorial cents, and among the KEYS in the entire series. The obverse is fully and boldly doubled. Well struck and the devices show only the slightest rub on the high points, this PQ GEM AU is evenly toned in a mahogany-brown with some lighter brown and hints of slight blue highlights. The surfaces are generally smooth and show only the slightest little marks, consistent with the grade. It is a beautiful coin for the grade and would make a great addition to any advanced Lincoln cent collection.

While the mintage is unknown, it is extremely RARE in all grades. Genuine examples are known to exist only since the 1990s. Today, they are keys with fewer than 80 graded in total between PCGS and NGC.

PCGS 15, NGC 2, CAC 5. The most recent PCGS/CAC example brought \$28,800 in the 2018 ANA auction. Prior to that we sold one in December 2016 for \$28,200. The current Collectors Universe value is listed at \$26,500 and this one should bring more. RARE in all Mint State grades, this AU58 will delight any advanced Lincoln cent collector looking to fill this challenging hole.

1C 1983-D DOUBLED DIE OBV. FS-101. PCGS MS65 RD

FROM THE HANOVER COLLECTION, PART 2.

This is the FINEST graded 83-D Doubled Die, which shows the doubling at LIB on the obverse. It is a very rare variety, of which PCGS has graded exactly 7 examples. Brilliant red surfaces show only a few trivial marks and flecks that keep this coin from an even higher grade.

PCGS 1, NGC 0. The current PCGS Price Guide value is listed at \$1,500, but it will be the Lincoln cent variety experts that determine what this RARE, Pop Top example is really worth.

1C 1984 DOUBLED DIE OBVERSE. PCGS MS68 RD

FROM THE HANOVER COLLECTION, PART 2.

A SUPERB example of this popular FS-101 DDO variety. The Doubling is strongest at the ear, beard, and bow tie. Blazing RED surfaces are virtually pristine. The surfaces show the typical "pimpled" look, with gas bubbles trapped between the zinc center and copper plate outer layer.

PCGS 26, NGC 41. The current PCGS Price Guide value is listed at \$1,800, but this one sold for \$2,585 in the 2016 FUN auction. Just a single MS68+ RD is graded finer. This is a great coin for the Lincoln cent Registry Set collector. Good luck!

PCGS# 3062 | ESTIMATE: \$1,500+

LOT 76 1C 1999 WIDE AM. FS-901. PCGS MS68 RD

An intriguing modern variety that is extremely scarce and rarely offered. The reverse die with the AM widely spaced was intended for Proof coinage, but somehow a number of Philadelphia mint coins were struck for circulation using these dies. They are VERY RARE in such a high grade, and PCGS has graded about 1,000 in all grades, however, this MS68 RD is the SOLE FINEST graded at PCGS! Exceptional brilliant RED luster blazes on both sides of this sharply struck uber-GEM.

PCGS 1, NGC 0. Unpriced in the PCGS Price Guide, and this coin, as FINEST will bring a RECORD when the hammer falls!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 77 1C 1909 VDB. LINCOLN MATTE PROOF. PCGS PR66 RD CAC

This coin in UNBELIEVABLE! It looks like an early GEM RED Mint State Lincoln. We never ever see these Matte Proofs looking like this and still in their OLD GREEN TAG HOLDER! Plus, the quality is SUPER HIGH END!

Out of this world, UBER GEM ORIGINAL MATTE surfaces are virtually perfect. Only using a strong glass can you find a single microscopic tick. The are no defects anywhere. A faint partial fingerprint can be seen only with strong glass. We mention that for accuracy in the description. The luster is insane and will nearly blind you. The GEM MINT RED color could not be any more original. Lincoln and ever every detail are so sharply struck, they almost look 3D. The eye appeal is out of this world!

PCGS 7, NGC 8, CAC 3. PCGS has graded one coin in PR67 and one PR67+. In January 2019, a NON CAC coin brought \$60,000 in auction. When the coin offered here made its first appearance on the market, it brought \$70,500. The current Collectors Universe Value is \$75,000. With a market so starved for ORIGINAL quality, we expect this coin to blow past those numbers. You really need to see this amazing GEM to believe it. Good luck!

A GEM, knock your socks off, eye appealing beauty. Intense MINT RED, matte field are graced by traces of pale orange and gold hues. Razor precision strike and detail. Virtually flawless with just a couple of tiny specks on the collar, seen only under strong magnification.

PCGS 41, NGC 8, CAC 15. Just 4 coins grade 66+ at PCGS. An example sold for \$4,200 in June 2018. Exceptional value when compared to the price for a PR67 which is listed in Collectors

In a word, SPECTACULAR! The surfaces are so pristine, it looks like the coin was struck yesterday! Gorgeous, deep matte finish. Thick frosty luster is accentuated on the obverse with fiery red, while the reverse has been graced with a whisper of violet hues over mint red. Needle sharp motifs. One of the few times all of Lincoln's beard is fully delineated.

Just 1,365 pieces were struck. PCGS 8, NGC 5, CAC 5. This particular coin recently sold in November 2019 for \$6,900. Collectors Universe

An exquisite, essentially SUPERB example of the first "modern" Proof Lincoln cent. Struck in two types in 1936, the first having a satiny lustrous finish, as here. Ranking near the top of the pop, there is just a single PR67 RD graded finer at PCGS and there are none graded 66+ RD at NGC. Clearly this beautiful coin is one of the best available! Absolutely original, totally lustrous satiny surfaces show off a bold RED coloration that is rich and vibrant.

The devices are sharply impressed by an exacting blow from the dies. A delicate rose-gold overtone gives this stunning coin a fantastic visual allure. There are no serious flecks or marks of any kind that have any impact on the eye appeal.

PCGS 43, NGC 8, CAC 13. There are seven graded 66+ RD with just a single PR67 RD graded higher. The most recent example in 66+ RD was sold in our September 2019 Regency Auction, which realized a record price of \$13,513. The current PCGS Price Guide value is listed at \$13,500. this lofty state of preservation, the surfaces are completely without flaw; even using a strong glass, you will not find a single mark, line, or fleck. The eye appeal is superb, as you might expect for one of the

highest graded examples in the entire series.

PCGS 4, NGC 6. The most recent example sold in September 2018 for \$7,050. The current PCGS value is listed at \$7,500. If you are building a top ranking set of three cent nickels, a coin like this cannot be ignored. This is another amazing example that will end up in another superb set!

LOT 105 3CN 1888 PCGS PR67+ DCAM CAC

WHOA! A stunning, ultra high-end SUPERB GEM coin! This MONSTER SUPERB GEM is the FINEST graded (and is more than worthy of the designation). Mere words can not portray the killer quality offered here-but we will try!

Superior deep mirrors beam boldly from all over. The mirrors are clean and have strong clarity. The contrast this coin has should be bottled and sold! Crisply and fully struck devices have a bright, nickel-silver frost. The icy-smooth texture to the mirrors is flawless and the eye appeal cannot be improved. The reflection is

PCGS 2, NGC 2, CAC 2. As we mentioned, this is the ONLY PR67+ DC. There is no Collectors Universe Value for a PR67+ DC, BUT they value PR67 DC (no +) at \$19,500. This coin fits into any WORLD CLASS Proof 3CN set, easily a box of 20, or a Type set. We hope people get a chance to inspect this coin. You certainly will never many like it-especially in DC. Be ready for strong bidding here!

LOT 106 5C 1867 NO RAYS. PCGS PR65 CAM CAC

This is an exceptionally high end GEM example of this early nickel, the first year of the No Rays reverse type. Deep, flashing, reflective mirrored fields are exceptionally clean and have a beaming brilliance that catches the eye from across the room. A light dusting of iridescent tone across the reverse attests to the originality. The devices are razor sharp and thickly frosted, standing out in dramatic CAMEO fashion. The eye appeal is excellent!

Only 600 Proofs were struck. PCGS 36, NGC 23, CAC 8. It has been nearly five years since a PCGS/CAC PR65 CAM example sold in auction, bringing \$2,350 back in March 2015. The average APR for the 9 CAC-approved examples is nearly \$3,300 and the current PCGS Price Guide value is listed at \$2,400. Not common any finer, this coin will fit in nicely in any GEM set.

LOT 107 5C 1879 PCGS PR67 CAM CAC

This is a SUPERB GEM! It is NOT the coin that just sold in our last sale.

Deep mirrors beam boldly from all over. The mirrors are remarkably clean and have exceptional clarity. A small obverse die crack should be mentioned (Mint made). The contrast is strong. If you twirl the coin the mirrors look like a freshly made sheet of glass. Every detail is pinpoint sharp in strike and has strong frost. The date is pretty neat-if you use magnification the 8 appears to be double struck. The eye appeal is gorgeous!

PCGS 7, NGC 9, CAC 6. There is only 1 PR67+ and nothing higher. The last PCGS CAC example to sell in auction was the one we just sold for \$6,168 in December. This date based on our experiences has always been the stopper date when building a set. Opportunity knocks loud here especially if you are building a set. This is a fresh coin to the market too!

LOT 108 5C 1903 PCGS MS67+ CAC

Legend Rare Coin Auctions is proud to offer the sole FINEST 1903 Liberty nickel ever graded by PCGS or NGC. Indeed, across all dates, just a dozen MS67+s have been graded by PCGS from 1883-1912-S, the vast majority are 1883 No CENTS. The other four dates are POP 1/0!

Everything about this high end coin is PQ and the epitome of SUPERB quality. A brilliant, frosty luster radiates on both sides of this

razor sharp beauty. A delicate overtone of pastel iridescence can be seen on both sides, attesting to the originality. The eye appeal is exceptional in every way!

PCGS 10, NGC 4, CAC 1. This is the ONLY MS67+ and the only CAC approved example. Unpriced in the PCGS Price Guide, other CAC approved POP 1 PCGS MS67+s that have sold are: 1889 in our September 2019 Regency Auction, which brought a world record \$36,425; an 1899 that sold in the 2018 FUN auction that brought \$22,800 and a 1901 that also sold in the 2018 FUN auction for \$26,400. NONE ARE FINER FOR THE ENTIRE SERIES, this coin is in a class basically to itself and worthy of a world class Registry Set. Bidding will be intense for this SUPERB GEM!

This is an ultra high end for the assigned grade GEM, premium quality all the way! Tied for second FINEST graded at PCGS with just a single MS67 graded higher. The devices are razor sharp and frosty, standing out against the exceptionally high end fields. There is a remnant of a partial fingerprint on the reverse that blends with the lovely, light, delicate pastel iridescent tone. A tiny tick or two, invisible to the naked eye are noted for the sake of accuracy, but clearly they do not affect the amazing eye appeal.

PCGS 32, NGC 10, CAC 9. There are seven graded MS66+ and none are graded higher. We sold an example in June 2019 for \$3,408 and the current PCGS Price Guide value is listed at \$3,250. The single MS67 has never sold in auction. This coin is bound for another fantastic set.

This is a magnificent SUPERB GEM example of this very popular first year of issue.

Glorious golden color goes from pale to deep orange-amber in hue. Hints of pale green mingle with the warm golds and nickel-silver luster flashes from the wonderfully preserved surfaces. The details are sharply impressed on both sides of this amazing and high end 13-D. The eye appeal is SUPERB!

PCGS 17, NGC 6, CAC 5. The most recent example sold in the 2014 FUN auction for \$14,100, and prior tot that, one sold in August 2013 for \$17,625. Back in March 2007, this coin sold for \$17,250. Tied for FINEST graded at PCGS and this 1914-D nickel is truly SUPERB! This buffalo will stop you in your tracks!

Brilliantly lustrous surfaces are aglow with a beaming satiny frost. The fields are extremely clean and devoid of any marks, flecks or discolorations anywhere. Both sides are framed by a classic album patina along the obverse periphery. Golden-apricot shades dominate, deepening to a narrow band of emerald and fuchsia and lightening to a brilliant silver dusted with rose and lilac hues. The reverse is evenly bathed in a champagne-gold. Both sides are razor sharp in definition and show zero imperfections anywhere. The eye appeal stampedes at you!

PCGS 11, NGC 1, CAC 3. This coin is FRESH to the market! It is not the one that sold in the 2019 FUN auction for \$21,600, nor is it the Angel Dee's coin that sold in our December 2016 Regency Auction. Back in January 2005 one sold for a record \$32,775 and it did not have the outstanding color that imparts this coin's stunningly gorgeous looks. The current PCGS Price Guide value is \$21,500 and the CAC CPG value is listed at \$24,200. Those levels should be surpassed rather easily when this one crosses the block. 5C 1916 DOUBLE DIE OBVERSE. PCGS MS64 CAC

WHOA! What an amazing Buffalo nickel! In this popular series there are a few famous varieties that have made their way into the regular series, no serious collection can be considered complete without, and the 1916 Doubled Die Obverse is one of the major KEYS! An exceptionally RARE issue, perhaps 200 examples are known in all grades, mostly in the VF range; precious few are known in any Mint State grade. In MS64, this coin is tied with just two others as FINEST GRADED, and with CAC approval, may be considered FINEST KNOWN!

Oh so close to GEM caliber, this coin's clean, smooth surfaces have a moderate satin frost that really shows off the delicate original lavender, olive, tan, gold, and powder blue patina. The details are boldly struck and the doubling is exceptionally bold; you do not need a glass to see the doubled features. Overall, this example displays fantastic eye appeal. Even using a strong glass there are no flaws worthy of mention, and in the old days, this coin would have likely been cataloged as a full GEM BU.

PCGS 3. NGC 5, CAC 2. There has not been one sold since our July 2013 Regency Auction, where the Gerald FORSYTHE duplicate sold for \$253,000. The current PCGS Price Guide value is listed at \$275,000 and with NONE FINER, this coin belongs in the FINEST set of Buffalo nickels ever assembled. Once sold, who knows when you will have another opportunity to acquire a world class example of this very rare KEY issue. LOT 119 5C 1918-D PCGS MS65+

What a neat GEM example of this important early date Buffalo nickel. Icy nickel silver luster blooms on both sides. Sharply impressed, this coin was struck from a late die state, where both sides show heavy flow lines created from die fatigue and both sides show neat die cracks, especially one that is seen at the reverse rim at 9:00 that crosses into the bison's head. There are a couple of very minor flecks and a small mark or two. Despite this, the eye appeal is exciting and is high quality.

PCGS 7, NGC 0. PCGS has graded 34 examples finer. The current PCGS Price Guide value is listed at \$4,000 and there has not been a non CAC-example sold since the 2015 ANA auction. This coin, fresh to the market has a bold eye appeal and will bring a strong price. Worthy of a great set.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 121 5C 1923-S PCGS MS65+ CAC

An incredible quality, ultra high end GEM example that boasts an amazing allure for the type, but especially so for a 23-S! This gorgeous coin is clearly one of the FINEST extant; truly a delight to behold and will certainly be a highlight in any advanced set of Buffalo nickels!

Here's what differentiates this coin from the others grading MS 65+, the CAC sticker! It takes a special coin like this one to receive the coveted green bean. While so many examples are lacking in certain traits, this one sports them all! This fully struck example shows full definition in the legend, date, mintmark and design details on both the Indian's braid and the bison's hair, this beauty is a NOTCH ABOVE its competitors. The surface quality truly stands up to close inspection with a strong glass, revealing no marks or flecks of any consequence accented by a bold, smooth satin luster that enlivens both sides of this PQ GEM!

PCGS 70, NGC 41, CAC 7. Just 10 have been graded MS65+, and we think there might just be two MS65+s approved by CAC. The current PCGS Price Guide value is listed at \$18,000 and keep in mind that there are just three finer (all MS66) at PCGS and the only CAC approved example sold nearly seven years ago for \$67,563. If you are looking to upgrade your set, you will not find a better example anytime soon (or ever). Good luck!

LOT 123 5C 1927-S PCGS MS64 CAC

A DREAM coin for the strike conscious collector. One of the best detailed examples for the grade we have seen in a LONG time. All of the important design elements are struck to full advantage, not the least of which is the horn and split tail. Enhancing the desirability further is the booming mint luster. Accents of soft rose, powder blue and champagne gold add to the overall appeal. Under a glass a miniscule mark is noted on the Indian's forehead. Claims to a higher grade.

PCGS 283, NGC 159, CAC 21. Very few pieces receive the CAC designation because most have mushy strikes and they lack luster. The disparity in price between a CAC and non-CAC is palatable. In August 2019 a CAC specimen sold for \$4,560, which is almost twice as much as the non CAC piece which sold for \$2,400 in October 2019. Collectors Universe Price Guide is \$3,750. If you are a stickler for strike details and want to own this cherry example, we suggest you bid with vigor!

An incredible quality, ultra high end GEM example that boasts Here is a totally original, pleasing quality GEM example of this important, key date Buffalo nickel variety. This is one of the blue chips of American numismatics, a date that is always in demand, regardless of grade or market conditions, but especially so in GEM grades.

This coin is extremely well struck from the heavily clashed dies that led the mint employee to file down the dies, removing the buffalo's leg, creating this variety. The clashes can be seen across the Indian's portrait, turning up as raised marks on the cheek bone and in the hair. The satiny mint luster blooms on both sides with a pearly radiance accented by a pale honey gold, which imparts an amazing eye appeal.

PCGS 53, NGC 55, CAC 22. We sold one in our September 2019 Regency Auction for \$25,850. The current Collectors Universe value is listed at \$24,000 and the CAC CPG value is listed at \$30,200. LOT 135 H10C 1797 15 STARS. PCGS AU53 CAC

LM-1. A wonderful, lightly circulated early half dime that is totally original and GEM caliber for the assigned AU53 grade. The eye appeal is spectacular for an AU!

Only when using a strong glass can you see a few small and widely scattered ticks. Some minor die clashing and a cool die crack are visible.

A light glossy luster

PCGS 6, NGC 6, CAC 3. We cannot find a record for this coin selling in auction, and no AU53 sold in auction had CAC approval. The current PCGS Price Guide value is listed at \$9,500 and the CAC CPG value is \$9,380. Any AU55 or finer clearly will cost into the five figures. A great early type, with the popular small eagle reverse. Worthy of a quality oriented type set or carefully chosen half dime collection.

-646-

We unhesitatingly grade this coin an MS67.9+. To call this coin any less than remarkable is a crime!

Incredible and flawless surfaces are a dream to see. They have a satiny texture as well. When using a strong glass you really have to look around to find a tiny tick on the arm. This coin has ZERO problems. A good

luster beams from all over and highlights the colors. The peripheries are a reddish golden brown/light forest green while the entire coin is a gorgeous lilac color. ALL the colors are totally original. Miss Liberty and every detail stand out with full strikes. For a smaller coin, it has WOW big coin eye appeal!

PCGS 1, NGC 4, CAC 2. We believe this coin went from being the lone MS67 to the lone MS67+ hence the 2 CAC beans. If you are building a box of 20, a Type set, or a Half Dimes set, this coin is a MUST have! It was in Oliver Jungs amazing Type set (#1 all time). No such thing as a better 54-O Half Dime!

Ex Teich Family Collection.

What a wonderful borderline GEM Cameo Proof from the first year that the mint produced Proof Sets for sale to the general public. Only 300 Proofs were said to be struck for collectors. The present coin has rich, watery brilliant reflection to the fields that surround the frosted devices that stand out with a bold contrast. Mostly untoned, this brilliant example has a classic old time look and is from an old time collection.

PCGS 3, NGC 1, CAC 2. This is the one that sold for \$2,115 in February 2014 and is the only PR64 CAM to sell in auction with CAC approval. The current PCGS Price Guide value is listed at \$1,800 but this one, with its good looks and freshness should bring more.

LOT 138 H10C 1859 PCGS PR65+ CAM CAC

What an exceptional Cameo GEM Proof half dime. Stunning in quality and presentation, this high end coin is among the five highest graded CAMEO Proof 1859 half dimes seen at PCGS. Ultra deep, smooth, glassy, shimmering mirrors beam all over. The blazing fields contrast against razor sharp and frosty devices. A blush of iridescence can be seen at different angles, giving this coin a great look.

Only 800 Proofs were struck. PCGS 3, NGC 3, CAC 2. This is the ONLY PR65+ CAM graded at either service, and it sold back in 2012 for \$5,175. Currently listed in the PCGS Price Guide at \$4,750, there are just four graded higher at PCGS in the CAM designation. This very pleasing coin will see considerable bidding from both type collectors, as well as those seeking to upgrade their Proof half dime set.

High end and the contrast on the obverse approaches the DCAM status. Thickly frosted devices stand out against vividly reflective obverse fields. A touch of iridescent toning graces the obverse periphery and deeply toned on the reverse in a bluish-slate/periwinkle-teal. The eye appeal is excellent.

Only 1000 Proofs were struck. PCGS 6, NGC 1, CAC 5. PCGS has graded just two in PR66+ CAM and just three have been graded higher. That this is the HIGHEST graded PCGS coin to ever sell in auction, realizing \$4,888 back in the 2012 FUN auction. The current PCGS Price Guide value is listed at \$3,250, though with the RARITY in this lofty of a grade, this coin will likely bring a stronger bid when the hammer falls.

Strong, chrome-like mirrors shine with a bold reflection and flash that provides the back drop to the exceptionally frosted devices. Some speckled rose and gold tone can be seen at various angles in the light. The GEM quality eye appeal is wonderful. The Teich Family purchased this lovely coin, sometime in the 1950s or 1960s from Stack's for \$60, and the original inventory envelope is included.

Only 470 Proofs were struck during this important Civil War year. PCGS 12, NGC 6, CAC 4. At the time we described this lot, this was the most recent example with CAC approval to sell, realizing \$1,955 in February 2012. The Collectors Universe value is \$1,700 and with its freshness to the market and old time pedigree, it should bring somewhere around that price.

This Civil War date is remarkably much rarer than the mintage of 1,000 would lead you to think.

This impressive Cameo GEM is beautifully toned on both sides, the obverse with a swirling melange of blue, crimson, amber, and apricot hues, while the reverse is more solidly toned in blue, gold, and rose tones. The fields are high quality with a bold reflective flash.

PCGS 7, NGC 0, CAC 3. The current PCGS Price Guide value is listed at \$3,750 and this GEM was the only CAC-approved example to sell in auction, realizing \$3,738 in May 2012. With just two finer in the CAMEO designation, this beauty will see excited bidding from collectors.

H10C 1866 PCGS PR65 DCAM

VERY RARE in DCAM, in all grades, PCGS and NGC have graded a mere 10 pieces in the designation. A deeply reflective and contrasted GEM shows off a stunning cameo effect. The mirrored fields are icy slick with a cast of the slightest pale gold, which adds to the depth of the contrast. The sharply struck devices have a thick frost that stands out from the fields. The eye appeal of this GEM DCAM is quite nice, and we think that the minute toning spot by Liberty's foot is all that keeps this coin from attaining the coveted CAC bean.

Only 725 Proofs were struck. PCGS 3, NGC 0. This coin last sold in auction back in March 2012, realizing \$3,738. The current PCGS Price Guide value is listed at \$3,750. Keep in mind that only three DCAMs have ever graded higher at PCGS.

The pale gold toning attests to the originality of this mostly untoned GEM.

Only 625 Proofs were struck. PCGS 9, NGC 11, CAC 8. The most recent PCGS/CAC coin sold in February 2018 for \$1,440. The current PCGS Price Guide value is \$1,500. These have just become way too cheap in today's market! A GEM with a tiny mintage to be had for under \$1,500 is just too reasonable!

Rings of blue, purple, and gold frame the obverse, while the reverse is awash in teal-blue and rose-gold patina. The devices are sharply struck up and have a bold mint frost that contrasts against the clean, clear, deep mirrored reflection of the fields. The eye appeal is superb.

Only 600 Proofs were struck. PCGS 11, NGC 2, CAC 11. We sold the most recent example in September 2019 for \$2,291. A smattering of scattered, small flaws, some mint made, are noted only with the aid of a powerful loupe.

Only 600 Proofs were struck. PCGS 7, NGC 6. The last time a non-CAC approved example sold was in April 2018, realizing \$2,526. This coin has been off the market for nearly a decade, last selling in August 2011, and bringing \$2,530. Prior to that, this coin sold three other times between 2004 and 2009, realizing between \$2,300 and \$2,760. LOT 149 10C 1797 16 STARS. PCGS AU50 CAC

The 1797 dime is a very scarce coin in any grade, but the majority of those seen are either low grade or have some sort of defect that precludes numeric grading, such as cleaning, tooling, scratches, or other problems. Even those assigned numeric grades often are not totally original, showing second color, or flat, dull surfaces. The presently offered AU50, is in our opinion one of the nicest circulated examples of this date we have seen. Just a touch of wear can be detected on both sides, mostly limited to the highest points of the design types. Despite the minor wear, the details retain sharp definition, imparted from a

precision blow from the screw press. The obverse die was shattered early on, with a number of die cracks at the date. Two cracks are seen, but have not combined to be the cud that is sometimes seen. A lightly dappled pale blue, olive, and rose gold tone blooms on both sides, highlighted by the subtle remnants of the original mint luster. The central devices are sharply struck up, with just some minor weakness at the peripheral details. Aside from a tiny tick or two, all we see in the fields is a number of mint made clash marks.

Two die pairs were used in 1797, one with 16 obverse stars and the other with 13. While 25,261 dimes were delivered in 1797, these may have included 1796 dimes as well, as the dies were used until they were no longer serviceable.

PCGS 4, NGC 0, CAC 1. This pleasing coin has never sold in auction, nor has any AU50 graded. High grade circulated examples truly are very few and far between! While we note two CAC-approved XF45s that have sold (a PCGS in the weak 2016 FUN auction for \$10,575 and an NGC coin in March 2015), no AU53 has sold since 2006 and the last PCGS AU55 sold in 2005. The current PCGS Price Guide value is listed at \$18,500 and the CAC CPG value is \$15,700. We love the look of this coin, and its freshness and eye appeal will delight anyone looking for a high grade 1797 dime without paying for a Mint State piece.

The sensational surfaces are exceedingly clean and have a satiny smooth texture. Even when using a strong glass you will find

nothing to disappoint you. There are some light die polishing lines mentioned for accuracy. We are blown away by this coin's intense full booming luster. We rarely see this date like this. Both sides enjoy subtle squirts of pale golden brown color-the coin is still 75% silvery colored. Everything about this coin screams total originality. Miss Liberty and the details are lightly frosted and are sharply struck. The eye appeal is sensational!

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

A Condition Census B-3. This is an interesting die marriige, as its using the same obverse die as the overdate B-1 1818/5 but the die was lapped, removing the vestiges of the underlying 5 below the 8.

Totally original, this is a very pleasing quality GEM Capped Bust quarter. A rich, satiny underlying luster catches the light from below a layer of pearlescent-pewter, pale blue, lilac, and tan gold. Crisply struck, with bold, complete definition to the devices. Close examination with a powerful glass reveals a few mint made clash marks, but the surfaces are generally devoid of any post minting flaws of any kind. Housed in a "Generation 4.0" PCGS holder, the first generation of the blue tag holders, in used from 1998-2002. The eye appeal of this old-holdered coin is high end and it will delight any type or early type collector.

A high CONDITION CENSUS B-2 and a stunning, beautiful example! Creamy, snow white fields are booming with a vivid mint bloom and brilliant luster. Accents of light reflection beam with traces of soft champagne gold tone that flits across the surfaces. There are a couple of well concealed toning spots and a tick on Liberty's cheek which are detected under strong magnification. Thick mint frost accents bold motifs which are remarkably free of weakness, particularly significant when one considers the screw press used to mint the coins.

Five known die marriages for this date consisting of 3 different obverse and four different reverse dies. This variety, the B-2 is readily identified by the leaf which is connected to the denticles on the reverse.

PCGS 3, NGC 0, CAC 3. One of just 2 coins graded MS65+ at PCGS and only are 4 finer according to the PCGS population report. The other coin has been sold twice since August 2012 where it sold for \$62,625 and then again in May 2015 where it fetched \$54,050 (this coin is much more attractive in our opinion). LOT 165 25C 1825/4/(2) BROWNING 2. PCGS MS65 CAC

This is the EXQUISITE Eliasberg-Pogue B-2 Capped Bust quarter. Its high grade quality and amazing pedigree would make it the CENTERPIECE of any early quarter collection.

Frosty luster rolls over clean fields and is enhanced by undulating, pearl gray interspersed with wisps of ice blue, sea-foam green and honey gold toning in the recessed areas. The design elements are struck to full advantage and the overdate is so bold all of the numerals underneath are clear to the naked eye. A tiny tick on Liberty's chin and a faint line on the obverse from the cap to star 8 are noted merely for the sake of accuracy.

Three die pairings were used to strike quarters dated 1825. Most scholars recognize them as 1825/2; 25/3 and 25/4, but of late, it was discovered that a leftover die from 1824/2 was used as well. Although the B-2 is considered the most common die pairing, this example can hardly be considered common with regard to provenance and exceptional condition!

PCGS 2, NGC 3, CAC 1. The additional pieces grade MS66 and MS66+ at PCGS. This piece fetched a strong price of \$32,900 in our Regency Auction 27 in July 2018. With the majority of coins from the Pogue Collection ensconced in collectors sets, this piece represents a fabulous opportunity to add a stunning, wholly original example with an IMPECCABLE PEDIGREE to your collection. Bid liberally if you want to own this GEM!

LOT 166 25C 1828 NGC MS67

This is the SINGLE FINEST GRADED 1828 quarter, a coin that is two full grade points finer than any other NGC-graded 1828 quarter and is cleaner than the PCGS MS66+ CAC which is the highest graded at that service.

At first glance, you would not be blamed for thinking this SUPERB GEM is a Proof. The B-4 die marriage was used to strike Proofs as well as Mint State coins, as such, this SUPERB GEM's fields are distinctly Prooflike, with a bold flashy, mirrored texture. The fields are icy smooth, essentially PRISTINE, with no visible imperfections, even with the aid of a strong glass. The sharply struck from an early die state, the devices show razor sharp definition on both sides and is free from any cracks, clashes, or die rust. Both sides are awash in pastel blues, teals, and lilac tones with accents of gold and dove.

Clearly a coin worthy of the Condition Census, both the Tompkins and Rea, et al Early Quarter references just have Proofs listed. PCGS CoinFacts lists this coin as #2 on their census, behind the PCGS MS66+ from the Kaselitz Collection. Whether that coin, or this one is actually #1, may be up for debate, but what is NOT is that this coin is ultra high end and offers a stunning old time visual allure that cannot be beat.

PCGS 0, NGC 1. This coin realized \$108,688 back in June 2015, where it made its first auction appearance. Housed in an older NGC holder, its earlier provenance is unknown. The Kaselitz coin, which sold for \$111,625 in June 2015 is now impounded in the Dr. Charles Link Collection. This coin is cleaner and sharper in our view than that one, and this coin would make a stunning addition to any SUPERB type set or world class collection of Capped Bust quarters. You know that if we are offering this coin, rest assured its quality is all there!

LOT 167 25C 1831 BROWNING 2. SMALL LETTER. PCGS MS65 CAC

Ex D. Brent Pogue Collection.

Among the very FINEST KNOWN 1831 Capped Bust quarters that exists. Even if there are a few graded numerically finer, good luck finding another that looks like this one! Everything about this GEM is exceptional.

From a technical quality perspective, this MS65 is sharply struck and has beautifully lustrous fields that show a swirling cartwheel brilliance on both sides. Every detail is crisply rendered by a forceful impression from these William Kneass' updated dies. With the aid of a strong glass, nothing but the most insignificant touch can be found anywhere. The visual allure is outstanding as well. The radiant, concentric bands of gold, violet, and blue hues that caress the satiny smooth surfaces. Both sides are framed by these bands of color, like a divine halo of color. Truly a spectacular coin that ranks at the top of the Rea, Peterson, Karoleff, Kovach census published in 2010 and was the original NGC MS66* from the Madison Collection.

PCGS 14, NGC 20, CAC 8. In the Pogue Collection sale of May 2015, this coin realized nearly \$40,000 on an estimate of \$25,000-\$40,000. In the 2008 FUN auction, this coin realized \$57,500. Worthy of a bid well in excess of any published price guide values. Whether you are a bust quarter collector, or looking for a world class example for a type set, this coin should not be overlooked and should see very strong bidding for sure!

The perfect, crusty, original grade for an everyman set. The surfaces of this B-3 are clean, smooth, and show only the slightest hint of high point friction hidden below the steely-dove gray toning.

Accents of blue and olive-gold add to the allure.

PCGS 78, NGC 62, CAC 16. The last one to sell in auction brought \$1,410 in the 2017 FUN auction. The current PCGS value is listed at \$1,450 and the CAC CPG value is \$1,690. With so many collectors doing Everyman Registry Sets this coin will see active bidding.

LOT 169 25C 1860 PCGS MS67 CAC

We are proud to offer the SINGLE FINEST 1860 business strike quarter that exists!

Impeccable surfaces can be looked at over and over-even using a strong glass and you will find ZERO imperfections. The texture of the surfaces is satiny smooth. A full booming luster beams from all over. The obverse has a rich neat cover of original aqua blue/olive toning. The reverse offers the same blend of color at the rims only, fading to a pale golden hue over bold satin silver. No question this coin has never been messed with. Miss Liberty and the details are frosty and are sharply struck. The eye appeal is wicked cool!

PCGS 1, NGC 0, CAC 1. No Motto quarters in this lofty state of preservation are among the most undervalued quarters that exist. If (or when) these do appear, they are part of a once in a generation collection sale, like Gardner. If you are working on a SUPERB Type or quarter set, this is your coin. You will never see another 1860 like it, good luck!

Totally original and very high end, this is a glorious SUPERB GEM example of this low mintage, late date Seated quarter. Fully prooflike lustrous surfaces beam with a watery brilliance on both sides, accenting the sharply struck devices. The design elements of this beauty are fully and thickly frosted. Splashes of lilac, teal, rose, gold, and slate-pewter color grace both sides of this impressive GEM!

PCGS 35, NGC 23, CAC 11 There are 3 MS66+s graded at PCGS, none of which ever sold in auction. The current Collectors Universe

value is listed at \$3,500 and keep in mind anything finer is going to cost \$5,500+. A wonderful example for type or date.

LOT 171 25C 1877 PCGS PR67+ CAM CAC

Legend Rare Coin Auctions is honored to offer the FINEST 1877 Proof quarter ever graded and this coins is all quality and class! A special and magnificent piece. Exquisite mirrors are deep and beam boldly from all over. The mirrors have bold clarity and are clean save for a toning dot or two. When you twirl the coin the mirrors glitter. The obverse has a pale hint of gold while the reverse has an original crescent of pale magenta/gold/aqua blue/pale champagne colors. Miss Liberty and every detail are needle sharp in strike and are covered in thick frost. The eye appeal is tremendous!

PCGS 4, NGC 3, CAC 2. This is the ONLY 67+ CAM and NONE ARE FINER! Not only that, but nothing finer than PR66 CAM has sold in auction! Indeed the only comp for the date we can find anywhere is the former Newman NGC PR68+* CAM that sold for over \$22,000 back in 2015. Unpriced in the Collectors Universe or CAC CPG, this is a truly special SUPERB GEM worthy of the FINEST of collections. Bidding will be fast and fierce for this one, bound for a world class collection!

LOT 172 25C 1907-D PCGS MS66 CAC

Among the FINEST graded, this coin ranks with the Eliasberg-Duckor and Gene Gardner coins as tied for second highest at PCGS. High end semi-reflecitve surfaces have a bold brilliant luster that shimmers below a layer of dappled multicolored toning. Shades of blue, gold, and pewter dominate, with intermingling accents of purple, copper, and olive-russet toning. The surfaces are virtually unabraided and have a generally bold strike with just a tiny area of weakness on the left talon.

PCGS 5, NGC 2, CAC 4. The current PCGS Price Guide value is listed at \$8,500 and this coin sold for \$9,600 over two years ago. Just two coins are graded MS66+ finer. This coin belongs in a world class Barber quarter set.

WOW! The devices are razor sharp in their precision and are accentuated by mint frost that is as thick as ICING and completely unbroken! This coin is just one faint hairline away from a PR68! Magnificent aesthetics and gorgeous toning on the obverse in a swath of intense teal blue, red and violet on the left side and then fading to a soft rose and tangerine hue in front of the face. The reverse is toned in around the periphery in tangerine and gold hues.

PCGS 18, NGC 17, CAC 12. Inferior looking pieces sold in June 2018 for \$3,120 and May of 2019 for \$2,640. Listed in Collectors Universe for \$3,350. This coin is worthy of a premium bid when it crosses the block.

Smooth as glass surfaces shimmer with reflectivity and create a lovely backdrop to richly frosted, keenly struck motifs. When you add in the vibrant rainbow toning in shades of neon green, lemon yellow, fiery orange, crimson red, rose and electric blue, you really have an outstanding beauty! When scrutinizing the surface with a strong loop, all we could find were a handful of faint lines. Looks like a reconsideration candidate to us!

Only 846 Proofs were struck. PCGS 27, NGC 28, CAC 4. An example sold in September 2019 for \$1,680 and it didn't have nearly the eye appeal of this piece! Such an inexpensive series to pursue these days in Gem condition. Why not get started with this beauty?

A dramatic, SUPERB GEM with fully deep, and we mean DEEP CAMEO contrast. This awesome coin looks like it was minted in 1998, not 1898! Bold, deep, beaming mirrored fields offer the epitome of clarity and flash, which contrast stupendously against the thick mint frost of the devices. Razor sharp definition throughout, this untoned beauty has the visual intensity of an even higher grade.

Only 735 Proofs were struck. PCGS 12, NGC 16, CAC 6. Since CAC's inception in 2007, only two CAC approved examples have ever sold in auction (one coin has sold twice). The most recent sold in the 2018 FUN auction brought \$4,560 and had sold previously for \$7,050 in the 2014 FUN auction. The current PCGS Price Guide value is listed at \$7,500. There are just 14 coins graded finer in the DCAM designation, making this an impressive SUPERB coin for anyone looking to build a great set of Barber quarters.

We make no bones about it, this coin is owned and loved by Legend Numismatics. We all know they buy the best of the best! Here is how they wrote it up on their web site:

We could not have picked a better coin as the first MS66FH we have ever owned (we have owned numerous MS65's). This coin is totally original and is totally a SUPERB GEM!

Outstanding surfaces are as fine as you can dream of. We used a strong glass and looked really hard and found NO imperfections or ANY size, ANYWHERE. It clearly appears this coin left the bank 102 years ago and just sat somewhere safely undisturbed ever since. The luster is good and can be seen easily. Both sides are blanketed by a totally original moderate mix of pale champagne/golden brown colors with some russet borders. No question this coin has never been dipped or messed with. Most important, Miss Liberty and the details are sharply struck. You do not need a glass to see the rivets in the shield or the full head. The eye appeal is great!

PCGS 19, NGC 21, CAC 4.The last PCGS CAC piece to sell in auction brought \$52,875 in June 2018 in a LRCA sale (this coin). We have not seen an MS66FH in years before this coin came around. The Collectors Universe is a low \$55,000. We can see this coin trading closer to \$60,000. A PCGS CAC MS67 FH would easily be over \$150,000 (if you could ever find one). Take advantage of this unique opportunity!

The reverse is equally sharp with all of the eagle's feathers fully present.

A gorgeous GEM example of this semi-key date with a much bolder strike than normally encountered on this issue. Miss Liberty's head is partially visible, the inner shield rivets are pronounced and most importantly the digits of the date are struck to full advantage. Immaculate, creamy smooth surfaces are exploding with mint bloom. Interesting die crack through the tops of the digits in the date. A splash of light tone is in the folds of the lower drapery.

PCGS 54, NGC 24. The current PCGS Price Guide value is \$4,250 and nearly identical prices were realized in April 2017 at \$3,760 and March 2018 for \$3,750. Bound for a really high end set of GEM Standing Liberty quarters.

MONSTER toned! It looks like it was plucked out of a Wayte Raymond album just yesterday after being stored there for decades. An EXPLOSION of color cascades across satinlike fields in varying shades of crimson red, eggplant purple, fiery orange and lilac on the obverse, while the reverse boasts intense tangerine and ice blue hues. WOW! A feast for the eyes. After an arduous search with a high powered class we spotted a teensy mark on Washington's head.

PCGS 40, NGC 74, CAC 14. The auction prices are all over the place and color certainly a HUGE factor in final values. In January 2019 a pretty toned piece sold for \$5,040; June 2019 a piece with monster color sold for \$10,200, while in December of 2019, a white example fetched a paltry \$2,040. The sky's the limit on this gorgeous coin. The only question is, how badly do you want it?

Deep crimson, vivid gold, enchanting emerald, and royal purple colors give this coin an awesome technicolor look (it would put Joseph's Dream Coat to shame!). The surfaces are ultra clean for the assigned grade and shows off a stunning visual allure!

Go ahead and ignore the numbers. Do not bother looking at the Price Guides, APRs, or population figures, they will be of ZERO help in figuring your bids! This work of art is UNIQUELY toned, rates an 11 on our 10-point scale, and worthy of a VERY STRONG bid.

50C 1807 LARGE STARS. 50 OVER 20. PCGS XF45 CAC

This is a popular collector grade O-112. The mint hired John Reich as the replacement for Robert Scot and he set to work redesigning the nation's coinage. The half dollar and half eagle were the first denominations tackled, as they represented the workhorses of the American economy. His iconic Capped Bust half dollar is one of the most popular types in all of American numismatics, and next to Large Cents, is the most collected early series. The first reverse had an engraving error, where the die sinker mistakenly punched a 2 in the denomination, effaced it, then put the 5 over the remnants. This one is totally original, showing light, problem free wear. Richly toned, with dove, slate, and battleship hues. Some bluntness of strike, typical for the first year of issue, does not impact the eye appeal.

PCGS 54, NGC 36, CAC 12. The most recent PCGS/CAC coin sold in a January 2016 mail bid auction for \$1,430 and the current PCGS Price Guide value is listed at \$1,775. Demand for high end examples, regardless of grade, is always strong.

Totally original and very pleasing, this near-GEM has a handsome look. Pewter and dove blends with lilac on both sides. A lovely underlying luster accents the various shades in the tone. The strike is bold with just some minor weakness, typical of the date. A strong glass

reveals a stray tick or two, but nothing that detracts from the great eye appeal.

PCGS 68, NGC 69, CAC 14. There is a wide range of prices realized at auction for PCGS/CAC MS64s, from a low of \$4,560 in 2012 to a high of \$12,025 in 2016; the most recent selling for \$10,800 in April 2019. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

LOT 188 50C 1827/6 OVERTON 102. PCGS MS66 CAC

Ex D. Brent Pogue Collection.

We had the pleasure of selling this gorgeous GEM in our September 2018 sale of the Konstantine Collection, where we described it as:

"Among the very FINEST KNOWN 1827/6s that survive for collectors, PCGS has only graded as single coin marginally finer as a 66+.

This beautifully toned, ultra-GEM grade example has a spectacular eye appeal and clearly was lovingly cared for and preserved, a remarkable miracle of numismatic survival. A bold, glowing luster radiates with superb brilliance on both sides, rolling along on with strong cartwheels. The spectacular visual allure is augmented by a very attractive pale blue that dominates toward the peripheries, fading and blending with hues of peach, gold, and soft pewter. The surfaces are smooth and the luster is ultra creamy with a strong satiny texture. The devices are sharply struck up and crisply rendered by an exacting blow from the dies. The eye appeal is intense and SUPERB. It is almost unbelievable that a Capped Bust half could look this beautiful after so many years!"

PCGS 3, NGC 2, CAC 3. In its most recent appearance, in April 2019, this coin realized \$39,600 as part of the Jim O'Neal Collection. That in so short a period of time this GEM was included in the Pogue, Konstantine, and O'Neal Collections means that it is a high end coin, that even the pickiest of collectors enjoyed in their collections. You too can join their ranks, whether as a type, Red Book, or Overton collection addition. Good luck!

50C 1830 SMALL 0. PCGS MS65+ CAC

A real prize among 1830-dated half dollars and arguably the finest of the O-106 variety available for sale, in spite of the Overton census listing both an MS66 and MS67. But, as neither example has surfaced at auction, we are not sure of their existence. Suffice it to say, you would be hard pressed to find a nicer example of this issue, anywhere.

Thick frosty luster rolls over

immaculate fields toned in pewter gray hues and accented by wisps of baby blue and saffron. Fresh and original! So much finer than the average 1830-dated example which generally comes with a poor strike. A couple of teeny flea bites are noted on the chin and neck under intense magnification.

PCGS 27, NGC 24, CAC 8. Five pieces are listed in the PCGS population report as 65+. This coin last sold in our Regency Auction 28 on September 26, 2018 for \$12,337. Prior to this recorded sale, we sold an example for \$16,450 in our Regency Auction dated December 2017 and an O-101 with a terrific provenance of Earle-Eliasberg-Gardner sold in May 2015 for \$17,625. This is a great, collector oriented grade 1836 Reeded Edge half dollar. Only 1,200 were struck, after the mint installed the new steam powered press, which allowed half dollars to be struck with a close collar. The present example shows only the slightest friction over the surfaces, retaining hints of luster under the delicate original toning. Sharply struck up, the devices show wonderful definition. Very pleasing in terms of eye appeal, this wonderful KEY Bust half dollar will delight any collector.

LOT 193 50C 1837 REEDED EDGE. PCGS MS65 CAC

This is a gorgeous GEM Reeded Edge half dollar. A vibrant mint luster, glowing with a warm, satiny bloom. The surfaces show off a delicate iridescent, pastel tone. Rose, gold, lilac, olive and russet hues blend together on the high end, clean surfaces, unmarred by any mark of any kind. A sharp strike from cracked and

clashed dies, show off bold definition and very interesting die cracks on both sides, including an arching crack from star 4 through
Liberty's cap to star 9 and multiple cracks that encircle the reverse. The eye appeal is simply AMAZING!

In 1836 the Philadelphia Mint finally achieved a long standing goal of having a steam driven coining press. This meant that striking pressure would no longer be as varied as when coins were struck by men using a screw press. The mechanics of the steam press allowed for more precise and consistent striking pressure, as well as more uniform sizes to coins. This would thwart many counterfeiters who would be unable to match the high quality of the coins now being produced. In 1837 these Reeded Edge Half Dollars flowed into circulation, and this one was obviously set aside and carefully preserved.

PCGS 19, NGC 40, CAC 11. This high end example is worthy of a premium bid. The average APR for a CAC-approved MS65 is \$20,618 (9 coins sold between 2009 and 2019). PCGS lists a Price Guide value at \$19,500 and CAC's CPG value is currently at \$19,400. This coin however is very high end and is worthy of a bid stronger than that. A GEM like this, which is PQ defined, will fit into a world class set of half dollars or type coins.

PCGS# 6176 | ESTIMATE: \$20,000+

Among the ABSOLUTE FINEST KNOWN 1838 half dollars to survive and offering the combination of high certified grade, CAC approval, and the D. Brent Pogue pedigree, this coin is the ULTIMATE example for any advanced collector.

This delightful GEM borders on the SUPERB classification and is very high end for the assigned grade. A bold and impressive cartwheel mint luster radiates from below a dappled, variegated gold, dove, tan, and olive patina on both sides. The lovely shades are brought out vividly when the swirling luster catches the light. The reverse shows a touch of reflective vibrance in the protected areas of the devices. Both sides show off a generally sharp strike from cracked dies. The obverse shows a crack that starts at the rim below star 6 across the eye lid, through Liberty's curl, through the T in the ribbon, crossing the top of star 7. The reverse is cracked from T in UNITED to the rim between O and L in DOL. The only striking weakness of note is in the lower reverse, caused by uneven pressure. This beautiful GEM has a few tiny, insignificant ticks that are well hidden by the patination. A fantastic coin that has stunning visual allure!

PCGS 3, NGC 4, CAC 2. The most recent PCGS MS66 to sell in auction was NOT CAC and brought \$45,825 in our December 2016 Regency Auction. This coin brought \$44,650 in May 2016 and was the first MS66 graded by PCGS to ever sell in auction. PCGS has graded just a single MS66+ finer, which is the H.P. Smith; Clapp; Eliasberg coin that sold as an NGC MS67 back in 2012, and is now impounded in the Dr. Charles Link Collection. What a great opportunity to own one of the FINEST examples of this date, do not let it pass you by if you are working on a Type or Date set.

This highly sought after date and mint is a major condition rarity in the series! Don't be fooled by the relatively high mintage figures of 129,950 pieces coined, as many were melted and most extant specimens survive in Very Fine or lower grades! With only 4 pieces grading PCGS AU58 and mere 4 total Mint State specimens at PCGS and NGC

combined, coins of this calibre are exceedingly rare. Thickly frosted surfaces are graced by steel gray and light lilac hues. Original and a prize for the quality conscious collector! Honed motifs are devoid of any weakness.

PCGS 4, NGC 4, CAC 3. This coin sold in our Regency Auction 34 in September 2019 for \$14,687. If you have been chasing this date for a while in a high grade, you might want to keep that bidder paddle raised high, as opportunities like this are few and far between!

As the mint's focus after the passage of the Bland-Allison Act in 1878 changed to the churning out of hundreds of millions of Morgan dollars; the striking of silver minor coinage (dimes, quarters, and half dollars) shrank to low five-figure levels. Only 10,000 circulation strike half dollars were struck in 1881.

Like many of these lower mintage issues this highly lustrous GEM possesses a rich, Prooflike reflection below a lightly satiny mint frost. Clearly this coin was lovingly cared for from the time of issue, perhaps in an ancient album, as both sides show a subtle halo of color at the rims. The devices on both sides show typical definition; generally sharp throughout, but with some minor weakness at the highest points. The details are frosty and stand out from the smoothness of the fields surrounding them. The eye appeal is excellent! Housed in an old green tag holder.

PCGS 15, NGC 8, NGC 5. The only PCGS/CAC MS66 to ever sell in auction brought nearly \$10,000 nearly 10 years ago back in December 2010. More recently the only other CAC coin, an NGC example brought \$12,925 in October 2015. The current CAC CPG value is \$7,500, well in excess of the PCGS Price Guide value of \$5,850, showing that CAC coins are worthy of a very strong premium! This gorgeous GEM will entice strong bidding from the specialist collector. Good luck!

What a stupendous looking GEM! The eye appeal of this coin is high end and seductive, drawing the viewer deeper and deeper. Ultra flashy, watery reflective mirrored fields give a strong vibrance to the beautiful violet, rose, gold, magenta, cobalt, and teal toning that frames the brilliant central devices. The devices are sharply struck up and thickly frosted, imparting a bold, cameo contrast that is framed by the beautiful toning. We had a hard time putting this one down!

PCGS 24, NGC 16, CAC 7. The current PCGS Price Guide value is listed at \$3,750. Only a single CAC-approved example has ever sold in auction, bringing \$4,113 in the 2014 FUN auction; six full years ago! Clearly these are RARE and don't come up for sale with any frequency. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

You can be rest assured of quality GALORE when you realize this coin comes from such storied cabinets as those of the collectors mentioned above!

TIED with one other coin for FINEST KNOWN and save for a faint line or two this coin would be an MS68! Remarkably, this piece looks prooflike. Radiant mirrors are enhanced by pink, tangerine, lemon yellow, lime green and royal blue overtones. Heavy mint frost accentuates needle sharp motifs giving it a somewhat cameo-like appearance.

PCGS 2, NGC 0, CAC 2 This coin first crossed the auction block as part of the Duckor Collection in August 2010 in the ANA auction and sold for \$32,200, it later appeared as part of the Greensboro Collection where it sold for \$19,975 in October 2015. We had the privilege of auctioning the piece in our Regency Auction 30 where it fetched the princely sum of \$22,325. With no other MS67's being graded by either service, and nothing graded finer, this is THE COIN for a world class Barber half dollar collection so bid aggressively so you don't walk away disappointed.

Legend Rare Coin Auctions is proud to offer these selections from the Santa Fe Collection of late date Walkers. If you collection this series, especially coins dated from 1934 to the end of the series in 1947, this collection is a real treat! It ranks as one of the absolute FINEST ever assembled.

The collector was a no nonsense and astute specialist and insisted on buying only the very best superb gem quality examples available. As you will see when looking at the coins, the quality and eye appeal will be very hard to beat. Clearly the

collector who put these wonderful examples together focused strongly on those aspects. While not every coin is top pop, many are tied for, or very close to being tied for finest graded for their respective issues.

While he is sad to let these wonderful Walkers go, the collector is moving on to other areas of numismatics. His wish for these coins is that they end up with collectors who appreciate their quality and eye appeal. We are more than confident that his wishes will be granted.

LOT 223 50C 1946-D PCGS MS67+ CAC

Exceptionally high end and a remarkable SUPERB GEM that is tied for FINEST graded at either PCGS or NGC.

A bold, frosty mint luster glows with a soft pearlescent texture under a layer of pleasing, pastel toning. Lilac-infused pewter surfaces show peripheral accents of gold and orange patina

that ups the ante on the outstanding eye appeal. Sharply struck, the details are fully impressed on this SUPERB example adding to the awesome visual quality.

PCGS 126, NGC 138, CAC 58. PCGS has graded just 14 coins in MS67+ and NONE ARE GRADED FINER! We sold the last two examples, the most recent for \$15,275 in our December 2019 Regency Auction. Prior to that, we sold one in September for \$14,688 and in November 2018 we sold one for a RECORD \$18,213. This coin's quality, eye appeal, and lofty grade will attract very strong bidding from anyone building a top ranking Registry Set.

This coin is in the

Remarkable surfaces have a thick satiny texture and are amazingly clean and smooth. Even the dreaded right obverse field is for once super clean. A strong glowing like luster beams boldly

from all over. The obverse enjoys some splashes of original moderate reddish gold toning. The reverse is untoned. No question this coin was never messed with in any way. Miss Liberty and the details are clearly well struck. The eye appeal is super!

PCGS 88, NGC 71, CAC 25. PCGS has graded 15 in MS67+ (highly unlikely even half are CAC). The last PCGS CAC example to sell in auction brought \$12,000 in November 2019. We could see this wonderful coin selling for more as a few more people are building short sets. Opportunity knocks loud here!

Among the absolute FINEST graded, this beautifully toned 47-D stands out for its outstanding technical quality and stunning visual allure!

A superb, frosty, satin luster blooms all over the flawless, pristine surfaces. The fields and sharply rendered devices are smooth, totally devoid of any marks of consequence. Autumnal apricot/orange and gold toning frames both sides, framing the brilliant silver center surfaces. Well struck, and beautifully toned and highly lustrous, this SUPERB GEM is worthy of its place at the very top of the PCGS Population Report and CAC green bean of approval. Clearly this remarkable coin sat for ages, undisturbed, in an old album.

LOT 226 50C 1917-S OBVERSE. PCGS MS65 CAC

The 17-S Obverse is a KEY date in GEM grades, with fewer than 50 graded MS65 or finer at PCGS. Today, with collectors demanding the absolute FINEST, this MS65 with CAC approval is bound to be a hotly contested coin among serious collectors, especially with the new PCGS/CAC Registry program, there is just a single MS66 approved by CAC finer.

This lovely example that is sharply struck up, every detail is crisply rendered by an exacting blow from the dies. Even Liberty's thumb is fully delineated and separated from the surrounding area of the design. A shimmering iridescence can be seen in the light, especially on the reverse, attesting to the originality of this GEM. A few ancient contact marks can be found with a glass, but none detract from the outstanding eye appeal and the surfaces show SUPERIOR quality.

PCGS 45, NGC 29, CAC 9. There have been seven PCGS/CAC examples sold in auction, four of which sold for \$30,550, though the most recent was in our March 2019 Regency Auction, realizing \$23,500. The current PCGS Price Guide value is listed at \$25,000 and the CAC CPG value is listed at \$27,200. EXTREMELY RARE any finer! While we make no guarantees, the first thing we want to say is that this coin has the eye appeal of a higher grade! This has to be one of the prettiest Judd-60 Restrikes we have had the pleasure of selling in auction! This one has a high end visual allure that cannot be beat.

The mirrors are deep and beaming with a bold, clarity of reflection that is RARELY seen on Gobrecht dollars. They are ultra flashy and have a rich glassy texture in the fields. Aside from the the faintest stray lines, the surfaces are the epitome of smooth and free of any distracting marks. Very pleasing color is seen, a bold patch of teal and violet with traces of gold that is dusted throughout. The sharply struck devices stand out in stark contrast to the icy mirrored fields. The design elements show fuller definition than normally seen and the eye appeal is much better than what you normally see.

Struck in Die Alignment III, the eagle flies even, with the pellet between AMERICA and DOLLAR at 3:00. These are now recognized as the Restrikes, struck from an advanced, cracked reverse die state.

We think the current PCGS Price Guide value of \$38,500 does not reflect this coin's exceptional GEM eye appeal. We know bidding will be very strong for this exceptional quality Restrike 1836 Gobrecht. The eye appeal is better than the PR64 that sold in the 2016 ANA auction for \$47,000.

The Bear Creek collector developed a fascination for dollars when as a 10 year old in 1960, his father would bring back canvas bags containing 100 silver dollars from his junkets to Las Vegas. They would search through the bags together and would occasionally find a very worn seated dollar, which would of course be saved as it occurred to them then, that these seated dollars were very rare. Since re-entering the coin market in 1979 after an absence of 20

years, and having built a top three pop registry set, research has re-confirmed how rare these seated dollars are. The extremely low mintages (i.e. the coins minted in the 1850's) all have lower mintages than an 1893-S Morgan. Because of these factors Seated Dollars seem under appreciated and underpriced in today's market. He hopes that collectors get as much joy from these seated dollars as he did in building his collection.

The 59-S dollar represents the first silver dollar issue produced at the San Francisco mint, and is a lower mintage issue of just 20,000. The primary reason for striking this issue was for foreign trade, notably in Asia. When in an attempt to rebalance the gold to silver ratio in domestic circulation in 1853, the half dime through half dollar had their weights reduced, making the dollar the only silver coin of the realm that would be accepted in international trade, particularly in China. The entirety of the mintage of 1859-S dollars was exported, and they circulated widely. Most known examples are in VF grade or

so. Traces of mint luster remain in the lightly worn fields, clinging mostly in the protected areas of the devices. The details are sharply impressed on the planchet showing just a trace of friction on the highest points. We note scattered ticks associated with a brief stay in commerce, after transversing the Pacific Ocean at least twice. This is an issue that does not come nice, as evidenced by the lack of CAC approval; between PCGS and NGC, 125 coins have been graded in AU50-AU58 and exactly TWO have received CAC approval!

LOT 254 \$1 1868 PCGS MS63

Ex Sterling Collection, as noted on the holder.

-62460-

A conditionally RARE date, with just 16 coins graded MS63 or finer at PCGS. An iridescent, silver white tone is gently dusted over semi-reflective surfaces on both sides. Traces of clear gold cling to the peripheral devices accenting a strong strike. Some very light lines and a few minor

contact marks account for the assigned grade, but they do not singularly detract from the decent eye appeal of this scarce date.

PCGS 5, NGC 4. Since 2002, just three PCGS coins have sold in auction, the most recent for \$6,000 in the 2018 ANA and before that one sold for \$12,600. The current PCGS Price Guide value is listed at \$7,750. Just 11 are graded higher, and any PCGS MS64 is going to cost between \$15,000-\$20,000.

LOT 255 \$1 1869 PCGS MS62

This is a very pleasing MS62, a true "BU" coin with a bold mint luster. A vibrant satiny luster beams brilliantly on both sides. The devices are somewhat bluntly rendered with just some minor weakness seen in places. There are a few marks, mostly relegated to the reverse, which account for the grade. RARE finer.

PCGS 17, NGC 13. The current PCGS price Guide value is \$4,250 and the most recent examples have sold in the \$3,241 to \$4,230.

LOT 257 \$1 1870-CC PCGS AU53

This is an important issue among dollar collectors, its low mintage of 12,462 represents the first Carson City dollar coinage. Most of these went into wild west circulation and remained in commercial channels for years. Most survivors grade between VF20 and AU50.

Ample satin luster remains in the fields under a layer of dove and pewter toning. The details are very sharp, with just a touch of friction on the highest points. Some scattered ticks and lines from its time in commerce can be seen with the aid of a glass, but the surfaces are devoid of the typical scratches, harsh cleaning, or other defect that plague so many of these 70-CC Seated dollars. If it is an indication of how these come, note CAC has never stickered any AU53.

PCGS 29, NGC 18. Going back to September 2011, 10 AU53 coins graded by PCGS have sold in auction, realizing an average of \$7,108 and the current PCGS Price Guide lists a value of \$7,250. Scarce in AU55 and AU58, and extremely RARE in any Mint State grade, this pleasing coin will delight any CC specialist or Seated dollar collector. Good luck.

LOT 256 \$1 1870 PCGS MS62

A scarce Mint State survivor, one that offers a satiny brilliance on both sides. A soft alabaster iridescent hue mingles with the original silver and a touch of the most subtle peripheral gold. The reverse shows some PL tendencies which add character to the visual aspect. We do note some light marks and a few tiny scuffs that attest to the grade.

PCGS 30, NGC 17. The last one to sell brought \$2,820 in September 2016 and the current PCGS Price Guide value is listed at \$3,250. Challenging to find in higher grade.

\$1 1873 NGC MS62 PL

This highly reflective and lustrous example is the SOLE PL designated example at either service. The brilliance of the mirrored fields give off the first impression of a Proof striking, but it is on closer inspection a circulation striking from an early, polished state of the dies. The devices, showing some normal weakness in areas, display a thick, rich mint frost. There are scattered ticks marks, and some light lines that appear in the flashiness of the fields, when rotated in a light. While the overall color is brilliant silver, with some light white iridescence suggests an old dip that did not burn into the surfaces.

PCGS 19, NGC 20 (non PL); PCGS 0, NGC 1 (PL). Off the market for nearly a generation, this coin last sold in the 2006 FUN auction. The most recent non-CAC NGC coin without the PL status realized \$3,220 in April 2012 (clearly these are not as commonly offered as the population might suggest). The current Collectors Universe value is listed at \$3,500 and perhaps this coin, with its unique status as the ONLY PL designated example will exceed that level.

This richly toned GEM clearly ranks among the highest graded at PCGS and is a high quality, totally original example.

Ample reflection, coming from watery textured mirrored fields are smooth and flashy in a light. The fields are generally smooth, free of serious defect and lovely

clarity despite the deep toning. When caught in the light at certain angles, a wonderful melange of blue, violet, and orange-red hues blend neatly on the obverse, while the reverse has an iridescent gold over the silver in the center, yielding to an azure band at the rim. The eye appeal is excellent.

Only 950 Proofs were struck. PCGS 22, NGC 14, CAC 6. the last one sold for \$9,600 in the 2018 ANA auction, and it did not look like this one! LOT 261 T\$1 1878-S TRADE STRUCK 5% OFF CENTER. PCGS XF40

A remarkably RARE and impressive mint error, one of perhaps three known Trade dollars struck off center. It is, in the words of noted error specialist, Fred Weinberg, a "trophy" error coin.

Struck off center towards 1:00 on the obverse, there is a margin along the opposite rim. We highly doubt that this coin actually circulated, but was carried by the fortuitous person who discovered it as a pocket piece. Only light friction is noted, all the devices retain strong definition throughout. Very cool, deep toning "pulls away" from the peripheral devices accentuating the off center strike. The eye appeal is clearly unique and intriguing. This is a VERY RARE error, possibly unique for the date, and perhaps a handful exist for the entire series.

Our estimate is based on our consignor's conversations with Fred Weinberg; Fred believes that this coin could realize anywhere between \$35,000 and \$50,000, but who knows! This is a truly unique opportunity to acquire a very important and visually impressive Mint error. We would like to congratulate the winning bidder in advance on this one!

Add to that a stunning melange of brilliant gold, tangerine-orange, purple, azure, pink and green hues are brought together by a rich cartwheel luster. We rate the color as an 8.5 overall, but for a date that rarely comes with bold toning,

There is no question to us this coin was sent directly from heaven to PCGS, then to Legend Auctions.
This coin is real borderline MS68!

Remarkable surfaces reveal no flaws, even when using a strong glass. The surfaces are all clearly semi-prooflike and pack a powerful booming luster. You do not have to guess there are mirrors on this coin. The coins color is clearly a GEM ORIGINAL WHITE. Miss Liberty and the details are heavily frosted and are

fully struck. In fact, there is a small frost break on her cheek, which is what we suspect keeps this coin from being an MS68. regardless this is far superior to any MS67's-and many MS67+ we have seen. The appeal is phenomenal!

PCGS 97, NGC 80, CAC 25. PCGS has graded 10 in MS67+ with only 1 higher. The last PCGS CAC piece to sell in auction brought \$31,200. The current Collectors Universe Value is \$25,000. This coin is VERY fresh to the market also. If you have extreme standards-this coin will more then please you! if you are building an ultra GEM Morgan set, this is your 82-CC!

LOT 287 \$1 1882-S PCGS MS67+ CAC

This is an very high end, SUPERB GEM with a bold, swirling cartwheels on both sides. The mostly untoned, brilliant silver white surfaces glisten in the light, accenting the sharply struck devices. A touch of dappled tone caresses the lower obverse rim, we note a few die lines at RIBUS UNUM, which are interesting. There are no distracting marks or lines anywhere, and the eye appeal is excellent.

PCGS 1247, NGC 1836, CAC 444. PCGS has graded 168 in MS67+. The current PCGS Price Guide value is listed at \$1,600. The most recent example sold for \$1,200 in October 2019. VERY RARE any finer.

PCGS# 7140 | ESTIMATE: \$1,100+

LOT 288 \$1 1883-CC PCGS MS67 CAC

This 83-CC is a gorgeous SUPERB GEM! Bold and brilliant mint luster blooms vividly and vibrantly across the satiny smooth surfaces. Strong, rolling cartwheels flow evenly across both sides of this virtually untoned example. A blush of the faintest golden hue can be seen when rotated in a light. A miniscule tick or two can be seen with the aid of a strong glass, but none are in any prime focal areas, nor do they impact the great visual appeal of this superb example.

PCGS 240, NGC 132, CAC 78. The last two PCGS/CAC examples sold in our May and September 2019 Regency Auctions for \$5,640. This great coin will see strong bidding and will be at home in a high end collection focused on quality examples.

PCGS# 7144 | ESTIMATE: \$4,200+

LOT 289 \$1 1883-CC PCGS MS66+ PL CAC

High end brilliance and bold reflection beam all over on both sides. Sharply struck up, the design elements stand in nice contrast to the mirrored fields, especially the cheek which is smooth, clean and frosty. The technical quality and eye appeal are high end.

PCGS 218, NGC 82, CAC 41. Just 26 are graded MS66+ PL. We sold one for \$2,350 in our July 2018 Regency Auction, and the current PCGS Price Guide value is listed at \$1,800. Just 9 examples are graded finer, and a 67 PL with CAC approval will cost way more (the last one brought \$22,800 in the 2019 ANA auction). This very high end 66+ PL will suit anyone looking for a great addition to a more budget friendly Registry Set.

PCGS# 7145 | ESTIMATE: \$1,400+

If this was a common date, we would have no issue with it in a MS65 holder, for the 83-S, we think PCGS did the right thing holding the line. As a date, the 83-S, with its 6.25 million mintage, would appear to be a common coin. However few were saved at the time of issue and Mint State coins become quite rare at the currently offered MS64+ level. They are a classic condition rarity in GEM grade, and are EXTREMELY RARE to find such. In the days before 3rd party certification, this coin would have been graded a GEM BRILLIANT UNCIRCULATED.

A satiny mint luster blooms with a radiant cartwheel brilliance on essentially GEM quality surfaces. Indeed, were it not for a tiny contact mark along Liberty's cheek bone, we think this coin would have been graded higher (no guarantees it will). The strike is strong for the issue, with nearly fully rendered curls and feathers. The brilliant surfaces are untoned and show off vivid original silver color.

PCGS 523, NGC 243, CAC 79. PCGS has graded 61 in 64+. We believe that since only 26 have graded MS65 or finer in 33 years of coin grading, there has to be some duplication of the same coin being submitted in hopes of attaining a higher grade. In the last 3 years, there have been 8 PCGS MS64+ CAC coins sold in auction, ranging from \$5,280 to \$11,400 and the current PCGS Price Guide value is listed at \$12,000. Keep in mind that a PCGS/CAC coin is worth \$50,000+ with the Stone Collection coin bringing \$50,000 in May 2018 and the Coronet coin bringing \$52,875 in our June 2015 Regency Auction. This is a real prize for anyone working on a high end PCGS Registry set, and with the new PCGS/CAC Registry, this coin is only bettered by 4 in MS65 for those purposes. Bidding will be fierce for sure.

LOT 291 \$1 1884-O PCGS MS67

·02460.

A brilliant example in Superb grade. Bright satiny luster blooms all over, accenting the nicely rendered devices and generally clean surfaces. The details are crisply defined, with just some minor weakness in the central devices. We really do not understand why this one didn't pass CAC, but we think its quite nice.

PCGS 168, NGC 121. The most recent example to sell brought \$1,500 in October 2019 and the current PCGS Price Guide value is listed at \$2,250. VERY RARE finer with just 15 in MS67+ and a single MS68 at PCGS. A very nice coin for any budget minded Registry Set collector.

LOT 292 \$1 1884-O PCGS MS67+ CAC ...

Ex Gold River Collection, as noted on the insert.

A bold, brilliant, stunningly lustrous, high end SUPERB GEM that ranks among the absolutely FINEST of this otherwise common date.

The satiny luster blooms brilliantly on both sides of this high end beauty. The most delicate blush of clear, iridescent gold can be seen on the surfaces, but will be a fine addition to any untoned set.

Despite a high mintage of 9,730,000 and huge quantities of mint bags released in the early 1960s, the number of SUPERB GEMs is quite

PCGS 183, NGC 129, CAC 41. There are 15 graded MS67+ at PCGS and a single finer in MS68. The most recent sold for \$7,800 in September 2019, and the world record for the date was achieved in our May 2019 Regency Auction for \$9,694. The single 68 has never sold in auction, making this CAC MS67+ one of the FINEST you will find on the market today! Good luck!

PCGS# 7154 | ESTIMATE: \$6,500+

LOT 293 \$1 1885 PCGS MS67 CAC

A SUPERB GEM with immaculate, bright and satiny silver lustrous surfaces. This high end beauty displays a very cool multicolored half moon along the right obverse rim.

PCGS 184, NGC 207, CAC 106. The most recent example sold for \$2,100 in July 2019, and we sold one in our May 2019 Regency Auction for \$3,525. The current PCGS value is \$2,500 and this date is quite RARE any finer, with fewer than three dozen graded finer. A prime example for a great Morgan dollar collection.

LOT 294 \$1 1885-CC PCGS MS66 CAC

A well struck and strongly detailed untoned white PQ GEM example of this popular Carson City Mint Morgan Dollar. Bold luster gleams from all over on both sides, giving it a great look.

PCGS 1340, NGC 679, CAC 282. The most recent example sold in the 2019 ANA auction for \$1,700. The current PCGS Price Guide value is listed at \$1,750 and the CAC CPG value is \$2,000. A great looking coin like this will fit in nicely into any GEM set.

PCGS# 7160 | ESTIMATE: \$1,500+

LOT 295 \$1 1885-CC PCGS MS66+ CAC

A marvelous borderline SUPERB GEM 85-CC dollar. The brilliant luster booms all over on this PQ example with a bold, satiny vibrance. The design elements are sharply struck and frosty.

PCGS 1572, NGC 734, CAC 285. PCGS has graded 233 in MS66+ and this date is very scarce finer. The most recent example brought \$3,840 in December 2019 and the current PCGS Price Guide value is listed at \$2,500. This coin is quite nice and should bring a premium bid. Any MS67 is going to bring more than double, and a CAC approved example is five figures. Good luck.

\$1 1885-O PCGS MS67+ CAC

Uber-high quality, even for a coin in this lofty state of preservation. Sharply struck up, the frosty devices stand out with a bold, brilliant, booming mint luster that radiates all over. Generally quite clean and high end.

PCGS 406, NGC 600, CAC 169. In MS67+, PCGS has graded 53 and a mere five coins finer. The current PCGS Price Guide value is listed at \$3,750, which is about average for the last 10 PCGS/CAC APRS. This coin brought \$3,290 three years ago. What a great opportunity to add a coin that is tied for second highest graded, keeping in mind that this date is represented by only five MS68s finer, which carry a Collectors Universe value nearly 10x as high. Good luck!

PCGS# 7162 | ESTIMATE: \$3,000+

LOT 297 \$1 1885-S PCGS MS66

Here is a satiny, lustrous GEM 85-S dollar. Bold and brilliant mint luster swirls over the well preserved surfaces. Clean surfaces are generally clean and free of distracting marks of any kind. A few splashes of color are noted with the aid of a strong glass, but do not detract. What a great looking coin for the collector.

PCGS 94, NGC 13. The most recent example to sell in auction brought \$4,230 in our May 2019 Regency Auction. The PCGS Price Guide value is listed at \$4,500. There are just seven coins graded finer, with five in 66+ and two in MS67. This is an appealing GEM for the Set Registry collector that should see strong bidding for sure.

PCGS 539, NGC 906, CAC 315. APRs range from\$825 to \$1,680 in recent months and the current Collectors Universe value is listed at \$900. With its lovely eye appeal, this coin will delight any collector.

LOT 299 \$1 1887 PCGS MS67+ CAC

Exquisite everything, this SUPERB GEM is one of the FINEST KNOWN survivors from a mintage that was well in excess of

20 million. After nearly 34 years of operation, PCGS has graded just a SINGLE MS68 finer.

Bold, swirling cartwheel luster rolls over satiny surfaces. The fields are icy smooth and the devices are sharply impressed and frosty, offering a bold, problem free look. The peripheral areas have a delicate frame of

multicolored toning that contrasts against the brilliance of the shimmering, original silver that dominates. What a great looking coin!

PCGS 213, NGC 350, CAC 71. There are just 20 graded MS67+ at PCGS. The most recent example to sell in auction brought \$5,520 in September 2019, and prior to that we sold one in May 2019 for \$6,463. The current Collector's Universe value is listed at \$7,000 and they list the sole finest at \$30,000! Worthy of a world class Morgan set and will see strong bidding when it crosses the block.

LOT 300 \$1 1888-O SCARFACE. PCGS MS61 CAC

VAM 1B - Top 100 Variety.

The Scarface variety is known as the "mother of all Morgan die breaks." Like the Bearded Goddess in the Capped Bust half dollar series, this is one of the few times that a broken die becomes a hugely popular Red Book variety, in demand from all manner of collectors. And this one, despite its more modest MS61 grade is very attractive with a pearly-satin sheen and delicate tone. The die break is thick and bold imparting a dramatic look to this really cool coin.

PCGS 15, NGC 16, CAC 6. Though the last one to sell in auction brought \$2,880 in the 2018 ANA auction, the average APR for PCGS/CAC MS61s is nearly \$5,750 and the current PCGS Price Guide value is listed at \$4,250. RARE finer, none have graded beyond MS64.

This is a true Mint State coin for the collector looking to expand on their Morgan dollar set.

PCGS# 87184 | ESTIMATE: \$3,000+

LOT 301 \$1 1889-CC PCGS MS62 PL

A CLASSIC RARITY and aggressively sought after Carson City Mint issue. Just 350,000 pieces coined. Considering the overall mintage, pieces with PL and DMPL surfaces are actually very scarce. This coin is a LOOKER and is begging to be in an MS63 grade holder! Very nominal contact marks and abrasions are seen in the fields, especially in light of the MS62 grade. One would expect more bagginess, but this coin is a welcome exception! Ivory white, glittering fields surround thickly frosted devices which are struck with precision detail. Lovely contrast.

PCGS 35, NGC 23. Recent auction records for the date and grade have an example selling in December 2018 for \$31,200 and a nice first generation PCGS issue fetching \$60,000 in June 2019. For some reason this date rarely obtains the coveted CAC sticker. In fact only a dozen have obtained the designation in over 300 Mint State examples graded at NGC and PCGS combined! If any coin had a fighting chance to obtain one, it would be this example. Worthy of spirited bidding!

PCGS# 7191 | ESTIMATE: \$32,000+

LOT 302 \$1 1890 PCGS MS65+ CAC

This is a date/grade combination that you very rarely ever see and worthy of serious consideration from any advanced Morgan dollar collector! This is a bold and high end GEM! Vivid mint brilliance gleams from all over with a strong, swirling mint luster. Both sides offer a rolling cartwheel effect especially on the reverse. The devices are sharply struck up and the cheek is nicely frosted and free of any distracting marks. Indeed, there are no serious abrasions of any kind worthy of mention.

PCGS 863, NGC 313, CAC 56. PCGS has graded 104 in 65+ and just 5 finer. None of the MS66s have been CAC approved, making this among the FINEST CAC coins you can ever hope to own for the date. A 65+ CAC sold in our September 2019 for \$4,465. This is an important coin, especially for anyone working on a PCGS/CAC Registry Set.

LOT 303 \$1 1890 PCGS MS64 DMPL

This is a highly reflective DMPL 1890 Morgan dollar. The thickly frosted devices stand out with crisp definition against the deeply reflective mirrored fields. A few scattered ticks and marks, amplified by the reflection of the fields, account for the assigned grade, but the eye appeal is still quite nice.

PCGS 101, NGC 33. The current Collectors Universe value is listed at \$1,700 and the average APR for the last 10 non-CAC PCGS-graded examples, which range from April 2014 to June 2019, is \$1,544. Fewer than two dozen are graded higher making this an impressive opportunity for any collector. Good luck.

LOT 304 \$1 1890-O PCGS MS65+

Here is a pleasing, satiny GEM example of this conditionally rare New Orleans mint Morgan. Rarely seen above MS65, this 65+ is the highest grade most collectors can hope to own. Nicely struck for the issue, with just the slightest touch of weakness on the hair curls. The surfaces show only the most minute traces of contact and delicate pearlescent toning. We are not sure what CAC did not like about this one.

PCGS 75, NGC 3. The current PCGS Price Guide value is listed at \$1,650. This coin brought \$1,645 in June 2017. RARE any finer, fewer than three dozen have graded higher, making us think that there is duplicate submissions in 65+ hoping for the elusive MS66 grade.

PCGS# 7200 | ESTIMATE: \$1,200+

LOT 305 \$1 1890-O PCGS MS65+ CAC

Scarce in GEM, and VERY RARE any finer, the 90-O dollar offered here is brilliant with a rich, frosty satin luster. Very clean surfaces for the assigned grade, the eye appeal of this impressive, original coin is high end!

PCGS 883, NGC 208, CAC 62. PCGS has graded 80 in 65+ and just 31 finer. The last two PCGS MS65+ CAC examples sold in April 2016 for \$3,055. This lovely coin is worthy of a premium bid. A PCGS MS66 with CAC s a five figure coin, making this high end example a great value by comparison!

PCGS# 7200 | ESTIMATE: \$2,500+

LOT 306 \$1 1891-CC PCGS MS65+ CAC

This is a high end GEM example of this popular Carson City issue. Sharply struck devices stand out against smooth, unmarred surfaces. Highly lustrous surfaces show a rich satiny mint frost that radiates brilliance throughout. The eye appeal is impressive.

PCGS 831, NGC 129, CAC 58. There are 56 graded MS65+ at PCGS and fewer than fifty finer. The most recent PCGS/CAC MS65+ sold for \$6,169 in our January 2019 Regency Auction and the current PCGS Price Guide value is \$6,000. With a bold visual appeal, this coin will find itself at home in quite the high end set.

LOT 307 \$1 1891-O PCGS MS65

Here is a pleasing 91-O dollar in PCGS certified GEM quality. Satiny mint frost glows all over the generally smooth surfaces. There are a few scattered marks, but they do not detract from the eye appeal and are appropriate for the assigned grade. EXTREMELY RARE ANY FINER!

PCGS 138, NGC 67. Just a dozen examples have graded higher, with a single MS66 at the top of the Population Report that we sold in March 2019 for \$108,633. The most recent PCGS MS65 brought \$3,240 in June 2019, and the last one we sold was in July 2018 for \$3,995. If you are looking for an upgrade to your set, check this one out.

LOT 308 \$1 1891-O PCGS MS65+ CAC

Ex Illinois Set.

This AMAZING example boasts one of the greatest pedigrees for a GEM Morgan dollar with color: Sunnywood-Simpson (though not noted on the holder). This coin was sold in our October 2014 Regency Auction, where we described it as being a "really outstanding 1891-O dollar with a smooth and fully rounded cheek, this elegantly toned specimen would be a strong candidate for the first MS66 of this issue ever

graded by PCGS. It is perhaps held back only by some typical weakness in the strike, in the vicinity of Miss Liberty's ear. This is probably the cleanest, sharpest toned 91-O we've ever seen." While it never made MS66, its high end look placed it into the all-time highest ranked PCGS Registry Set of Morgan dollars, the Illinois Set. Prior to being in our October 2014 sale, it was ex Ex Bob Brahms; Gary Adkins; Superior, Fort Lauderdale Elite Sale (1/11/05:778).

PCGS 149, NGC 68, CAC 10. PCGS has graded a mere 11 in MS65+ and just a single MS66 finer (which sold in our March 2019 Regency Auction for a world record \$108,688!). The only other PCGS MS65+ with CAC approval sold in April 2015 for \$19,388. Worthy of another WORLD CLASS Morgan dollar set, this coin will see very strong bidding from anyone building a very high end set!

LOT 309 \$1 1891-S PCGS MS66 DMPL CAC

This is the singe FINEST DMPL 1891-S Morgan dollar graded! No question this coin is SUPERB with deep, full mirrors! You don't see 1891-S dollars like this, ever!

Ultra high grade for the date to begin with! Both sides have full 8"+++ mirrors that beam boldly from all over. The depth and clarity of the mirrors are off the charts, enhanced by a bold cartwheel luster that rolls smoothly over the entirety of the surfaces. Ms. Liberty and every detail stand out with crisp full strikes and remarkable white frost, imparting a grand CAMEO-like contrast. The eye appeal is remarkable!

PCGS 1, NGC 0, CAC 1. Unpriced in the Collectors Universe Price Guide and the CAC CPG. Far finer than anything we have seen in previous auctions, this monster 91-5 DMPL will realize a new record when the hammer falls. The eye appeal and technical qualities are really off the charts and high end!

PCGS# 97211 | ESTIMATE: \$35,000+

LOT 310 \$1 1892-S PCGS MS67+ CAC

Ex Vanderbilt Collection, as noted on the PCGS insert. The 1892-S Morgan Dollar is one of the most famous condition rarities of the Morgan dollar series. Any Mint State coin is a major rarity, and the higher up the grading scale you go, the harder they are to find. This STUNNING SUPERB ranks as the SECOND FINEST GRADED BY PCGS, and is likely tied with the Eliasberg-Coronet coin for second finest known honors. Legend Rare Coin Auctions is proud to offer this exceptional quality rarity and it is the highlight of our Regency Auction. This coin was from Sotheby's May 2018 Historic Coins and Medals auction, featuring Magnificent Morgan Silver Dollars from the Collection of Ralph and Lois Stone, where it was described as lot 103, in part as:

"An amazing example. Fully struck, with hard, clean surfaces. The obverse with remarkably deep prooflike flash, the reverse somewhat shallower with areas of frost. Virtually blemish-free...The essentially white surfaces are gently overlaid with very pale golden hue. An absolutely remarkable coin."

We contend that that description does not begin to highlight the sheer brilliance of the magnificent lustrous surfaces on both sides. While elsewhere in their description, they mention some tiny ticks, they are clearly invisible to the naked eye and require a strong glass to locate. The shimmering reflection of the obverse field certainly would warrant a PL designation if the reverse had a fresher polished finish on the dies. Totally original in every sense, this coin has a stunning eye appeal that is totally different from the Eliasberg-Coronet piece that had a halo of blue and gold splashes at the rims.

The FINEST 1892-S Morgan Dollars, graded by PCGS are listed as follows: 1: MS68. Jack Lee Collection, sold in Heritage, November 2005, lot 2309.

2: MS67+. The Midwest collector to Ed Milas of RARCOA; to David Carter Collection; to Dr. George Bodway; to Jack Lee; to the Ralph Stone Collection, probably via Jefferson Coin and Bullion before 1995; Sotheby's May 2018 sale of the Ralph and Lois Stone Collection, lot 103 (housed in an old green tag PCGS MS67 CAC holder); Vanderbilt Collection. THE PRESENTLY OFFERED COIN.

3: MS67. J. Colvin Randall sold this magnificent coin to J.M. Clapp in March 1894 (Randall likely bought this coin directly at the mint at the time of issue). Passing to John H. Clapp, this coin was purchased by Louis Eliasberg as part of the Clapp estate purchase brokered by Stack's in 1942. It sold in 2001 and placed in the Arno Collection. Arno was sold in the 2009 FUN Auction, and this coin realized \$460,000 and placed into the Coronet Collection, the all time #1 PCGS Registry Set of Morgan Dollars. Appearing as lot 61 in our June 2015 Regency Sale, where it realized \$446,500; Legend Rare Coin Auctions October 2017 Regency Auction, lot 384 for \$470,000.

4: Palm Beach Collection, Heritage, January 2004, lot 2120; Anne Kate Collection, Stack's Bowers, June 2012, lot 3200.

The majority of the 1892-S mintage either disappeared into circulation where they would remain for many years, or if any quantity remained in government holdings were melted en masse in 1918 as part of the Pittman Act. It is also possible that a combination of those two events accounts for its Mint State rarity. As the economy fell into a deep panic in 1893, dollar mintages dropped dramatically with earlier issues not being replaced in commercial channels. Attrition from circulation and wholesale melting in 1918 leaves just 117 examples graded by PCGS and NGC combined between MS60 and MS68.

PCGS 5, NGC 5, CAC 2. There are 2 coins listed on the PCGS Population Report as MS67+ and just a single MS68 graded finer. In MS67 the current CAC CPG value is listed at \$514,200 and the current MS67+ Collectors Universe value is listed at \$525,000. That said, this coin will certainly sell for more; especially if you demand that your Registry Set coins have CAC approval (the Jack Lee MS68 is NOT CAC approved at this time). If you are working on the FINEST of Morgan dollar sets, this is the FINEST of 92-S dollars that will be on the market anytime soon! We wish you the best of luck as bidding will certainly be intense when this coin crosses the block and a new auction record will fall when the hammer does. Congratulations in advance for elevating your collection to a legendary status.

PCGS# 7218 | ESTIMATE: \$550,000+

LOT 311 \$1 1893-O PCGS AU55

A satiny, barely worn example of this low mintage date. With only 300,000 struck, the 93-O is a semi-key date in AU grades. Some minor contact from its brief stay in commerce does not detract from the pleasing eye appeal. This is a nice coin for the collector.

PCGS 493, NGC 374. The current Collectors Universe value is listed at \$1,050 and recent auction prices realized range between \$780 and \$1,020. Mint State coins boast a Collectors Universe value that is much higher, beginning at \$3,850 in MS60.

PCGS# 7224 | ESTIMATE: \$750+

LOT 313 \$1 1894 PCGS MS64

-62460

Truly a CHOICE example from the second lowest mintage of the series. Only 110,000 1894 dollars were struck, 10,000 more than the famed 93-S, but more were saved at the time of issue, allowing for this date to be a mid four-figure coin in the price range of many collectors, as opposed to the 93-S which would be a six-figure coin in MS64.

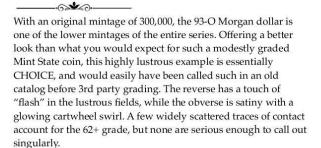

This one has a frosty luster that blooms with a satiny brilliance on both sides. Nicely struck with just a few minor traces of contact that keep this coin limited in grade to the MS64 level.

PCGS 284, NGC 122. Going back to October 2018, 10 examples have sold in auction, realizing an average of \$5,940 and the current PCGS value is listed at \$7,000. This attractive coin brought \$7,050 in its last appearance, back in July 2016. RARE in higher grades, PCGS has graded 63 finer.

PCGS# 7228 | ESTIMATE: \$5,000+

LOT 312 \$1 1893-O PCGS MS62+

PCGS 10, NGC 5. Only two examples have sold in auction, this one being the most recent bringing \$4,700. The current PCGS Price Guide value is listed at \$5,500 and keep in mind that in MS63, the value jumps to \$7,250. This is a pleasing example, with a strong visual allure for the assigned grade.

PCGS# 7224 | ESTIMATE: \$4,200+

LOT 314 \$1 1894-O PCGS MS63

Conditionally scarce in MS63 and MS64, the 94-O is sometimes overlooked by its other mid 1890s O-mint coins. This one is frosty, brilliant with a strong satiny luster. The surfaces are nice for the assigned grade, and there are just a few minor traces of contact. Some light opalescent silver bloom is noted in the fields. We don't know what precluded CAC approval, this coin looks decent for a 63.

PCGS 345, NGC 174. The average of the last ten to sell realized \$3,304 and the current PCGS Price Guide value is listed at \$4,000. Quite scarce in MS64 and VERY RARE in GEM.

LOT 316 \$1 1895-S PCGS MS65

For the series, the 95-S has a relatively low mintage of 400,000, and they generally disappeared into circulation. Most seen today are lower grades, VF or lower. In Mint State, this date is very scarce, with certified GEMS being VERY RARE, fewer than four rolls worth of coins have been seen by PCGS and NGC combined in MS65 or finer.

This highly lustrous example has traces of subtle reflective flash brought out by a bold, rolling

cartwheel luster. Generally well struck, there is just a touch of bluntness in some of the hair curls above the ear. Liberty's cheek is smooth, clean, free of distractions, and well rounded. There are a few minor ticks in the fields, which account for the MS65 grade. The eye appeal is very high end.

PCGS 48, NGC 12. Two examples have sold in auction in 2019, one for \$15,600 and the other for \$13,200 and the current PCGS Price Guide value is listed at \$19,500. Just 10 have graded finer at PCGS, the last MS65+ selling for \$25,200 in the 2019 FUN auction. This one is bound for a wonderful set of GEM Morgans.

Exceptionally brilliant mint luster radiates with an intensity that is seen on 80-S, 81-S, and 82-S dollars. Everything about this SUPERB GEM screams high end quality and eye appeal. Vivid silver luster booms all over, with strong cartwheels. Mostly untoned, blast white silver with just a gentle trace of golden tone at the peripheries adds greatly to the exceptional eye appeal. The devices are frosted, and stand out with a strong, crisp strike from an exacting blow from the dies. We have looked this coin over and over, and cannot understand why CAC did not bean this SUPERB GEM; everything is PQ!

PCGS 30, NGC 12. The last non-CAC example brought \$7,200 in July 2018 and the current PCGS Price Guide value is listed at \$7,000. Excessively RARE any finer, PCGS has graded just five coins higher, we know this coin will see very strong bidding. Anything finer is a \$15,000 coin.

Sharp strike. Superb eye appeal. To further lend credence to the eye

A glorious SUPERB example that has a bold, semireflective mint luster that gleams from all over.
This is a truly magnificent example that combines
all the attributes that anyone assembling a Morgan
dollar set, or anyone looking for a SUPERIOR
example for type purposes. The fields and devices
are pristine, with nary even the tiniest tick or line
visible, even with the aid of a strong glass. Indeed
we can only find only the slightest break in the
frost on Liberty's cheek. The fields show off a
splendid and flashy brilliant luster that combines
a semi-PL reflection with bold cartwheels and a

strong satin gleam. For an O-mint dollar, the strike is bold and crisp, with bold definition even in the hair curls above Liberty's ear and eagle's breast feathers. A touch of peripheral gold makes the silver centers stand out with an even bolder vibrance.

PCGS 345, NGC 188, CAC 131. PCGS has graded 32 in MS67+ and NONE ARE GRADED FINER! The most recent sold in our September 2019 Regency Auction for \$7,931 and PCGS lists a value of \$9,500. LOT 321 \$1 1899-O PCGS MS67+ CAC

Ultra satiny and brilliant, this gorgeous, untoned SUPERB GEM ranks among the FINEST certified examples of this date. A strong mint luster radiates around the nearly pristine surfaces and exceptionally well executed strike. The devices are about as sharp as you could hope for this New Orleans date, which often comes with a blunt, not sharp, impression of the hair curls and breast feathers. The reverse die was clashed and extensively cracked

along the periphery, adding charm to the visual appeal. No singularly significant tick or mark of any kind can be found anywhere, even utilizing the strongest of glasses. The eye appeal is strong and this high grade coin is only bested by a single MS68 finer.

PCGS 226, NGC 117, CAC 68. PCGS has graded a total of 28 in MS67+ and as stated a single 68 finer. The 10 MS67+ CAC coins that have sold in auction have brought an average APR of \$11,132 and the most example we sold at the time of this writing was in our June 2019 Regency Auction for \$9,694, and in May 2019, we sold one for \$13,513. The current PCGS Price Guide value is listed at \$12,000 and keep in mind that the only 68 last sold in the 2009 FUN auction for \$29,900. This is a great candidate for inclusion in a world class Morgan dollar set and stands out among the BEST seen!

A satiny frosty example of this turn of the century date and a high end survivor. This is the optimal grade for collectors as it is extremely rare any finer and the values increase accordingly. None are graded higher than MS67+. The brilliance of the luster shimmers and gleams on both sides, with radial, cartwheels when rotated in a light. Though we see some minor weakness in some areas, the strike is better than usually seen on this date. Pleasing, original surfaces are PQ and clean, a strong glass fails to reveal anything but the most minute tick, allowing this SUPERB GEM to boast a wonderful look.

PCGS 80, NGC 54, CAC 15. The most recent PCGS MS67 CAC sold for \$5,170 in our May 2019 Regency Auction. Listed in the PCGS Price Guide at \$4,500 and in the CAC CPG for \$6,250, this is the highest grade that is readily obtainable for the collector; the PCGS value jumps to \$21,500 in 67+.

Remarkable surfaces are incredibly clean. There is a small scrape you need a strong glass to see hidden on the reverse. Its probably what kept this coin from a full MS67. An exceptional luster beams boldly from all over. Both sides are an

LOT 325 \$1 1901 PCGS MS63 CAC

One of the rarest dates in Mint State grades, the 1901 is a very popular Philadelphia mint. Unlike many other dates that were held in quantity in Treasury vaults that were released in the 1940s to the 1960s, either the vast majority of the nearly seven million coins struck went directly into circulation or the mass quantities that were stored in the Treasury vaults were melted under the orders from the

1918 Pittman Act. Either way, not

counting the 1895 Proof Only issue, this is the RAREST Philadelphia Mint issue to find in Mint State.

This example is exceptionally high end for the grade. Fully CHOICE, this beautifully preserved MS63 is truly deserving of its CAC endorsement. The lustrous surfaces are bold and brilliant with a vibrance rarely seen on this date. Minimally scuffed or marked, none of the few tiny ticks have a negative affect on the overall PQ for the grade eye appeal.

PCGS 152, NGC 92, CAC 26. The last PCGS/CAC example realized \$13,200 in the 2019 ANA auction. The current Collectors Universe value is \$12,000 and the CAC CPG value is listed at \$13,900. This is the highest grade that most collectors can dream of owning. Just 46 have graded finer and nay MS64 with CAC approval will cost between \$50,000 and \$60,000! One of, if not the FINEST KNOWN example of this date. Tied with just one other at NGC at this lofty state of preservation, neither of which has ever sold via auction, this lustrous, SUPERB GEM is a highlight of the present offering of Morgan dollars.

Incredibly clean surfaces and well struck up devices stand out. The surfaces are thickly frosted with a radiant mint luster that is boldly brilliant throughout on both sides,

accenting the crisply rendered devices and and pristine surface quality. The eye appeal is beyond bold, and this coin is essentially as

struck and looks like it just came off the dies.

PCGS 2, NGC 2. None of these have ever sold in auction, thus, putting a value on this SUPERB GEM is quite the difficult task. We

suspect that this coin will bring a world record price when the hammer falls, exceeding the record we achieved in June 2019 for a PCGS MS67 CAC that brought \$19,388. In 67+ the current Collectors Universe value is listed at \$65,000. This coin is bound for a world class Morgan dollar collection and it is very pleasing and high end to say the least. OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

WOW! This is an unbelievably high end, superlative quality GEM example! While a large number of 02-S dollars were released from treasury values in the 1920s-1950s, the vast majority of these are lower Mint State grades, and this date remains quite elusive in GEM or higher grades; in MS66 and higher fewer than 80 have been graded combined between PCGS and NGC. This coin ranks among the 16 highest graded at PCGS.

High end and boldly lustrous, this frosty beauty is high end and blast silver white. The surfaces are unmarred by any distracting marks of any kind. An expert strike has rendered all but the highest design elements with crisp, complete definition. The eye appeal is stunning!

SUPERB in every way. The 1903-O is a very popular story coin among the Morgan dollar series. Once thought to be a major rarity, a release of original mint bags in the early 1960s made this one of the more available dates. However, because so many were stored in mint bags, coins in MS67 are still rare. Sharply struck devices are frosted standing against a bold, satiny cartwheel bloom. A light touch of tone at the rim by the date is noted, as are a few very minor ticks that are mentioned only for accuracy.

PCGS 118, NGC 54, CAC 26. In the last two plus years, we have sold four examples, selling between \$7,638 and the record for the date \$8,519 in our December 2018 Regency Auction. LOT 337 \$1 1922-D PCGS MS66+ CAC

Tied for second FINEST graded by PCGS, a coin that is in distinct company among 30 others graded MS66+.

As with many high grade examples, this lovely coin shows what silver dollar experts Wayne Miller and John Highfill call "orange peel"" which Dave Bowers' Silver Dollar Encyclopedia notes is possibly caused by the resurfacing of the dies with an abrasive wire brush or from

die wear. The present example shows surfaces that suggest a rusted die but was not cracked as seen on the examples that we sold in September and December 2019. A dusting of the faintest lilac and clear gold can be seen when the highly lustrous surfaces catch the light at the right angles. Sharply struck up, the devices have a bold definition throughout. The only marks of consequence are the mint made roughness from the obverse die, and are part of the minting process, not playing a part in the technical grade.

The 22-D is available in Mint State grades, thanks in part to a large hoard of some 50 bags that were located in the early 1990s. That said, in GEM and higher grades, it is a scarce date, and is VERY RARE in MS66+ and excessively so in MS67. The most recent example to sell in auction brought \$7,050 in our September 2019 Regency Auction and the other two sold in 2019 as of this writing brought \$6,600 and \$7,200. LOT 346 \$1 1928 PCGS MS65+ CAC

Regardless of grade, the 1928 is the KEY to the series. Only 360,649 were struck, and is a popular date in all grades, but especially so in GEM Mint State, as offered here. Both obverse and reverse show off a stunning mint brilliance on totally untoned surfaces. Sharply struck on both sides, the surfaces are high quality and free of any distracting marks. Gem quality and eye appeal in every way.

PCGS 409, NGC 106, CAC 71. In

MS65+, PCGS has graded 32, and just 22 finer. Going back to August 2016, there have been 10 PCGS/CAC examples ranging in price from \$4,200 to \$17,038 and the current PCGS value is listed at \$8,500, which is about the average APR for all those examples. The high of \$17,038 was achieved in our March 2019 Regency Auction on an estimate of \$7,000 to \$7,500. This is a great coin for an excellent Gem Registry Set, worthy of a strong bid.

LOT 347 \$1 1934 PCGS MS67 CAC

This is an amazing Peace Dollar that is more than worthy of its MS67 designation!

We are blown away at the perfection of the surfaces. Even using a strong glass will not change the fact there is NOTHING to be found. The surfaces also have a semi satiny texture. A strong glowing like luster beams from all over. A warm and totally original golden iridescence glows from the central obverse before fading into subtle peach hues at the borders. The reverse is uniformly pearlescent and frosty, dusted in original patina in the peripheries. Miss Liberty and the details are frosty and are fully struck. The eye appeal is wonderful!

PCGS 6, NGC 5, CAC 1. The last time this coin sold was in August 2018. It brought \$108,000. This coin clearly is the best of the best as no other MS67's are CAC. We can see this incredible piece setting a new world record. This coin needs to be in the BEST Peace Dollar set, Type set, or box of 20.. We expect strong bidding here. Be ready!

PCGS 559; NGC 225, CAC 57. We point out the populations to show the difficulty encountered when trying to obtain a CAC sticker for this date in GEM condition. Auction records support this as a non-cac example sold in November 2019 for \$2,275, but in contrast in September 2019 a CAC piece garnered \$3,120! We cannot find enough adjectives to describe just how stunning this coin is in hand and believe it's attributes mentioned above elevate this piece to what has to be the top 10% of pieces graded MS-66+. The prices are all over the board for this date and grade. In September 2019 a piece sold for \$4,800 and we sold in our Regency Auction 34 a superb example on par with this piece for \$7,344. What can we say? This coin absolutely knocked us off our feet when we first saw it. It is not just a great coin, it is a SUPER HIGH END MONSTER KILLER piece! Just look at the pedigree, now you see why...

At first glance, this coin looks like a proof. Incredible mirrors are 6"+ deep. The mirrors are also super clean. When you twirl this coin, the mirrors look like a freshly formed sheet of ice. We see no reason why this coin would earn the PL designation (we won't 100% promise it due to the who knows why factor). Both sides enjoy a tremendous flash and luster pop. The color is a GEMMY original orange gold. There are zero spots or discolorations. Miss Liberty and every detail are needle sharp are thickly frosted. Both sides have incredible FULL contrast. The eye appeal is just jaw dropping and insane!

This is what a Sand Blast 1908 Proof half eagle should look like. Compare the deep green-gold color to the pale yellow gold typically seen and you know this coin is totally original!

The sand blast surfaces glint brilliantly as the multitude of microscopic facets catch the light. The incuse design elements are expertly and exactly rendered by an exquisite blow from the dies. The surfaces are nicely preserved, its relatively modest grade can only be explained by a tiny mark on the wire rim on the obverse at 9:00, otherwise the surfaces show only a few hair's breadth line or two seen on the sand blast fields. Regardless, the initial visual impact is that of a GEM grade.

Only 167 Proofs were struck. PCGS 33, NGC 19, CAC 4. Only a single PCGS/CAC example has ever sold in auction, bringing \$37,600 in the March 2017 sale of the Blue Moon Collection. The surfaces have only small question this coin has a great "Mint bloom" luster. The

PCGS 63, NGC 36, CAC 9. PCGS has graded 4 in MS64+ with NONE higher. The current PCGS Price Guide value is \$17,500 and the last PCGS+ MS64+ CAC to sell in auction brought \$15,600 in the 2019 ANA auction (NOT this coin-which is slightly nicer). With NO MS65's or higher graded, this coin clearly ranks as one of the finest examples you can obtain for the date. Yet another opportunity that knows loud!

A beautiful, totally original, borderline GEM example. Rich golden-orange color is brought out by a brilliant frosty luster.

This coin has a great look and you know how tough CAC is on gold coins, so you know you are getting a high end piece. The most recent PCGS/CAC example brought \$1,860 in November 2019 and in MS64 the CAC CPG value is listed at \$2,260--a 64+ should be worth that or more. Good luck!

PCGS# 9045 | ESTIMATE: \$1,800+

CODWETRIS

LOT 377 \$20 1911-D/D RPM, FS-501. PCGS MS66+ CAC

WOW! This is quite the impressive PQ 1911-D/D repunched mintmark double eagle. One of the few distinct die varieties in the Saint Gaudens series, collectors have long searched unattributed 1911-Ds for one.

Bordering on the SUPERB GEM grade, the present coin has a great look for the date. Well struck devices stand out against frosty lustrous fields that have an almost sandblast-like texture. Rich orange-gold with lighter brilliant gold highlights. The first D was placed too far to the right, and then repunched properly. The D/D is quite bold and can be seen without the aid of a glass. As expected for the lofty, borderline SUPERB GEM grade, any traces of contact are extremely minor and almost not worth mentioning.

PCGS 55, NGC 40, CAC 22. PCGS has graded just 5 in MS66+ with just a single MS67 finer (which is impounded in the Simpson Collection). The current Collectors Universe value is listed at \$30,000 and we have sold two others in 2019 for \$22,913 and \$25,850. A real prize for any advanced die variety collector or specialist in the St. Gaudens series.

PCGS# 9158 | ESTIMATE: \$18,000+

LOT 378 \$20 1914 PCGS MS65+ CAC

WOW! At first glance, this coin looks like any common date in SUPER HIGH grade! It actually borders on full MS66. Scarce in all grades and RARE in GEM, only 95,250 were struck for the entire issue. This coin is easily in the Condition Census for this rarity.

The surfaces appear clean and satiny like. Only when using a strong glass can you find some scattered and microscopic ticks. A strong luster beams from all over. Both sides are an original deeper yellow gold color. There are no spots or discolorations. Miss Liberty and the details are exceptionally well struck. The eye appeal is fabulous!

PCGS 40, NGC 35, CAC 5. There are just 2 graded MS65+ and just five are graded higher. Neither MS65+ has ever sold in auction, and no CAC-approved MS65 has sold in a DECADE! The current PCGS Price Guide value is listed at \$35,000. Keep in mind no CAC MS66 ever sold in auction (a 66+ CAC sold eight years ago). This is a very rare opportunity for anyone working on a high end GEM set of Saints! Bidding will be fierce!

PCGS# 9164 | ESTIMATE: \$34,000+

LOT 379 \$20 1924-D PCGS MS64+ CAC

One of the RARE late date Saints, and we unhesitatingly grade this coin an MS64.95+! Really!† It IS that close to full MS65.

Superior surfaces resemble what you would see on a common date. The surfaces are remarkably clean and have thick satiny texture. When using a strong glass all we could find was a TINY tick and a few light and tiny frost breaks. For sure we have seen lesser quality coins in higher holders. This coin might fare even better off raw (we make no promises it will ever MS65)! A full cartwheel like luster vividly beams from all over. Both sides have an original deeper yellow gold color. There are NO marks or spots. Miss Liberty and the details are sharply struck (yes, including the nose) and have generous frost. The eye appeal is heart pounding!

While over 3 million examples were struck, the vast majority were stored in treasury vaults and melted the following decade. Those that survive mostly came from overseas sources, coins paid out to Europe or South America and repatriated over the years since importation of gold was made legal. The present near-GEM ranks among the top 25 examples graded at PCGS!

PCGS 198, NGC 91, CAC 14. There are 13 in MS64+ and just 12 graded higher. Only a single PCGS/CAC MS64+ has ever sold in auction, realizing \$31,200 in July 2019. Keep in mind that only a single MS65 CAC ever sold in auction realizing \$138,000 in the 2010 FUN auction. This borderline GEM has a lot to offer even the pickiest of Saint collectors! Good luck!

PCGS# 9178 | ESTIMATE: \$28,000+

LOT 380 \$20 1925-S PCGS MS64+ CAC

The 25-S is shockingly RARE in any grade approaching GEM, more so than some of the other major rarities in the latter years of this popular series. Indeed, between PCGS and NGC, just 55 examples have graded MS64 or finer, after 33 years of operations! Any that survived the Gold Recall and subsequent melting was a miracle.

This PQ coin is a borderline MS65! We could not believe our eyes when we saw this magnificent GEM. For a 1925-S, it really is SUPER HIGH END! Remarkable surfaces have just a few trivial scattered tiny ticks. If this were a common date it could have been graded an MS65 (NO promises). A full booming and glowing type luster beams boldly from all over. The color is a brilliant yellow gold. There are no spots or discolorations anywhere. Miss Liberty and the details are well struck. The eye appeal is fantastic!

PCGS 27, NGC 19, CAC 3. There are just three graded MS64+ and a mere handful finer at PCGS in all grades. There is no record of any MS64+ ever selling via auction. It is critical to note the last GEM PCGS MS65 CAC to sell in auction brought \$218,500 in the 2010 FUN auction. No PCGS/CAC MS64 has sold since 2012! Clearly this is a VERY IMPORTANT opportunity of anyone working on a very high end set of Saints! Do not let this coin slip you by!

LOT 381 \$20 1926 PCGS MS64+ CAC .0.

Why isn't this coin graded MS65? We consider this to be a MS64.9+++! While we make no guarantees it will upgrade, we have seen MS65s that do not look like this! Radiant satiny mint luster boldly glows throughout the essentially GEM quality surfaces. The eye appeal is AMAZING.

A common date, perfect for any gold holding, or for placement in a neat collection of double eagles.

PCGS# 9183 | ESTIMATE: \$1,600+

LOT 382 25C 1893 ISABELLA. PCGS MS65 CAC

This is a pleasing, high quality and totally original Isabella quarter. Nicely struck devices stand out against the clean surfaces. A warm satiny glow brings life to the surfaces and the delicate golden, tan, and olive tone. We can see this coin getting a "+" one day (no guarantees), it is that high end.

PCGS 514, NGC 430, CAC 115. The current CAC CPG value is \$1,880, and the average for the last 10 PCGS/CAC examples at \$2,196 justifies a strong bid vs. the PCGS Price Guide value of \$1,300. Scarce finer, this is a very popular type as the only commemorative quarter struck in the classic period. Good luck.

LOT 383 50C 1921 ALABAMA. PCGS MS66+ CAC ·62460.

This is a beautiful, shimmering SUPERB example of this popular, conditionally rare early commem. The surfaces are clean with a brilliant, frosty luster that glows with a vivid sheen, accenting a dusting of iridescent gold patina. Sharply struck devices and smooth, problem free surfaces, combine for a beautiful state of preservation and bold eye appeal.

PCGS 154, NGC 88, CAC 47. There are 27 graded 66+ at PCGS and just five finer. The last PCGS MS66+ CAC sold for \$3,120 in November 2018 and the current PCGS Price Guide value is \$3,000. Keep in mind that the value for a CAC MS67 will be around \$20,000 (if you can find one, none have sold in auction). Bound for a great set of classic early commemorative half dollars. Good luck!

LOT 384 50C 1936 ALBANY. PCGS MS67+ CAC -0240

Here is a gorgeous, SUPERB GEM, tied for second finest seen at PCGS. Shimmering, satiny frost glows all over, giving life to the original dappled gold and russet that is seen at the rims, yielding to the satiny frosty silver in the centers. A lovely example with good eye appeal.

PCGS 229, NGC 153, CAC 72. PCGS has graded 26 in MS67+ and just a trio finer. The most recent example to sell in auction brought \$1,469 in our September 2019 Regency Auction, and the current PCGS Price Guide value is listed at \$1,500. Excessively RARE any finer, three have graded MS68 at PCGS, none of which are CAC approved and the last one sold nearly a decade ago! A major opportunity for the Registry Set collector.

LOT 385 50C 1937-S BOONE. PCGS MS67+ CAC

Tied for second FINEST graded 37-S Boone, a classic commemorative with a diminutive mintage of just 2,506 pieces. Pearlescent silver luster blooms brilliantly on both sides, enhancing the soft, pastel tones that add to the originality of this HIGH END survivor!

PCGS 59, NGC 31, CAC 17. Only 9 PCGS MS67+s have been graded by PCGS and none of the four MS68s graded have ever sold in auction. The last two 67+s brought \$3,840 and \$3,360, well above the current PCGS Price Guide value of \$2,500. Keep in mind the value jumps to \$17,500 in MS68, good luck!

LOT 386 50C 1893 COLUMBIAN. PCGS MS66 CAC

This is a delightfully original and high end MS66 example with a great, colorful look. Teal and pewter with traces of gold are brought out by the brilliance of the underlying luster. The eye appeal is great.

PCGS 254, NGC 147, CAC 106. The current PCGS Price Guide value is listed at \$600 and the CAC CPG value is listed at \$975, a value determined by the average of \$915 realized in auction.

LOT 388 50C 1938 OREGON. PCGS MS67+ CAC

A totally original, tab toned example of this lower mintage classic commem. Only 6,006 were struck, of which this one ranks among the highest graded examples. Frosty luster shows a nice satiny glow that accents the golden-russet tab tone on the obverse. The eye appeal is lovely.

PCGS 162, NGC 135, CAC 65. There are 22 graded MS67+ at PCGS. The last one to sell realized \$870 in October 2019 and prior to that, one brought \$840 in April 2019. The current Collectors Universe value is listed at \$1,100. RARE finer, with four higher; any MS68 will cost \$10,000+.

LOT 390 50C 1939-5 OREGON. PCGS MS67+ CAC

Not only is this SUPERB GEM among the top 22 examples graded by PCGS, it also must be among the most colorful and beautiful examples that survives from a low mintage of 3,005 pieces. Dramatic toning on both sides, imparted by long term storage in the original cardboard holder at the time of issue. The toning, with shades of crimson, gold, orange, magenta, violet, lemon-yellow, and violet tones all mingle together on both sides of this essentially flawless SUPERB GEM. This coin rates a 9.5 on our 10-point color scale, dramatic and wonderful on both sides.

PCGS 145, NGC 113, CAC 70. In MS67+, PCGS has graded just 13 coins, and a mere 9 have ever graded finer. This coin, like the 39-D above is worth a significant premium over published prices and prices realized, this coin will bring out the serious toned Commem collectors. Good luck!

LOT 389 50C 1939-D OREGON. PCGS MS67

Ultra deep, vivacious toning blankets both sides of this low mintage Oregon half dollar. Sharply struck devices stand out against the satiny smooth surfaces. Swirling bands of magenta, gold, purple, lilac, violet, sunset orange, and azure tones blend over the surfaces. We have looked this impressive beauty over and over with a strong glass, and cannot figure out why CAC did not sticker it. Clearly this, and the 39-S that follows has remained in the old paper holder acquiring amazing matched color that is dazzling!

PCGS 186, NGC 171. Ignore the APRs and Price Guide values, this coin's value is determined by the AMAZING color. Expect very strong bidding for this one, collectors who demand the best in color look no further!

An ORIGINAL, beautifully toned Vancouver that looks like it was just removed from the cardboard holder on the day of issue! Intense satin-like luster graces flawless surfaces. Toned in deep iridescent rainbow hues around the border. The reverse is toned in amber, teal green and steel gray hues. Sharp motifs. If not for one small mark on the head of Loughlin, this coin would be an MS-67+ if not finer!

PCGS 74, NGC 50. Three non-CAC examples sold last year. One in July for \$1,860; and two in December 2019 for \$1,440 and \$1,560 respectively. If you appreciate originality, this is the coin for you! Good luck!

LOT 394 1C 1847 HAWAII. PCGS MS61 BN CAC

Steely teal-blue iridescent toning gently graces both sides of this highly lustrous Mint State Hawaiian cent. Sharply struck, this lovely coin has some minor contact and a tiny fleck or two that account for the grade. The coin was commissioned by King Kamehameha III who, as ruler of the Hawaiian Islands established a new monetary system. Struck by Edward Hulseman in Massachusetts, these were Hawaiian legal tender until 1884. It is reported by Walter Breen that Wayte Raymond traveled to Hulseman's descendants in the 1950s to buy Mint State pieces. Perhaps this is one of those.

PCGS 16, NGC 36, CAC 3. The only CAC-approved example to sell in auction realized \$990 in September 2019. The current Collectors Universe value is \$1,225. Attractive color will entice the type collector.

OUR ESTIMATES

The estimates you see published in this catalog are based on **HAMMER**. Keep in mind that a coin could be either low or high end for the grade, have stunning color or be dull, all of which radically affect a coin's value. Yes, there can be huge price differences within a grade, and we offer estimates as a guide so Collector's can have a better idea of value. One thing we will never do is offer low ball estimates in order to claim stronger sales.

These published estimates represent what Legend Rare Coin Auctions determines to be an approximate high wholesale value for the coin. The numbers are based upon current market values, similar trades, auction prices, published prices, and a consideration of the coin's quality. There is no guarantee that the estimated prices are minimums or are exactly what you can expect to get if you attempt to resell them wholesale.

We always advise you to view the coins you are interested in and calculate what you'll pay using as much information as possible. If you have any questions, please feel free to ask us. We are here to help you!

Estimate: 3,200.00 - 3,500.00

USD

FROM THE BANKER COLLECTION Ex Simpson Collection. What a great Standard Silver pattern dime! Finest graded in the BN category, this tough Rarity-7- variety was struck in copper with a reeded edge. This coin is not far off from a RB designation. Moderate mirrors are super clean and have good reflection. Both sides are evenly bathed in a totally original mix of faded Mint red/gold/light brown/violet/pale blue colors. Miss Liberty and every detail are so razor sharp in strike if you don't wear gloves you could cut yourself! The eye appeal is fabulous. PCGS 3, NGC 1, CAC 2. This is the only PR66+ BN graded by PCGS. Truly a wonderful and affordable rarity! Realizing \$3,290 in our January 2017 sale of the Bob Simpson Collection. Bound for another world class Pattern collection! Cert. FROM THE BANKER COLLECTION Ex Simpson Collection. When we first offered the Bob Simpson Standard Silver Patterns, this Rarity-6+ dime, struck in silver with a reeded edge, was this cataloger's (GC) favorite coin! A standout among the many GEMS and SUPERB GEMS, this coin has a MONSTER look! This coin has AMAZING toning! First, the mirrors are deep and beam from all over. They have bold clarity and are clean too. The highlight of this coin is monster totally original royal blue/gold/lime/tangerine/violet colors that circle the obverse. The reverse has a U shaped covering of the same killer colors. Miss Liberty and the details stand out with stunning thick creamy white frost. On an eye appeal scale of 1-10-this coin easily hits 11! PCGS 1, NGC 0, CAC 1. We do not know where Collectors Universe gets their value of \$3,200, but this beauty brought \$3,878 in our January 2017 auction. Considering how much rarer these are compared to regular Proof dimes of 1870, this coin should be worth way more! Good luck! Cert. Number 30934502 PCGS # 61099.00

FROM THE BANKER COLLECTION Ex Simpson Collection. This is an incredibly RARE Standard Silver dime pattern, rated Rarity-7+, with 4-6 examples known in all grades. Struck in aluminum with a reeded edge. Ultra high end! Superb mirrors beam from all over. They are above average in clarity, cleanliness, and reflection. A few raised Mint made die lines are visible-this coin lacks the rough planchet so many aluminum coins have. Miss Liberty and every detail are needle sharp in strike and enjoy strong frost. The eye appeal is great! PCGS 2, NGC 0, CAC 1. The current PCGS Price Guide value is listed at \$7,500 and this SUPERB GEM brought \$7,638 in our January 2017 sale of Part 1 of the Simpson Collection of Standard Silver Patterns. FROM THE BANKER COLLECTION Ex Simpson Collection. This is the SINGLE FINEST example of this Rarity-7+ Standard Silver Pattern quarter, one of fewer than half a dozen examples known. Struck in copper with a plain edge. This is a stunning VERY HIGH END SUPERB GEM. Shimmering mirrors are deep, crystal clear, clean, and have vivid reflectivity. Even using a strong glass, we really cannot find any reason this coin is not a PR67 (that is NO guarantee). Both sides have a gorgeous even brown/blue/violet color mix that is unquestionably totally ORIGINAL. Miss Liberty and the details are frosty and have full strikes. The eye appeal is fabulous! PCGS 1, NGC 1, CAC 1. This coin hammered for \$6,000 in our May 2017 Regency Auction's offering of Bob Simpson's Standard Silver Patterns, and the Judd book values a PR65 at \$9,200; there is a Collectors Universe value at \$7,500. No other examples of any RB piece have ever been sold via auction ion nearly 7 years! Keep in mind, this is NOT your average coin-it really is VERY high end! Good luck! Cert. FROM THE BANKER COLLECTION Ex Simpson Collection. A STUNNING, SUPERB example which is the single FINEST KNOWN specimen of this excessively RARE Rarity -7+ Standard Silver pattern quarter, struck in aluminum with a reeded edge. Deep and "watery" mirrors beam from all over. The mirrors are super clean, have excellent clarity, and are super flashy. The planchet does not have the typical defects the majority of aluminum pieces show. Miss Liberty and the details are thickly frosted and have remarkable strikes. The eye appeal is fabulous! PCGS 1, NGC 0, CAC 1. The only other example is graded PR61 and has never been sold in auction. From our sale of the Simpson Collection, Part 1 January 2017, where it realized \$11,750. Prior to that it was in the Southern Collection of Patterns, which was the huge pattern deal in 2008 (it was figured in that deal for \$16,500). Unpriced by Collectors Universe, this coin is worthy of a premium bid and placement in an advanced pattern collection. Cert. Number 30932284 PCGS # 800064.00

FROM THE BANKER COLLECTION Ex Simpson Collection. This is the SINGLE FINEST known example of this Rarity-7+ Standard Silver Pattern half dollar struck in aluminum with a reeded edge. For an aluminum coin the surfaces and mirrors are completely above average. The mirrors are exceedingly deep, have bold clarity, are clean, and there are no real planchet issues (save for some light pitting on the reverse). Miss Liberty and the details are almost 3D in appearance with remarkable strikes and thick frosting. The eye appeal is fabulous! PCGS 1, NGC 0, CAC 1. Here you have an extreme rarity, in an obsolete metal, from the greatest collection of patterns ever formed-Simpson. FROM THE BANKER COLLECTION Ex Simpson Collection. Easily one of the FINEST KNOWN examples of this Rarity-7+ Standard Silver pattern half dollar struck in copper with a plain edge. We think only a little irregular toning keeps this wonderful piece from a PR67 RB. Deep and glass like mirrors offer bold clarity, cleanliness, and of course a stunning reflection. The color is a mix of totally original GEM faded Mint red/pale brown/faded violet/deep gold colors. Miss Liberty and the details are frosty and are fully struck. The eye appeal is terrific! PCGS 1, NGC 0, CAC 1. This beauty sold for \$11,750 in our January 2017 Regency Auction. It had been off the market for many years before that. Its quality is superior to the NGC PR67 RB that sold in March 2012 for \$13,225. The current Collectors Universe value is listed at \$14,500. An exceptional quality GEM example of this impressive and VERY RARE R-7+ Standard Silver pattern dime. Struck in copper with a plain edge, we believe this high end example to be the Judd Plate Coin. Ex Denali Collection, not on the holder. Ultra PQ, this stunning coin is one of the nicest Standard Silver patterns struck in copper we have ever handled, rivaling even those in the famed Simpson Collection. Exceptionally clear, clean and powerfully reflective mirrors beam from both sides. The color is about 65% GEM ORIGINAL MINT RED. Miss Liberty and the details are frosty and have full strikes. The eye appeal is totally jaw dropping! PCGS 1, NGC 0, CAC 1. The Simpson coin, graded PR65 RB CAC sold for a record \$8,813 in our January 2017 Regency Auction. Prior to that, this coin had sold for \$7,931 in our September 2015 Regency Auction. We expect very strong bidding on this SUPERB GEM! Good luck! Cert. Number 31378700 PCGS # 71096.00

Ex Denali Collection. Tied with just the Bob Simpson example as FINEST J-923 graded at PCGS. This is a very tough R-7+ (4-6 examples known in all grades) Standard Silver pattern, struck in aluminum with a reeded edge. A gorgeous, boldly contrasted SUPERB CAMEO GEM from the world class, specialized Denali Collection of 1870 patterns. Well struck devices are very frosted and contrast nicely against highly reflective mirrored surfaces. PCGS 2, NGC 0, CAC 2. There just are no accurate pricing sources for patterns. For a coin so rare, the current PCGS value of \$11,000 seems really cheap for a coin with just a handful known. Good luck. Cert. Number 6645439 PCGS # 800082.00

This coin is a very high R-7 (4-7 Minted). Struck in aluminum with a plain edge. It is the FINEST known, and there are less than half a dozen known of this issue! For a trial striking, a lot of effort went into making this exceptional quality piece. Overall, the planchet was problem free, so when it was struck, there are practically NO imperfections. Glorious watery mirror fields that offer extraordinary quality and preservation. This issue has a plain edge and is boldly struck on all the devices with snow white frost glistening over the mirror fields. No spots or lines detract! Undoubtedly this is the finest known of this rare and seldom seen pattern issue. PCGS 1, NGC 0, CAC 1. The ONLY other specimen we are aware of is the PR64+ Cameo in the all time finest ever Pattern Collection-the Simpson Collection. This coin sold in December 2017 for \$9,400. There are NO accurate price guides for this coin. Keep in mind, if it was a regular 1870 Half in PR66 Cameo CAC it would easily cost \$10,000+. Good luck! Cert. Number 6645040 PCGS # 800036.00

This is an R-7 (closer to a dozen minted). It is a Longacre Indian Princess pattern struck in copper. This is the FINEST graded, and it is more than worthy of that designation. Remarkable mirrors are crystal clear, are perfectly clean, are deep, and have magical ultra strong reflectivity. The mirrors look like a freshly formed clear sheet of ice. Stunning ORIGINAL colors of pale Mint Red/gold/pale violet beam from both sides. There are NO spots, but there is a small unquestionable toning stain in the eagle on the reverse. Miss Liberty and every detail are frosted and have full crisp strikes. This coin is total delicious eye candy! PCGS 1, NGC 1, CAC 1. This is the ONLY + and it is the FINEST graded. Collectors Universe Values a PR66 RB (NO +) at \$34,500. You MUST see this to know this coin is worth every penny we are estimating! Remember, once this SUPER GEM is sold, you will never have an opportunity to acquire anything else remotely close. MONSTER Patterns like this do NOT appear with any frequency. A highly desirable 20C pattern, indeed, this is a smoking hot denomination in the pattern series. Featuring Baily's Seated Liberty design, similar to what was proposed the previous year for use on the trade dollar, Liberty seats facing left, hand on the globe, with agricultural produce on either side. Struck in copper with a plain edge, this coin was struck on a heavy 92.6 grain thick planchet. Deeply reflective, copper surfaces are intensified by EXQUISITE teal, aquamarine and honey gold overtones. Under powerful magnification, a couple of tiny fly specks and a small disturbance after the final A of are noted. Nothing that is not commensurate with the grade. Exceptionally crisp motifs are accented by thick mint frost. Although the obverse and reverse have a slightly different interpretation of Miss Liberty and the eagle motif, the reverse is quite similar to the adopted Mint design used for regular issue twenty-cent pieces whose production commenced in 1875. PCGS 6, NGC 1, CAC 2. This is the SOLE 64+ and FINEST GRADED for the designation at PCGS! This piece sold in August 2019 for \$10,800 (before being upgraded to the "+"). With the way collectors are pursuing the 20C pattern series, we anticipate spirited bidding to break out for this beauty! Cert. Number 37860369 PCGS # 61659.00

Newman 8-X, W-6750. A stunning GEM example of this famed Bank of New York Hoard variety. In 1948, the hoard contained a whopping 189 examples, accounting for 11.5% of the total number of Fugio coppers found. Tied for FINEST graded at PCGS in the RB designation, and there are none in RED! This variety is known by the massive die break that created a bulge at the lower obverse that obliterates part of MIND YOUR BUSINESS, and usually accounts for the weak strike on the corresponding portion of the reverse. This lustrous example is wonderfully sharp, with all of MIND YOUR BUSINESS complete. Every detail on the Sunface, the rays, the sundial, all of it is crisply impressed into the planchet. Perfectly centered on both sides. Exceptionally lustrous for a Colonial or Confederation copper, this coin has a monster visual allure. PCGS 9, NGC 8. The last PCGS MS65 RB Newman 8-X to sell in auction brought \$10,575 back in 2013, and it did not look like this! This coin is much sharper, and will excite anyone looking for an example for a type set. The current PCGS Price Guide value is listed at \$18,000. Newman 11-B, W-6785. Here is a top notch, CONIDITION CENSUS Fugio, one of the FINEST KNOWN, regardless of variety. This die pair is easily identifiable by the ultra bold, crisp die clashing. It is among the most dramatic die clashes in all of American numismatics. This is a variety, that despite the bold clashes, usually comes well struck, but otherwise poorly centered and lackluster. This coin is fully brilliant with ample original RED color. An amazing survivor, likely one of the 60 pieces discovered in the Bank of New York Hoard. Free of distracting marks, flecks, or discolorations of any kind. PCGS 3, NGC 4. There are NONE FINER at PCGS. Only one example sold over five years ago in a September 2014 auction, realizing \$15,275. The current PCGS Price Guide value is listed at \$19,500. Whitman-9150, Breen-1064. Listed in the Red Book, the Castorland medal or jeton was linked to a French settlement in upstate New York. These were a proposed coinage for the settlement. Originals were struck in silver and copper in very limited numbers and are very rare today. Later, restrikes were produced for collectors at the Paris mint. This is a Paris Mint Restrike, as evidenced by the marking on the edge at 6:00, including the word ARGENT for silver. The obverse shows a crowned bust of the goddess Cybele with the name of the colony around. The reverse shows an allegorical scene of a goddess holding a cornucopia and tapping a maple tree. A beaver is below (castor is French for Beaver). The present piece is the FINEST graded by PCGS and is the plate for PCGS CoinFacts. Possessing watery, almost fully PL reflective fields on both sides, it is totally original and beautifully toned. Exceptional antique teal, rose, and soft apricot-gold hues accentuate the high end quality surfaces and sharply struck devices. A tiny hidden mark can be found with a strong glass, noted for accuracy, but the eye appeal is truly amazing. PCGS 1, NGC 0.

Unlisted in the PCGS Price Guide in this lofty state of preservation, the last PCGS MS65 sold in February 2017 for \$1,763. This coin's eye appeal is far superior to that piece and should break that record auction price when the hammer falls. What a great piece for the collector of colonial pieces. Cert. C-2, B-2. Listed as R-3 in Breen, which is the second scarcest of the date. The 1793 is a one year only type coin, and the only year with Liberty's bust facing left. Historic as one of the first federally issued coins struck within the walls of the first federal mint in Philadelphia. We love the look of this moderately worn 1793 half cent. We wish they all looked like this. Generally smooth, hard copper surfaces show little, if any of the porosity that is often encountered on the earliest of federal coppers. Deeper brown seen in the fields contrasts with the softer auburn brown color on the devices. Both sides show bold definition despite the wear from generally problem free circulation. A total of 35,334 half cents were struck in the first year of operations at the mint. While the April 12, 1792 Act of Congress authorized coins in copper, silver and gold, it was not until late in 1794 that the mint officials were able to post the surety bonds required to strike coins in precious metals. Two obverse and three reverse dies were engraved sometime between April and July 1793 and by September 18, all were delivered. In 1794, the design was modified to show Liberty facing right, making the first year a single year only issue. PCGS 33, NGC 9, CAC 4. The current PCGS Price Guide value is \$15,500, and there has not been a CAC approved example sold since the 2010 ANA auction, where one sold for \$14,950. A glorious GEM C-1, B-1, easily one of the FINEST known examples, solidly in the Condition Census, and tied for second highest seen in the BN category at PCGS. A very highly lustrous example with satiny smooth surfaces. Bold, rolling cartwheel luster radiates along the evenly toned obverse and reverse, which show a gorgeous melange of chocolate brown with accents of blue and violet that are along the smooth surfaces. Sharply struck devices on both sides give this coin a great look. PCGS 8, NGC 3, CAC 3. Much cleaner and more lustrous than the Missouri Cabinet MS65 BN that sold for \$6,325 in January 2014. the current PCGS Price Guide value is \$6,000 and the CAC CPG value is listed at \$7,500. USE

Amazing quality, truly what we love to call a "GEM" AU58! While the S-65 is a relatively common variety, it is very scarce in such a lofty grade. For a 1794 large cent, this coin is ever so close to a full Mint State grade, and possesses an extremely high end look. First, the surfaces are solid and hard, devoid of any serious pitting or corrosion that often comes on large cents of the 1790s. The details are fully struck up with crisp, clean definition in Liberty's hair curls and facial features. Pleasing, even, medium brown with golden and chestnut highlights show off a lovely glossiness. There are no serious marks, ticks, or other issues that affect the overall eye appeal of this HIGH END piece. Struck from Noyes Die State B, there are clashes and die cracks that add to the charm of this early large cent. Very choice and extremely eye appealing. While we make no guarantees, it rivals the eye appeal of some of the AU58+s that we have seen offered. PCGS 42, NGC 12, CAC 9. This is the coin that sold in the 2012 ANA auction for \$21,150. There really is a wide range of APRs for PCGS graded AU58s sold in auction, depending on variety, pedigree, and eye appeal. The current PCGS Price Guide value is listed at \$17,500 which is a suitable average, and this one will yet again see bidding in excess of that level when the hammer drops. N-8, Rarity-2. Fully lustrous, a borderline Mint State example of this popular overdate large cent. Soft brown color combines with tinges of original red color and light accents of violet tone. Sharply struck on both sides, the surfaces show just a touch of friction on both the highest points, only perceptible with a strong glass. The eye appeal is excellent and at a time when grading was less tight, this coin would lightly have been called Mint State. PCGS 3, NGC 5, CAC 3. This is the ONLY AU58+ graded and it has not appeared in auction; nor has any PCGS AU58. The most recent comps are as follows: A non-CAC PCGS AU55 sold for \$4,113 in June 2017 and a non-CAC PCGS MS62 sold for \$9,250 in an internet auction in April 2017. Struck using the N-19 die pairing, which were only used to strike Proofs. While the exact number minted is unknown, PCGS CoinFacts estimates approximately 25 known in all grades and color designations; indeed, the current combined PCGS and NGC Population figures tally to 25 pieces. Over the years scholars have attempted to create a census of auction appearances, but due to lack of plates or poor old images, matching has proven impossible in many cases. Including off the market institutional collections, as well as specimens yet to be graded, perhaps as many as three dozen are known total. The present near-GEM boasts bold reflective mirrors with excellent clarity, depth and cleanliness. We note a tiny planchet flake in the left obverse field, it does not impact the excellent eye appeal. Wonderful, warm chocolate brown mixes with some pastel color that clings to the fields; the reverse shows some traces of original red. Every detail, razor sharp in definition, shows precision of strike. The eye appeal is excellent. A limited, but unknown number of Proofs were struck. PCGS 4, NGC 1, CAC 3. This is the only PR64+ BN graded at PCGS and only three coins are graded higher in the BN category, 3 in PR65 and one in PR66. This coin most recently sold in our June 2015 Regency Auction for \$9,106 and the current PCGS Price Guide value is listed at \$14,000. This is is a very high end and pleasing GEM example of the first year of the small cent. Exceptionally bold eye appeal defines this beautifully preserved example. Very pleasing, reflective fields have a shimmering, watery texture that flashes brilliantly on the obverse. Accents of pale blue grace the natural orange-rose hue of the copper-nickel planchet on the obverse, while the reverse has a light overtone over the reflective surfaces. Both sides of this GEM are razor sharp in definition. A tiny tick or two on the reverse is the only thing we can see holding this back from an even loftier grade designation. By the early 1850s, the cost of copper rose to the point where the large cent was no longer a viable coin, and the half cent had little use in commerce. Starting in 1850, and progressing to mid decade, the mint began experimenting with different sized planchets and different alloys. By 1856, they decided on the familiar diameter we still use today, but thicker and a copper/nickel alloy. A small number were struck in 1856 for VIPs. The total mintage is approximated at 1,500, many of the survivors are lower grade or impaired. Though scarce, GEMS are seen in auction a few times per year, and always bring strong prices when they do, especially when CAC approved. PCGS 61, NGC 33, CAC 21. The most recent example to sell at the time of this writing was in our May 2019 Regency Auction for \$38,775. RARE any finer, just seven examples have ever graded higher. The PR65+ CAC in the database is no longer on the PCGS Population report, that sold for \$52,800 and we sold a 66 for \$70,500 in September 2019. This is a great grade for any collector looking to start, or upgrade a set of Flying Eagle cents. Bidding will be fierce for this one! Cert. Number 10897671 PCGS # 2037.00

This is a gorgeous RED example of the first year of the Bronze composition. Brilliant golden-red color is intensified by a bold luster. The devices are sharply struck from deeply clashed dies. The mirror image of the wreath frames the Indian's portrait and the outline of the Indian is seen under ONE CENT on the reverse. The 4 in the date shows minor repunching, similar to S-6 and S-7, but the clash marks are not mentioned in the attributes. The eye appeal is excellent. PCGS 42, NGC 27, CAC 16. The last two PCGS/CAC examples sold for significantly strong premiums. The most recent was the Castle Collection coin sold in the 2019 ANA auction for \$6,300 and prior to that was the ESM Collection coin in the 2018 ANA for \$9,600. What a wonderful GEM! Immaculate on both sides, sporting a lovely, nearly FULL RED color with a whisper of soft rose and lilac tone which cascades over the spotless surfaces! Frosty mint bloom is present and graces exceedingly sharply struck motifs. The important aspects of strike are all present on this beauty; four full diamonds, sharp feather definition to the tips and a bold wreath and shield. Remarkably devoid of any carbon spots or specks! Stunning in every regard. PCGS 13, NGC 20, CAC 7. This coin last sold in our June 2019 Regency Auction 33 for \$6,168. Just two coins graded finer in the RB category, both are 66+. A brilliant RED example of this important issue. A transitional year, three main types were struck in 1864: Copper-nickel, Bronze, and Bronze with the L for Longacre added to the ribbon. The latter is the scarcest of all three, especially in GEM grades. Brilliant red luster blooms with a strong vibrance on both sides. The surfaces are satiny and smooth, devoid of any serious marks. We note a pair of very miniscule contact marks on Liberty's portrait, which have no bearing on the excellent eye appeal. We note some minor flecks on the reverse for full accuracy. The eye appeal is excellent and high end. PCGS 37, NGC 14. The most recent example to sell realized \$6,000 (a CAC-approved example) in the 2019 ANA auction. The most recent NON-CAC coin to sell was graded by NGC, selling for \$11,400 in June 2018. The current Collectors Universe value is listed at \$4,800. Tied with just one other for FINEST in the RB category and is numerically finest in all color designations. The date is boldly repunched with the upper loop of the first 6 slightly higher, while the 7 is dramatically lower. Bold, intensely lustrous surfaces show a lovely wood grain pattern that graces the orange-tan patina of the surfaces. Sharply struck devices stand out with all the details crisply impressed on both sides. Totally original, this GEM has a great look that screams quality, as attested by the lofty assigned grade by PCGS, the green CAC bean, and the Eagle Eye Seal. A great coin for any advanced Indian Head cent collection. PCGS 13, NGC 15, CAC 6. PCGS has graded just two in MS65+ RB and NONE FINER. An incredible quality GEM that is totally PQ and original! One of the FINEST graded at either service, there is just a single MS66+ RD graded finer at PCGS. Blazing RED luster beams with a full brilliance over the satiny smooth surfaces. Both sides are smartly impressed by an exacting blow from the dies, rendering each detail with full, crisp definition. The surfaces are free of any distracting marks or ticks and are incredibly clean, showing just a minor fleck or two anywhere. The eye appeal is exceptional! PCGS 16, NGC 3. The most recent example brought \$9,600 in the 2019 ANA auction, that coin had sold as part of the ESM Collection for \$22,800 in the 2018 ANA auction. The current PCGS Price Guide value is listed at \$20,000. There is just a single MS66+ RD graded higher at PCGS, a coin that has never sold in auction and this high end example will see strong bidding for sure. Good luck it is bound for a world class Indian Head cent collection. Cert. Number 38798684 PCGS # 2120.00

A magnificent example, easily one of the FINEST KNOWN and has to be one of the nicest examples that survives! Blazing red brilliant luster rolls all over the satiny smooth surfaces of this exceptional GEM. The devices are sharply struck and show full definition on both sides. Free of any distracting marks or discolorations anywhere, the eye appeal is stunning and gorgeous. The surfaces are as pristine today as they were 140 years ago when this beauty came off the dies. PCGS 33, NGC 8, CAC 4. There are 4 graded MS66+ RD. Nothing graded higher than MS66 RD has ever sold, and the most recent 66 RD CAC had a serious mark on it and it still brought a strong \$9,600 in the 2019 ANA auction, clearly the Collectors Universe value of \$8,500 is too cheap! There are 3 graded 67 RD, which also have never sold in auction. When the hammer falls, this lot will no doubt see a RECORD price realized. Bound for a world class Indian Head cent collection. A SUPERB example housed in an ancient green tag holder. Without a doubt, this coin was directly sent from heaven by the coin gods. We can not believe there could be any finer pieces (although the Blay 67+ probably is a killer). Unhesitatingly we pronounce this coin to be a MONSTER! Incredible surfaces are ultra clean and have a thick satiny texture. When using a strong glass all you can find is one microscopic dead fleck. An amazing full booming cartwheel luster beams from all over. Both sides are a GEM Mint red/pale gold color. There are NO spots or discolorations. Miss Liberty and every detail are fully struck. The eye appeal is jaw dropping! PCGS 4, NGC 3, CAC 8 (obviously there were resubmissions seeking a +). PCGS has graded 2 in 67+. The last PCGS CAC piece to sell in auction brought \$26,400 in the 2019 ANA auction. We expect extremely fierce bidding on this exceptional coin when it crosses the block. Opportunities like this are few and far between. Good luck! Cert. Number 9818549 PCGS # 2147.00

Ex Joshua and Ally Walsh. This GEM is brilliant red with a bold satiny glow. Sharply struck throughout, the details are razor sharp in strike. The surfaces are very clean, devoid of any serious marks or flecks. The ONLY mark of note is a tiny mark on the cheek. The quality is affirmed by both the CAC bean and an Eagle Eye Photo Seal. PCGS 11, NGC 0, CAC 4. This coin sold most recently in the 2019 ANA auction for \$5,400; but in the sale of the Walsh Collection, it realized \$9,775 (before it was CAC or Eagle Eye approved). The current CAC CPG value is listed at \$5,640. Keep in mind just 4 MS66+ RDs have been graded higher, the only one of which offered in auction sold for \$26,400 in the 2019 ANA sale. A beautiful example of this last date of the series! Stunning, high end RED mint brilliance dominates both obverse and reverse on this nearly perfect SUPERB GEM. This coin looks as fresh today as it did when the dies came together. The details are fully struck up and very bold. PCGS 255, CAC 40, CAC 67. There are 42 graded MS66+ RD at PCGS. RARE any finer. We sold the most recent example with CAC approval in our September 2019 Regency Auction for \$2,820 and the current PCGS Price Guide value is listed at \$2,350. What a dramatic DCAM Proof GEM! What a stunning, high end example that has a great look! Deep, beaming tan-gold surfaces have blazing icy mirrored fields on both sides. The frosty, razor sharp devices stand out dramatically, contrasting boldly against the highly reflective fields. A few scattered flecks and a tiny mark are all that hold this GEM back from an even loftier grade and placement with the FINEST graded. Only 370 Proofs were struck. PCGS 2, NGC 0. Neither has ever sold via auction, but the PCGS Price Guide value is listed at \$10,500. Extremely RARE finer, we think this one has a better look than the PR66 DCAM we sold in May 2019 and thus should sell for more. Worthy of a great set! Cert. Number 38159637 PCGS # 92265.00

A stunning SUPERB CAMEO Proof that has has a bold, vivid color and stunning eye appeal. This coin has been off the market since May 2004 when it was sold in the Central States auction. The surfaces are a rich cherry red. The mirrors offer a fantastic display of deep, bold, and clear reflection that contrasts brilliantly against the highly frosted and razor sharp devices. The cameo contrast is bold, especially on the obverse. We note a trace of light toning on both sides, attesting to the exceptional originality. The outstanding visual allure will excite even the pickiest of collectors. PCGS 4, NGC 1, CAC 3. This is the second FINEST graded at PCGS of this bold Doubled Die variety. The type 1 Doubled Die, FS-101, is the boldest of the three doubled obverse varieties struck in 1936. The doubling is very clear and evident at the date, LIBERTY, and IN GOD WE TRUST. Listed in the Red Book, this popular variety has gained a large following among Lincoln cent collectors, and it is included with the 1917, 1955, 1969-S and others as part of the mainstream series. This marvelous coin is bested by just a single MS67 RD. This coin is PREMIUM QUALITY defined! Offering a bold, fiery RED luster that is as vivid as the day the coin fell from the dies. A tiny tick or two are seen with the aid of a strong glass, but essentially devoid of all distractions on both sides. Well struck, the reverse shows a fuller definition than the obverse, but that side also displays nicely rendered details. The eye appeal is very pleasing and a coin worthy of the FINEST of sets. PCGS 8, NGC 0, CAC 5. This is the ONLY MS66+ RD and there is just a single MS67 RD finer. The current PCGS Price Guide value is listed at \$14,500. In MS66 RD, the CAC CPG value is \$11,200 so this 66+ should bring more. Good luck! Cert. Number 38303771 PCGS # 82650.00

64 1C 1941 DOUBLED DIE OBVERSE. PCGS MS66 RD CAC

Estimate: 3,800.00 - 4,000.00

USD

Truly a gorgeous GEM RED 1941 Doubled Die Obverse Lincoln cent! Boasts immaculate surfaces that are blanketed with a full lustrous red color that draws the eye form a distance. The die doubling occurred primarily in the obverse legends, most clearly visible in 'TRUST' and 'BER' of 'LIBERTY'. This stunner will be tough to improve upon. Truly one of the finer examples of the variety with fully defined devices that are brought out by the brilliant, fiery orange coloration. While a well known variety among collectors, these do remain quite rare and are difficult to find in such high grade. We note a single fleck just below the 1 in the date for accuracy, however the eye appeal is unaffected. PCGS 33, NGC 14, CAC 15. The last examples have sold from \$2,703 to \$4,582 and the current PCGS Price Guide value is listed at \$4,000. Worthy of a world class Lincoln cent variety collection, this coin will see a very strong bid. Just 7 examples are finer, graded MS66+ RD. Cert. Number 27409093 PCGS # 92695.00

Estimate: 1,500.00 - 1,800.00

FROM THE HANOVER COLLECTION, PART 2. This immaculate SUPERB GEM is the sole FINEST graded example of this WWII era variety. Boldly lustrous, brilliant RED surfaces that are aglow with a stunning vibrance which accents the sharply struck devices. The S is boldly repunched. This impressive SUPERB GEM will fit into any advanced collection. PCGS 1, NGC 0, CAC 79 (for all 67 RDs). Unpriced in the PCGS Price Guide and no auction records exist; we are sure this coin will bring a very strong bid from the astute collector. The only reference is a Collectors Universe value of \$1,000 in MS66 RD. Cert. Number 34764386 PCGS # 2710.00

1C 1943 DOUBLD DIE REVERSE. FS-801. PCGS MS66 CAC

Estimate: 1,000.00 - 1,100.00

FROM THE HANOVER COLLECTION, PART 2. Blazingly lustrous steel-sliver surfaces are high end for the assigned grade, we note just a single tiny line on the reverse. The die doubling is seen mostly at PLURIBUS, as well as the N in ONE and the N in CENT. The eye appeal quite nice. PCGS 5, NGC 0, CAC 19 (for all 1943s in MS66). None have ever sold in auction, and there is just a single MS67 example graded. The current PCGS Price Guide value is listed at \$1,200. With a coin this RARE, only the serious specialists will figure out its real value. Cert. Number 35811947 PCGS #

FROM THE HANOVER COLLECTION, PART 2. A high end GEM example of this World War II era variety. Radiant luster blooms with a strong vibrance on both sides. A strong luster booms with intense red color on both sides. Nary a mark can be found, save for two minor ones on the obverse which will serve to identify this radiant GEM for posterity. PCGS 6, NGC 0. There is only a single example finer. None have sold in auction, but the PCGS Price Guide value is \$1,200. Worthy of a strong bid for its good looks, this coin belongs in an advanced set. Cert. Number 34633992 PCGS # 569292.00

FROM THE HANOVER COLLECTION, PART 2. An exceptional quality example of this intriguing over mintmark variety with the underlying S clearly visible under the D. Blazing red luster blooms vibrantly on either side of this well struck and wonderfully preserved PQ GEM. Just a single example is graded finer at PCGS. PCGS 10, NGC 12, CAC 11. The current PCGS Price Guide value is listed at \$1,600, but the CAC CPG value is listed at \$3,120, and this coin brought \$2,115 in July 2014. The only one finer is a 67+ RD that brought \$8,400 in the 2019 ANA auction. This one is worthy of a strong bid for sure. Good luck. Cert. Number 25308331 PCGS # 2725.00

Estimate: 1,000.00 - 1,200.00

This is the SINGLE FINEST example of this variety graded by PCGS. The D is clearly repunched, the upright of the D boldly doubled. Ultra clean, SUPERB GEM quality surfaces make this incredibly lustrous, high end RED example stand out in terms of technical quality and visual allure. PCGS 1, NGC 0, CAC 22 (for all MS67 RDs). The current Collectors Universe value is listed at \$1,400. A real prize for the specialist, the eye appeal is exceptional in every way and will bring an exceptional bid for the quality. Cert. From the Blue Hill Collection, as noted on the insert. One of the most famous of all the Lincoln cents, and a KEY issue in this ever popular series. The present GEM ranks among the FINEST graded by PCGS in the BN designation. Looking at this coin shows how the color categories assigned by the grading services do not always do justice to coins with incredible color. This lovely MS65 BN has a wealth of original mint red color that mingles with orange, blue, violet, and gold that accents warm brown. There are a few tiny ticks that we note with a strong glass, which also reveals a carbon fleck on the reverse, which we note for full disclosure. The eye appeal is exceptional with a bold array of colors that delight the viewer's gaze. PCGS 12, NGC 15. PCGS has graded just a single MS66 BN finer in the category. There is a wide range of APRs for PCGS MS65 BNs, the most recent example sold in the 2017 ANA auction for \$5,875, but before that, none had sold since 2014, when two examples sold, including the one in our February Regency Auction for \$7,638. The current PCGS Price Guide value is listed at \$7,500. The single MS66 BN sold in September 2016 for \$30,550. What a great coin for the Registry collector. Cert. Number 84009307 PCGS # 2825.00

<u>71</u> 1C 1955 DOUBLED DIE OBVERSE. PCGS MS64 BN CAC

Estimate: 3,000.00 - 3,500.00

This is an exceptional near-GEM quality example of this very popular Doubled Die variety. While scarce, it is available enough to have become a part of the regular series. Fantastic steely brown and icy blue toning comes to the fore with a vibrant, flashy luster. The doubling is quite bold and strong. A few teeny ticks are noted for full disclosure but the eye appeal is quite nice overall. PCGS 259, NGC 166, CAC 105. The last three PCGS/CAC examples sold in the \$3,602-\$4,560 range, with the current PCGS Price Guide value listed at \$4,500. This lovely coin will fit in nicely in any set. Cert. 1C 1969-S DOUBLED DIE OBVERSE. PCGS AU58 CAC

Estimate: 24,000.00 - 28,000.00

Presented here is a very high end example of one of the most important Lincoln Memorial cents, and among the KEYS in the entire series. The obverse is fully and boldly doubled. Well struck and the devices show only the slightest rub on the high points, this PQ GEM AU is evenly toned in a mahogany-brown with some lighter brown and hints of slight blue highlights. The surfaces are generally smooth and show only the slightest little marks, consistent with the grade. It is a beautiful coin for the grade and would make a great addition to any advanced Lincoln cent collection. While the mintage is unknown, it is extremely RARE in all grades. Genuine examples are known to exist only since the 1990s. Today, they are keys with fewer than 80 graded in total between PCGS and NGC. PCGS 15, NGC 2, CAC 5. The most recent PCGS/CAC example brought \$28,800 in the 2018 ANA auction. Prior to that we sold one in December 2016 for \$28,200. The current Collectors Universe value is listed at \$26,500 and this one should bring more. RARE in all Mint State grades, this AU58 will delight any advanced Lincoln cent collector looking to fill this challenging hole. Cert. Number 38129933 PCGS # 2921.00

1C 1983-D DOUBLED DIE OBV. FS-101. PCGS MS65 <u>74</u>

FROM THE HANOVER COLLECTION, PART 2. This is the FINEST graded 83-D Doubled Die, which shows the doubling at LIB on the obverse. It is a very rare variety, of which PCGS has graded exactly 7 examples. Brilliant red surfaces show only a few trivial marks and flecks that keep this coin from an even higher grade. PCGS 1, NGC 0. The current PCGS Price Guide value is listed at \$1,500, but it will be the Lincoln cent variety experts that determine what this RARE, Pop Top example is really worth. Cert. Estimate: 900.00 - 1.000.00 USD

FROM THE HANOVER COLLECTION, PART 2. A SUPERB example of this popular FS-101 DDO variety. The Doubling is strongest at the ear, beard, and bow tie. Blazing RED surfaces are virtually pristine. The surfaces show the typical "pimpled" look, with gas bubbles trapped between the zinc center and copper plate outer layer. PCGS 26, NGC 41. The current PCGS Price Guide value is listed at \$1,800, but this one sold for \$2,585 in the 2016 FUN auction. Just a single MS68+ RD is graded finer. This is a great coin for the Lincoln cent Registry Set collector. Good luck! Cert. Number 25650186 PCGS # 3062.00

An intriguing modern variety that is extremely scarce and rarely offered. The reverse die with the AM widely spaced was intended for Proof coinage, but somehow a number of Philadelphia mint coins were struck for circulation using these dies. They are VERY RARE in such a high grade, and PCGS has graded about 1,000 in all grades, however, this MS68 RD is the SOLE FINEST graded at PCGS! Exceptional brilliant RED luster blazes on both sides of this sharply struck uber-GEM. PCGS 1, NGC 0. This coin in UNBELIEVABLE! It looks like an early GEM RD MS Lincoln. We never ever see these Matte Proofs looking like this and still in their OLD GREEN TAG HOLDER! Plus, the quality is SUPER HIGH END! Out of this world UBER GEM ORIGINAL MATTE surfaces are virtually perfect. Only using a strong glass can you find a single microscopic tick. The are no defects anywhere. A faint partial fingerprint can be seen only with strong glass. We mention that for accuracy in the description. The luster is insane and will nearly blind you. The GEM MINT RED color could not be any more original. Lincoln and ever every detail are so sharply struck, they almost look 3D. The eye appeal is out of this world! PCGS 7, NGC 8, CAC 3. PCGS has graded one coin in PR67 and one PR67+. In January 2019, a NON CAC coin brought \$60,000 in auction. When the coin offered here made its first appearance on the market, it brought \$70,500. The current Collectors Universe Value is \$75,000. With a market so starved for ORIGINAL quality, we expect this coin to blow past those numbers. You really need to see this amazing GEM to believe it. Good luck! Cert. Number 9925143

Estimate: 3,600.00 - 4,000.00

A GEM, knock your socks off, eye appealing beauty. Intense MINT RED, matte field are graced by traces of pale orange and gold hues. Razor precision strike and detail. Virtually flawless with just a couple of tiny specks on the collar, seen only under strong magnification. PCGS 41, NGC 8, CAC 15. Just 4 coins grade 66+ at PCGS. An example sold for \$4,200 in June 2018. Exceptional value when compared to the price for a PR67 which is listed in Collectors Universe for \$14,500. This piece has claims to PR-67, but for a fraction of the price. Good luck! Cert. Number 36484930 PCGS # 3317.00

1C 1914 MATTE PROOF. PCGS PR67 RB CAC **79**

Estimate: 6,000.00 - 7,000.00

In a word, SPECTACULAR! The surfaces are so pristine, it looks like the coin was struck yesterday! Gorgeous, deep matte finish. Thick frosty luster is accentuated on the obverse with fiery red, while the reverse has been graced with a whisper of violet hues over mint red. Needle sharp motifs. One of the few times all of Lincoln's beard is fully delineated. FLAWLESS! Just 1,365 pieces were struck. PCGS 8, NGC 5, CAC 5. This particular coin recently sold in November 2019 for \$6,900. Collectors Universe Price Guide is \$10,000. We think this one may have slipped through the cracks in the recent sale, and anticipate spirited bidding for it. Cert. Number 38438438 PCGS # 3319.00

An exquisite, essentially SUPERB example of the first "modern" Proof Lincoln cent. Struck in two types in 1936, the first having a satiny lustrous finish, as here. Ranking near the top of the pop, there is just a single PR67 RD graded finer at PCGS and there are none graded 66+ RD at NGC. Clearly this beautiful coin is one of the best available! Absolutely original, totally lustrous satiny surfaces show off a bold RED coloration that is rich and vibrant. The devices are sharply impressed by an exacting blow from the dies. A delicate rose-gold overtone gives this stunning coin a fantastic visual allure. There are no serious flecks or marks of any kind that have any impact on the eye appeal. PCGS 43, NGC 8, CAC 13. There are seven graded 66+ RD with just a single PR67 RD graded higher. The most recent example in 66+ RD was sold in our September 2019 Regency Auction, which realized a record price of \$13,513. The current PCGS Price Guide value is listed at \$13,500. This stunning beauty is bound for the FINEST of sets. Good luck! Cert. Number 38303774 PCGS # 3332.00

WOW! What a coin! This is the SINGLE FINEST 1937 Proof Cent in the RD category. SUPERB, deep, blazing red mirrors are on fire! The icy smooth mirrors are glassy and sleek, with a bold clarity. The devices are sharply impressed creating a neat, almost cameo like appearance on both sides. Totally free of any distracting lines or flecks, this exceptionally high end SUPERB GEM is bound for the FINEST of collections! PCGS 32, NGC 17, CAC 15. This is the SINGLE FINEST example in the designation. The only comps we can find are an NGC PR68 RD that sold in the 2018 ANA auction for \$13,800 and the PCGS PR67 CAM CAC that we sold in our January 2019 Regency Auction for \$24,675. Unpriced in the Collectors Universe Price Guide, this SUPERB coin will realize a record price. Bid aggressively if you are working on a top tier Registry Set. Cert. Number 38150848 PCGS # 3338.00

FROM THE HANOVER COLLECTION, PART 2. FS-101. What an exceptional, SUPERB CAMEO GEM of this scarce modern variety. Tied for second FINEST graded in the CAM designation and this is the ONLY PR68 RD CAM to get CAC approval. The doubling is seen at LIBERTY, IN GOD, and 1971. The extremely reflective, mint fresh mirrored brilliance of the fields contrast dramatically against the sharply struck devices. PCGS 15, NGC 7, CAC 1. This will be the first time a CAC-approved example will sell in auction. The most recent example, not CAC, sold for \$1,440 in September 2018. The current PCGS Price Guide value is listed at \$2,150. Just three are graded higher in the CAM designation. Worthy of a strong bid. Cert. Number 34376281 PCGS # 83548.00

This is an exceptionally high end, PQ GEM example that is tied for second finest graded in the BN category at PCGS. Vivid, intense mint luster blooms over the milk chocolate brown surfaces enhancing the delicate, icy steel blue iridescent toning on both sides. A wealth of original red clings to the protected areas of the design. The eye appeal is very high end. PCGS 24, NGC 37, CAC 17. Only 2 are graded MS66+ BN and just a single MS67 BN is graded higher. The other MS66+ was also CAC and sold in our December 2019 Regency Auction for \$1,763. The current PCGS Price Guide value is listed at \$2,000 and keep in mind that the 67 BN sold in the 2018 ANA auction for \$7,200! This one is truly a PQ GEM and worthy of a premium bid! Cert. The SERIES KEY and a MONSTER condition rarity! This is a wonderful example with incredibly intense red highlighted by splashes of olive and tangerine toning. The luster on this piece is like the gift that keeps on giving; deep and explosive with a great cartwheel effect. Not a spot or mark to be found. One wonders why this coin did not merit a + or even 67 grade! Struck to ease the shortage of coinage in circulation brought about by uncertainties of the Civil War. The 2-cent denomination was struck in bronze and was not subject to hoarding so it served a great purpose in day to day commerce. Struck with both a Large and Small motto on the banner, the latter is believed to have a mintage of only a few thousand and is therefore highly sought after by collectors. PCGS 20, NGC 16. Only 8 pieces grade finer at PCGS with an MS 66 the finest. Prices vary widely as noted by two which sold in 2019. One sold in February for \$33,600 and another in May 2019 for \$15,600. Collectors Universe Price Guide is \$15,000. If you want to be the lucky owner of this magnificent coin you better be prepared to pay dearly for the privilege. Cert. Number 37493231 PCGS # 3581.00

A dramatic doubled die variety, and a KEY issue of this short lived, obsolete denomination. A wealth of original, fiery red mint luster glows all over on both sides of this near GEM quality example. The obverse shows about 85% original red, mellowing with shades of magenta and violet. The reverse is a touch more toned, with warm brown overtones. The sharply struck devices, including the exceptionally bold doubling on IN GOD WE TRUST and other design elements. Utilizing the aid of a strong glass, no marks or flecks of any kind appear anywhere. The eye appeal is exceptional and while we make no guarantees, we would not be shocked to see this coin end up in a "+" holder if resubmitted. PCGS 9, NGC 3, CAC 3. Only 4 coins are graded higher in the designation at PCGS. The current Collectors Universe value is listed at \$8,250 and the CAC CPG value is \$10,000. Ex Larry Shepherd Collection A stunningly colorful, ultra reflective GEM example of this obsolete denomination that is among the FINEST graded at PCGS. Blazing RED mirrors beam all over with a depth of clarity that is bold and rarely seen on this type. The sharply struck devices are framed by a magenta-red patina that is seen throughout the peripheries on both the obverse and reverse. The surfaces are clean, free of any distracting marks, ticks, or carbon flecks. The eye appeal is high end. Only 600 Proofs were struck. PCGS 18, NGC 9. NOTE: there is only a single CAC-approved example, just showing how picky CAC is when it comes to this issue. The most recent PCGS Price Guide value is listed at \$8,000 and the most recent example sold nearly two years ago, so these do not appear with frequency. This is a great coin for any two-cent piece set in Proof, a very cool set to put together. Cert. Number 36468812 PCGS # 3641.00

A SLEEPER date in this lofty state of preservation. Resplendent surfaces beautifully reflect halo toning in magenta and peach hues while the centers are golden red. The razor sharp motifs are graced by light frost. If you look very closely with a loop there is a well concealed carbon speck tucked in the leaves on the right. Mark-free fields. Only 1,000 Proofs were struck. PCGS 34, NGC 19. Remarkably there are only 4 coins that grade higher 66+ at PCGS and NGC combined! An example sold in March 2018 for \$1,740. Representing the ONLY branch mint trime, the 1851-O had a mintage of 720,000 and lucky for collectors, there are a number of Mint State examples that survive; however, in the lofty grade of MS66, there are very few that exist, and just four are graded MS66+ as the FINEST at PCGS. This frosty lustrous GEM has an impressive originality to both sides with a pearly-silver, lavender, and gold that deepens on the upper obverse rims. Some minor striking weakness, typical of the date is noted, as is a small mark on the lower reverse. The eye appeal is very pleasing and original. PCGS 31, NGC 13, CAC 19. This one sold for \$5,523 in June 2019. The current PCGS Price Guide value is listed at \$5,500. Note just four 66+ are graded finer, and carry an \$11,000 price tag. Worthy of a high ranking set and will sell for a strong price. Demand for this coin comes from 3CS collectors and specialists of New Orleans coinage, as this is the ONLY such date in the series. HOLY MOLY! It's hard to find the words to describe the beauty of this magnificent GEM. Some customary die polish lines are noted and are commensurate with mint state specimens. The colors of kings (shades of electric blue, vibrant red and royal purple) grace breathtakingly, INTENSE mint bloom and frost. Exceptional strike. If you have followed our auctions for any period of time, you will know we are famous for building world class collections of Mint State and Proof 3CS sets. PCGS 10, NGC 3, CAC 9. In October 2015 a PCGS/CAC example sold for \$11,750 and the Gardner coin sold for \$15,275. Most recently, this coin sold in our Regency Auction 30 in January of 2019 for \$15,275, eclipsing our presale estimate by over 30% attesting to this coin's incredible desirability. This coin would make a fabulous addition to a condition rarity collection. Bid like this is a rare opportunity, because it is! Cert. Number 36661377 PCGS # 3686.00

A wonderful, totally original GEM 1860 Proof trime. Highly reflective watery mirrors are coated by a rich melange of blues, golds, and tangerine-rose that are a delight to behold. A strong glass reveals a few ancient lines, but they are all toned over on the richly reflective mirrors and they are appropriate for the assigned grade; we do not see why CAC did not sticker this lovely coin. Only 1,000 Proofs were struck. PCGS 11, NGC 10. The most recent non-CAC coin to sell in auction was graded by NGC and brought \$3,525 back in April 2017. An astute buyer should seize the day with this beauty. When you consider the low mintage of a scant 600 Proofs of the regular as well as overdate issue, coupled with a meager population for the grade of just 7 coins, decisive action is mandatory. FATHOMLESS pools of brilliance reflect gorgeous ice blue, rose and soft champagne gold hues. Razor sharp devices are kissed with mint frost. A few insignificant hairlines are all that keep this piece from GEM status. Initially identified as an 8 underdigit by Walter Breen, but subsequently, after additional research, considered just a repunched 9 by Kevin Flynn. A highly sought after issue regardless of the underdigit. PCGS 7, NGC 0, CAC 2. Only 7 pieces grade higher. We absolutely consider this coin to be VERY high end. CAC was just too tough on it by not beaning it. Super deep mirrors seem neverending. The contrast is amazing as is the eye appeal! Only 625 were minted. PCGS 5, NGC 3. These have dropped to ridiculous price levels. Why should a coin like this not be worth at least \$5,000 to \$7,500? This coin has a LOW pop, is 152 years old, and is of a denomination long gone. Time will straighten this out. We suggest building a nice and quaility oriented set today. How can you not? Cert. A DREAM coin for the strike conscious collector. One of the best detailed examples for the grade we have seen in a LONG time. All of the important design elements are struck to full advantage, not the least of which is the horn and split tail. Enhancing the desirability further is the booming mint luster. Accents of soft rose, powder blue and champagne gold add to the overall appeal. Under a glass a miniscule mark is noted on the Indian's forehead. Claims to a higher grade. PCGS 283, NGC 159, CAC 21. Very few pieces receive the CAC designation because most have mushy strikes and they lack luster. The disparity in price between a CAC and non-CAC is palatable. In August 2019 a CAC specimen sold for \$4,560, which is almost twice as much as the non CAC piece which sold for \$2,400 in October 2019. Collectors Universe Price Guide is \$3,750. This coin is so wicked cool. It is a true borderline MS67! Sassy surfaces are sleek and are super clean. They stand the test of a powerful glass search. This coin has the known die brake across the center of the obverse. An intense luster actually has slight traces of semi-prooflike mirrors. Both sides enjoy an original faint mix of pastel rainbow like colors. There are NO spots. All of the details are well struck. The eye appeal is fantastic! PCGS 96, NGC 21, CAC 26. PCGS has graded only 7 in MS66+. NONE have been graded higher anywhere. The last PCGS CAC piece to sell in auction brought \$15,863 in May 2018. There have been none sold at auction since. The coin offered here is fresh and has been in a collection that has been away for over a decade. Opportunity knocks loud here for any Buffalo Collector. Cert. Number 37525606 PCGS # 3973.00

Looking to upgrade your set to bring it to that next level? Here is your 36-D. Despite a mintage of nearly 25 million, this date is quite rare at this lofty state of preservation. Marvelous luster abounds brilliantly on both sides enlivening the exceptionally smooth and clean surfaces. The devices show outstanding definition from an exacting strike. The central areas are awash in a pale, sky blue tone, which blends to a rich rainbow band at the right obverse periphery. The eye appeal is superb. PCGS 122, NGC 21, CAC 33. There are 17 in MS67+ at PCGS. As of this description being written, the last two PCGS MS67+ CAC sold for \$16,450 in our September 2018 Regency Auction and \$10,575 in our December 2016 Regency Auction. The current Collectors Universe value is listed at \$9,500. Virtually unobtainable any finer, there are just three graded in MS68, none of which have sold in a decade! Good luck! Cert. Here is a totally original, pleasing quality GEM example of this important, key date Buffalo nickel variety. This is one of the blue chips of American numismatics, a date that is always in demand, regardless of grade or market conditions, but especially so in GEM grades. This coin is extremely well struck from the heavily clashed dies that led the mint employee to file down the dies, removing the buffalo's leg, creating this variety. The clashes can be seen across the Indian's portrait, turning up as raised marks on the cheek bone and in the hair. The satiny mint luster blooms on both sides with a pearly radiance accented by a pale honey gold, which imparts an amazing eye appeal. PCGS 53, NGC 55, CAC 22. We sold one in our September 2019 Regency Auction for \$25,850. The current Collectors Universe value is listed at \$24,000 and the CAC CPG value is listed at \$30,200. Just two dozen have ever graded higher, accounting for, of course duplication of submissions of the same coin going in for an attempt for an even higher grade. A wonderful coin worthy of a great set. LM-1. A wonderful, lightly circulated early half dime that is totally original and GEM caliber for the assigned AU53 grade. The eye appeal is spectacular for an AU! Only when using a strong glass can you see a few small and widely scattered ticks. Some minor die clashing and a cool die crack are visible. A light glossy luster remains on both sides. The toning is an evenly distributed, rich, original olive and teal with steely silver accents. Miss Liberty and the details are well struck, the flatness of the reverse is from the uneven striking, typical for the date, seen on even the MS65 examples. The eye appeal is excellent! PCGS 6, NGC 6, CAC 3. We cannot find a record for this coin selling in auction, and no AU53 sold in auction had CAC approval. The 1797 dime is a very scarce coin in any grade, but the majority of those seen are either low grade or have some sort of defect that precludes numeric grading, such as cleaning, tooling, scratches, or other problems. Even those assigned numeric grades often are not totally original, showing second color, or flat, dull surfaces. The presently offered AU50, is in our opinion one of the nicest circulated examples of this date we have seen. Just a touch of wear can be detected on both sides, mostly limited to the highest points of the design types. Despite the minor wear, the details retain sharp definition, imparted from a precision blow from the screw press. The obverse die was shattered early on, with a number of die cracks at the date. Two cracks are seen, but have not combined to be the cud that is sometimes seen. A lightly dappled pale blue, olive, and rose gold tone blooms on both sides, highlighted by the subtle remnants of the original mint luster. The central devices are sharply struck up, with just some minor weakness at the peripheral details. Aside from a tiny tick or two, all we see in the fields is a number of mint made clash marks. This is a special coin for type or date collectors. Two die pairs were used in 1797, one with 16 obverse stars and the other with 13. While 25,261 dimes were delivered in 1797, these may have included 1796 dimes as well, as the dies were used until they were no longer serviceable. PCGS 4, NGC 0, CAC 1. This is one of the FINEST KNOWN 1886-S dimes, and to take just a casual glance at this MONSTER GEM is to fall in love! We consider it to really be borderline MS68 quality. The sensational surfaces are exceedingly clean and have a satiny smooth texture. Even when using a strong glass you will find nothing to disappoint you. There are some light die polishing lines mentioned for accuracy. We are blown away by this coin's intense full booming luster. We rarely see this date like this. Both sides enjoy subtle squirts of pale golden brown color-the coin is still 75% silvery colored. Everything about this coin screams total originality. Miss Liberty and the details are lightly frosted and are sharply struck. The eye appeal is sensational! PCGS 5, NGC 2, CAC 3. This is the ONLY MS67+ and there are just 2 coins graded finer as MS68. A PCGS MS67 CAC sold for \$6,600 in the 2019 FUN auction and keep in mind that a PCGS MS68 last sold nearly 14 years ago in 2006 for \$23,000! The current PCGS Price Guide value is \$11,500 and when the hammer finally falls, that number may well be surpassed. Good luck, this coin is worthy of the FINEST of Seated dime or even type sets! This is a GORGEOUS Cameo Proof in an ultra high end state of preservation. Deep, clean, and clear mirrored fields have a smooth, watery reflective flash which contrasts brilliantly against the rich frosty texture of the razor sharp devices. Both sides are framed by a wonderful cobalt and amber-gold patina that suggests old time album storage. The eye appeal is amazing. Only 930 Proofs were struck. PCGS 14, NGC 17, CAC 14. The last PCGS/CAC example to sell in auction realized \$3,525 in September 2017. The current PCGS Price Guide value is listed at \$3,750. Just three examples are graded finer at PCGS, including a PR67+ CAM that we sold in January 2017 for \$6,169. Cert. Number 84603566 PCGS # 084782

A stunning SUPERB GEM with brilliant, glittering contrast between the thickly frosted, needle sharp motifs and the deeply clear, clean, mirrored fields. The surfaces are immaculate and are astounding, mint fresh blast white silver, offering a killer eye appeal! Only 832 pieces were struck. PCGS 5, NGC 6, CAC 6. it is easy to see why this coin is one of just two PR67+ CAMS graded at PCGS and is FINEST for the designation. This coin recently sold in our Regency Auction 32 in May 2019 for \$7,931. Another example sold in April of 2018 for \$8,700. Listed in the Collectors Universe Price Guide for \$8,000. Don't miss this important opportunity to add a wonder coin to your collection. Cert. Number 18322032 PCGS # 84785.00

A top notch quality SUPERB GEM with colossal eye appeal! The depth of mirrors on this beauty go on and on and on. The clarity of the reflectivity is stunning! Could it get any prettier? Yes, with the incredible teal and aquamarine blues, golden and rose toning, the aesthetics are BREATHTAKING! Immaculate surfaces. A mere 450 Proofs were coined! PCGS 12, NGC 14, CAC 16. Just 3 coins merit the 67+ designation with NONE FINER. We sold an example in our Regency Auction of the Premier Barber Collection in May 2018 where it realized \$7,931 and the current PCGS Price Guide value is listed at \$7,500. What a fabulous example of a "silent" stopper in high grade. Immaculate surfaces are sleek and smooth. Even when using a really strong glass there is nothing to find that is a negative. The luster beams boldly from all over. A light and totally original layer of gold has some faint streaks across the obverse. Miss Liberty and the details are sharply struck and stand out. The eye appeal is great! PCGS 23, NGC 3, CAC 11. PCGS has graded 5 in MS67+ FB. NO MS67+ FB has EVER been sold via auction. The Collectors Universe Value is \$12,500. This is a totally fresh coin to market. It had been away for over 20+ years in a roll. This cataloger actually did see the roll. We strongly feel this coin is worthy of any top quality set today! A special, high grade 31-S dime, one of the FINEST that PCGS has ever graded over the course of its 33 years of operations. Brilliantly lustrous on both sides, the fields have a rich, flashy sheen that glows with a pearly vibrance. The devices are sharply struck and have a wonderful glossy texture to them that gleams with a seductive glow that contrasts against the delicately dusted gold iridescent toning. This is an amazing survivor of the date. Every detail is very well struck and fully formed, with crisp, full definition, from the rims to the central bands of the fasces. We are not sure why CAC did not bean this SUPERB GEM it is a gorgeous, high end example. PCGS 11, NGC 3. While the most recent sold for just \$8,400 in November 2019, in February 2017, when the last non-CAC coin sold, it brought \$14,100. The current PCGS value is listed at \$21,500. Keep in mind that we sold the single MS67+ FB in our June 2019 Regency Auction for a world record \$270,250! You will be hard pressed to find another HIGH END example for your Registry Set. This is a fantastic, SUPERB GEM with absolutely gorgeous colors that frame both the obverse and reverse. Concentric rings of rainbow color suggest that this beauty spent ages in an old collector album. Only long term storage in such an album, coupled with Mother Nature, could create such a melange of beautiful color. PCGS 67, NGC 90, CAC 9. This coin's value is totally derived from the intense eye appeal of this beauty. The only comp we can find that is worthy of citing is the MS67+ from our sale of the Dale Larsen Collection, October 2017, that realized \$1,293. Good luck! Cert. Number 38129824 PCGS # 5016.00

WOW! WOW! This monster SUPERB GEM has multiple wow factors! It is amazing in every way! In the non FB designation, this coin ranks among the absolute FINEST graded in the entire series! The state of preservation is essentially other worldly! The surfaces are pristine! with a strong glass we can see only a tiny tick hidden in the reverse details. Intense, frosty luster blooms brilliantly through the vivid crimson, violet, and orange gold toning that dominates both sides. Save for the central band on the reverse, the details are sharply rendered from an impeccable strike. The obverse shows multiple advanced die cracks, suggesting that this may have been one of the last ones produced with this obverse adding something special to the coolness factor. PCGS 11, NGC 7, CAC 4. This is one of just three that sit at the very Top of the Population. Only one other 68+ has ever sold in auction, realizing \$7,638 in our June 2019 Regency Auction. The current PCGS Price Guide value is listed at \$8,000. The unimprovable grade and astonishing eye appeal of this monster will vault it to record bid territory. Good luck! Cert. A Condition Census B-3. This is an interesting die marriige, as its using the same obverse die as the overdate B-1 1818/5 but the die was lapped, removing the vestiges of the underlying 5 below the 8. Totally original, this is a very pleasing quality GEM Capped Bust quarter. A rich, satiny underlying luster catches the light from below a layer of pearlescent-pewter, pale blue, lilac, and tan gold. Crisply struck, with bold, complete definition to the devices. Close examination with a powerful glass reveals a few mint made clash marks, but the surfaces are generally devoid of any post minting flaws of any kind. Housed in a "Generation 4.0" PCGS holder, the first generation of the blue tag holders, in used from 1998-2002. The eye appeal of this old-holdered coin is high end and it will delight any type or early type collector. PCGS 23, NGC 21, CAC 5. The most recent example to sell was in the 2019 FUN auction, a coin that realized \$28,800. The current Collectors Universe value is \$28,500 and the CAC CPG value is \$33,300. We know a fresh coin like this will see very strong bidding when it crosses the block, and it is a coin that will fit any GEM type or early quarter set. Cert. Number 6564965 PCGS # 5322.00

A high CONDITION CENSUS B-2 and a stunning, beautiful example! Creamy, snow white fields are booming with a vivid mint bloom and brilliant luster. Accents of light reflection beam with traces of soft champagne gold tone that flits across the surfaces. There are a couple of well concealed toning spots and a tick on Liberty's cheek which are detected under strong magnification. Thick mint frost accents bold motifs which are remarkably free of weakness, particularly significant when one considers the screw press used to mint the coins. Five known die marriages for this date consisting of 3 different obverse and four different reverse dies. This variety, the B-2 is readily identified by the leaf which is connected to the denticles on the reverse. PCGS 3, NGC 0, CAC 3. One of just 2 coins graded MS65+ at PCGS and only are 4 finer according to the PCGS population report. The other coin has been sold twice since August 2012 where it sold for \$62,625 and then again in May 2015 where it fetched \$54,050 (this coin is much more attractive in our opinion). Listed in the Collectors Universe Price Guide for \$55,000 and considering the desirability and rarity of the piece worth every penny and more! It will take aggressive bidding if you want to add this beauty to your cabinet! Cert. Number 7422965 PCGS # 5329.00

This is the EXQUISITE Eliasberg-Pogue B-2 Capped Bust quarter. Its high grade quality and amazing pedigree would make it the CENTERPIECE of any early quarter collection. Frosty luster rolls over clean fields and is enhanced by undulating, pearl gray interspersed with wisps of ice blue, seafoam green and honey gold toning in the recessed areas. The design elements are struck to full advantage and the overdate is so bold all of the numerals underneath are clear to the naked eye. A tiny tick on Liberty's chin and a faint line on the obverse from the cap to star 8 are noted merely for the sake of accuracy. Three die pairings were used to strike quarters dated 1825. Most scholars recognize them as 1825/2; 25/3 and 25/4, but of late, it was discovered that a leftover die from 1824/2 was used as well. Although the B-2 is considered the most common die pairing, this example can hardly be considered common with regard to provenance and exceptional condition! PCGS 2, NGC 3, CAC 1. The additional pieces grade MS66 and MS66+ at PCGS. This piece fetched a strong price of \$32,900 in our Regency Auction 27 in July 2018. With the majority of coins from the Pogue Collection ensconced in collectors sets, this piece represents a fabulous opportunity to add a stunning, wholly original example with an IMPECCABLE PEDIGREE to your collection. This is the SINGLE FINEST GRADED 1828 quarter, a coin that is two full grade points finer than any other NGC-graded 1828 quarter and is cleaner than the PCGS MS66+ CAC which is the highest graded at that service. At first glance, you would not be blamed for thinking this SUPERB GEM is a Proof. The B-4 die marriage was used to strike Proofs as well as Mint State coins, as such, this SUPERB GEM's fields are distinctly Prooflike, with a bold flashy, mirrored texture. The fields are icy smooth, essentially PRISTINE, with no visible imperfections, even with the aid of a strong glass. The sharply struck from an early die state, the devices show razor sharp definition on both sides and is free from any cracks, clashes, or die rust. Both sides are awash in pastel blues, teals, and lilac tones with accents of gold and dove. Clearly a coin worthy of the Condition Census, both the Tompkins and Rea, et al Early Quarter references just have Proofs listed. PCGS CoinFacts lists this coin as #2 on their census, behind the PCGS MS66+ from the Kaselitz Collection. Whether that coin, or this one is actually #1, may be up for debate, but what is NOT is that this coin is ultra high end and offers a stunning old time visual allure that cannot be beat. PCGS 0, NGC 1. This coin realized \$108,688 back in June 2015, where it made its first auction appearance. Housed in an older NGC holder, its earlier provenance is unknown. The Kaselitz coin, which sold for \$111,625 in June 2015 is now impounded in the Dr. Charles Link Collection. This coin is cleaner and sharper in our view than that one, and this coin would make a stunning addition to any SUPERB type set or world class collection of Capped Bust quarters. You know that if we are offering this coin, rest assured its quality is all there! Cert. Number 683873-005 PCGS # 5342.00

Ex D. Brent Pogue Collection. Among the very FINEST KNOWN 1831 Capped Bust quarters that exists. Even if there are a few graded numerically finer, good luck finding another that looks like this one! Everything about this GEM is exceptional. From a technical quality perspective, this MS65 is sharply struck and has beautifully lustrous fields that show a swirling cartwheel brilliance on both sides. Every detail is crisply rendered by a forceful impression from these William Kneass' updated dies. With the aid of a strong glass, nothing but the most insignificant touch can be found anywhere. The visual allure is outstanding as well. The radiant, concentric bands of gold, violet, and blue hues that caress the satiny smooth surfaces. Both sides are framed by these bands of color, like a divine halo of color. Truly a spectacular coin that ranks at the top of the Rea, Peterson, Karoleff, Kovach census published in 2010 and was the original NGC MS66* from the Madison Collection. PCGS 14, NGC 20, CAC 8. In the Pogue Collection sale of May 2015, this coin realized nearly \$40,000 on an estimate of \$25,000-\$40,000. In the 2008 FUN auction, this coin realized \$57,500. We make no bones about it, this coin is owned and loved by Legend Numismatics. We all know they buy the best of the best! Here is how they wrote it up on their web site: We could not have picked a better coin as the first MS66FH we have ever owned (we have owned numerous MS65's). This coin is totally original and is totally a SUPERB GEM! Outstanding surfaces are as fine as you can dream of. We used a strong glass and looked really hard and found NO imperfections or ANY size, ANYWHERE. It clearly appears this coin left the bank 102 years ago and just sat somewhere safely undisturbed ever since. The luster is good and can be seen easily. Both sides are blanketed by a totally original moderate mix of pale champagne/golden brown colors with some russet borders. No question this coin has never been dipped or messed with. Most important, Miss Liberty and the details are sharply struck. You do not need a glass to see the rivets in the shield or the full head. The eye appeal is great! PCGS 19, NGC 21, CAC 4.The last PCGS CAC piece to sell in auction brought \$52,875 in June 2018 in a LRCA sale (this coin). We have not seen an MS66FH in years before this coin came around. A gorgeous GEM example of this semi-key date with a much bolder strike than normally encountered on this issue. Miss Liberty's head is partially visible, the inner shield rivets are pronounced and most importantly the digits of the date are struck to full advantage. Immaculate, creamy smooth surfaces are exploding with mint bloom. Interesting die crack through the tops of the digits in the date. A splash of light tone is in the folds of the lower drapery. PCGS 54, NGC 24. The current PCGS Price Guide value is \$4,250 and nearly identical prices were realized in April 2017 at \$3,760 and March 2018 for \$3,750. This is a truly gorgeous, SUPERB example that is tied for FINEST graded Light Motto quarter. Virtually perfect in every way, the surfaces are devoid of anything but the tiniest tick or two, mostly hidden on the reverse. Very lustrous surfaces with a bold brilliance in the fields on both sides. The strike is pristine and the surfaces are aglow with a pale iridescent pastel toning; light blue and pale gold are quite snazzy and add to the exceptional eye appeal. PCGS 24, NGC 3, CAC 13. There are just 7 graded MS67+ and NONE FINER. The most recent example sold in February 2018 for \$7,200 and prior to that, one brought \$7,050. The current PCGS Price Guide value is listed at \$8,500. This one will bring a strong bid and will end up in a world class Washington quarter set. Cert. Number 37070097 PCGS # 5794.00

This is a STUNNING totally original SUPERB GEM that clearly came out of an original Mint Set. Tied for FINEST graded at PCGS, this coin is destined for the greatest of Washington quarter Registry Sets. Delightfully toned on both sides with a dappled iridescent pastel blend that looks a piece of modern art. Shades of pink, gold, blue, and green all swirl together over the smooth, pristine surfaces that have a rich frosty glow. Incredible eye appeal for the date and type, rarely seen so fine! PCGS 30, NGC 44, CAC 14. PCGS has graded just 4 in MS67+ and we set the record in June 2019 when we sold one for \$21,150 and the PCGS Price Guide value is listed at \$17,500. We suspect this coin will surpass that level when it hammers down! Good luck! Cert. Number 35118415 PCGS # 5850.00

MONSTER toned! It looks like it was plucked out of a Wayte Raymond album just yesterday after being stored there for decades. An EXPLOSION of color cascades across satinlike fields in varying shades of crimson red, eggplant purple, fiery orange and lilac on the obverse, while the reverse boasts intense tangerine and ice blue hues. WOW! A feast for the eyes. After an arduous search with a high powered class we spotted a teensy mark on Washington's head. PCGS 40, NGC 74, CAC 14. The auction prices are all over the place and color certainly a HUGE factor in final values. In January 2019 a pretty toned piece sold for \$5,040; June 2019 a piece with monster color sold for \$10,200, while in December of 2019, a white example fetched a paltry \$2,040. The sky's the limit on this gorgeous coin. The only question is, how badly do you want it? Cert. Number 38305879 PCGS # 5872.00

Absolutely STUNNING! WOW! Sometimes, Mother Nature goes a little crazy, imparting a toning look that defies verbal or written description! Truly the PCGS True View image will say volumes more than this cataloger possibly could. Deep crimson, vivid gold, enchanting emerald, and royal purple colors give this coin an awesome technicolor look (it would put Joseph's Dream Coat to shame!). The surfaces are ultra clean for the assigned grade and shows off a stunning visual allure! Go ahead and ignore the numbers. Do not bother looking at the Price Guides, APRs, or population figures, they will be of ZERO help in figuring your bids! This work of art is UNIQUELY toned, rates an 11 on our 10-point scale, and worthy of a VERY STRONG bid. Cert. Number 38180379 PCGS # 5877.00

This is a popular collector grade O-112. The mint hired John Reich as the replacement for Robert Scot and he set to work redesigning the nation's coinage. The half dollar and half eagle were the first denominations tackled, as they represented the workhorses of the American economy. His iconic Capped Bust half dollar is one of the most popular types in all of American numismatics, and next to Large Cents, is the most collected early series. The first reverse had an engraving error, where the die sinker mistakenly punched a 2 in the denomination, effaced it, then put the 5 over the remnants. This one is totally original, showing light, problem free wear. Richly toned, with dove, slate, and battleship hues. Some bluntness of strike, typical for the first year of issue, does not impact the eye appeal. PCGS 54, NGC 36, CAC 12. The most recent PCGS/CAC coin sold in a January 2016 mail bid auction for \$1,430 and the current PCGS Price Guide value is listed at \$1,775. Demand for high end examples, regardless of grade, is always strong. Cert. Number 35204112 PCGS # 6086.00

A condition census and early die state O-107. Totally original and very pleasing, this near-GEM has a handsome look. Pewter and dove blends with lilac on both sides. A lovely underlying luster accents the various shades in the tone. The strike is bold with just some minor weakness, typical of the date. A strong glass reveals a stray tick or two, but nothing that detracts from the great eye appeal. PCGS 68, NGC 69, CAC 14. There is a wide range of prices realized at auction for PCGS/CAC MS64s, from a low of \$4,560 in 2012 to a high of \$12,025 in 2016; the most recent selling for \$10,800 in April 2019. The current Collectors Universe value is \$5,250. Scarce any finer, there are about three dozen graded higher which no doubt includes multiple duplicates, as most are clustered in 64+ and 65. Why can't all Choice Mint State late date Capped Bust halves have the ORIGINALITY and EYE APPEAL of this coin? Deep, frosty, mint bloom and luster are present over extremely well preserved surfaces. Evenly toned on both sides in wisps of pastel honey gold, tangerine and baby blue hues. A darker toning area is noted above the first T of STATES. Bold strike, and free of the typical weakness generally found around the bust area in the drapery folds. PCGS 82, NGC 69, CAC 8. Two pieces sold in August of 2019 for \$2,160 and \$2,145 respectively. Collectors Universe price guide has this coin at \$2,500. Ex D. Brent Pogue Collection. We had the pleasure of selling this gorgeous GEM in our September 2018 sale of the Konstantine Collection, where we described it as: "Among the very FINEST KNOWN 1827/6s that survive for collectors, PCGS has only graded as single coin marginally finer as a 66+. This beautifully toned, ultra-GEM grade example has a spectacular eye appeal and clearly was lovingly cared for and preserved, a remarkable miracle of numismatic survival. A bold, glowing luster radiates with superb brilliance on both sides, rolling along on with strong cartwheels. The spectacular visual allure is augmented by a very attractive pale blue that dominates toward the peripheries, fading and blending with hues of peach, gold, and soft pewter. The surfaces are smooth and the luster is ultra creamy with a strong satiny texture. The devices are sharply struck up and crisply rendered by an exacting blow from the dies. The eye appeal is intense and SUPERB. It is almost unbelievable that a Capped Bust half could look this beautiful after so many years!" PCGS 3, NGC 2, CAC 3. In its most recent appearance, in April 2019, this coin realized \$39,600 as part of the Jim O'Neal Collection. That in so short a period of time this GEM was included in the Pogue, Konstantine, and O'Neal Collections means that it is a high end coin, that even the pickiest of collectors enjoyed in their collections. You too can join their ranks, whether as a type, Red Book, or Overton collection addition. Good luck! Cert. Number 31914867 PCGS # 39752.00

A real prize among 1830-dated half dollars and arguably the finest of the O-106 variety available for sale, in spite of the Overton census listing both an MS66 and MS67. But, as neither example has surfaced at auction, we are not sure of their existence. Suffice it to say, you would be hard pressed to find a nicer example of this issue, anywhere. Thick frosty luster rolls over immaculate fields toned in pewter gray hues and accented by wisps of baby blue and saffron. Fresh and original! So much finer than the average 1830-dated example which generally comes with a poor strike. A couple of teeny flea bites are noted on the chin and neck under intense magnification. PCGS 27, NGC 24, CAC 8. Five pieces are listed in the PCGS population report as 65+. This coin last sold in our Regency Auction 28 on September 26, 2018 for \$12,337. Prior to this recorded sale, we sold an example for \$16,450 in our Regency Auction dated December 2017 and an O-101 with a terrific provenance of Earle-Eliasberg-Gardner sold in May 2015 for \$17,625. Just 7 coins grade finer at PCGS. Plan on some spirited bidding to take place for this beauty! Cert. Number 28831401 PCGS # 6156.00

This is a great, collector oriented grade 1836 Reeded Edge half dollar. Only 1,200 were struck, after the mint installed the new steam powered press, which allowed half dollars to be struck with a close collar. The present example shows only the slightest friction over the surfaces, retaining hints of luster under the delicate original toning. Sharply struck up, the devices show wonderful definition. Very pleasing in terms of eye appeal, this wonderful KEY Bust half dollar will delight any collector. PCGS 35, NGC 24, CAC 6. The most recent example to sell in auction brought \$4,320 in November 2019, and prior to that, we sold an NGC AU55 CAC for \$5,170. The current PCGS Price Guide value is listed at \$6,000 and the CAC CPG value is \$6,120. CAC coins are very difficult to find in any grade, and are rare any finer! Cert. A CHOICE GR-12. This lovely and totally original example is the PCGS CoinFacts Plate for the variety. A warm satiny luster is aglow under a layer of dove, olive, and russet-tan patina, attesting to long term storage in an old collector envelope. A few tiny, ancient marks are toned over and visible only with effort and the aid of a glass. Boldly struck, the eye appeal is wonderful! PCGS 150, NGC 137, CAC 16. Estimate: 20,000.00 - 23,000.00

This is a gorgeous GEM Reeded Edge half dollar. A vibrant mint luster, glowing with a warm, satiny bloom. The surfaces show off a delicate iridescent, pastel tone. Rose, gold, lilac, olive and russet hues blend together on the high end, clean surfaces, unmarred by any mark of any kind. A sharp strike from cracked and clashed dies, show off bold definition and very interesting die cracks on both sides, including an arching crack from star 4 through Liberty's cap to star 9 and multiple cracks that encircle the reverse. The eye appeal is simply AMAZING! In 1836 the Philadelphia Mint finally achieved a long standing goal of having a steam driven coining press. This meant that striking pressure would no longer be as varied as when coins were struck by men using a screw press. The mechanics of the steam press allowed for more precise and consistent striking pressure, as well as more uniform sizes to coins. This would thwart many counterfeiters who would be unable to match the high quality of the coins now being produced. In 1837 these Reeded Edge Half Dollars flowed into circulation, and this one was obviously set aside and carefully preserved. PCGS 19, NGC 40, CAC 11. This high end example is worthy of a premium bid. The average APR for a CAC-approved MS65 is \$20,618 (9 coins sold between 2009 and 2019). PCGS lists a Price Guide value at \$19,500 and CAC's CPG value is currently at \$19,400. This coin however is very high end and is worthy of a bid stronger than that. A GEM like this, which is PQ defined, will fit into a world class set of half dollars or type coins. Cert. Number 83968642 PCGS # 6176.00

Among the ABSOLUTE FINEST KNOWN 1838 half dollars to survive and offering the combination of high certified grade, CAC approval, and the D. Brent Pogue pedigree, this coin is the ULTIMATE example for any advanced collector. This delightful GEM borders on the SUPERB classification and is very high end for the assigned grade. A bold and impressive cartwheel mint luster radiates from below a dappled, variegated gold, dove, tan, and olive patina on both sides. The lovely shades are brought out vividly when the swirling luster catches the light. The reverse shows a touch of reflective vibrance in the protected areas of the devices. Both sides show off a generally sharp strike from cracked dies. The obverse shows a crack that starts at the rim below star 6 across the eye lid, through Liberty's curl, through the T in the ribbon, crossing the top of star 7. The reverse is cracked from T in UNITED to the rim between O and L in DOL. The only striking weakness of note is in the lower reverse, caused by uneven pressure. This beautiful GEM has a few tiny, insignificant ticks that are well hidden by the patination. A fantastic coin that has stunning visual allure! PCGS 3, NGC 4, CAC 2. The most recent PCGS MS66 to sell in auction was NOT CAC and brought \$45,825 in our December 2016 Regency Auction. This coin brought \$44,650 in May 2016 and was the first MS66 graded by PCGS to ever sell in auction. PCGS has graded just a single MS66+ finer, which is the H.P. Smith; Clapp; Eliasberg coin that sold as an NGC MS67 back in 2012, and is now impounded in the Dr. Charles Link Collection. With only 4 pieces grading PCGS AU58 and mere 4 total Mint State specimens at PCGS and NGC combined, coins of this calibre are exceedingly rare. Thickly frosted surfaces are graced by steel gray and light lilac hues. Original and a prize for the quality conscious collector! Honed motifs are devoid of any weakness. PCGS 4, NGC 4, CAC 3. As the mint's focus after the passage of the Bland-Allison Act in 1878 changed to the churning out of hundreds of millions of Morgan dollars; the striking of silver minor coinage (dimes, quarters, and half dollars) shrank to low five-figure levels. Only 10,000 circulation strike half dollars were struck in 1881. Like many of these lower mintage issues this highly lustrous GEM possesses a rich, Prooflike reflection below a lightly satiny mint frost. Clearly this coin was lovingly cared for from the time of issue, perhaps in an ancient album, as both sides show a subtle halo of color at the rims. The devices on both sides show typical definition; generally sharp throughout, but with some minor weakness at the highest points. The details are frosty and stand out from the smoothness of the fields surrounding them. The eye appeal is excellent! Housed in an old green tag holder. PCGS 15, NGC 8, NGC 5. The only PCGS/CAC MS66 to ever sell in auction brought nearly \$10,000 nearly 10 years ago back in December 2010. More recently the only other CAC coin, an NGC example brought \$12,925 in October 2015. The current CAC CPG value is \$7,500, well in excess of the PCGS Price Guide value of \$5,850, showing that CAC coins are worthy of a very strong premium! FROM THE SANTA FE COLLECTION This is an AMAZING example, clearly one of the absolute FINEST graded and certainly one that was lovingly cared for since the time it came off the dies. Both sides are ultra clean, smooth, and have a really strong luster. The color is a crisp white- and this coin is NOT dipped out. Miss Liberty and every detail is needle sharp in strike. There actually is a slight contrast. The eye appeal is stunning! PCGS 73, NGC 42, CAC 35. PCGS has graded just nine in 67+ and we have sold two in recent times, one in January 2019 for \$17,625 and one in July 2018 for \$19,975. The current PCGS value is listed at \$17,500 and just a single MS68 is graded higher, a coin that has a Price Guide value of \$50,000 and has never sold in auction. This one is worthy of a very high end set. Cert. Number 37728116 PCGS # 6602.00

FROM THE SANTA FE COLLECTION. Here is another amazing looking SUPERB GEM Walker from this world class collection. Frosty silver surfaces have a delicate golden hue that gently dusts both sides. The devices are sharply struck up and fully rendered. Only a few tiny ticks are noted, none of them are in prime focal areas and none detract from the absolutely wonderful eye appeal. PCGS 44, NGC 18, CAC 20. The current PCGS Price Guide value is listed at \$4,500 and the CAC CPG value is \$5,000 and the average of the last 10 PCGS/CAC examples to sell in auction is \$4,918. Just five MS67+s are graded finer, this immaculate GEM is certainly worthy of a strong bid and placement in a great set. Cert. Number 37728117 PCGS # 6603.00

FROM THE SANTA FE COLLECTION Of course this stunning SUPERB GEM had to be in a top set. It is a near miss MS68 for sure! Remarkable surfaces earn that title by being super clean and satiny smooth. Even the dreaded right obverse field has been tamed and has no issues at all. A reasonable luster glows from all over. Both sides have totally natural toning. A ring of reddish gold forms a crescent on the obverse and parts of the reverse. The balance of the colors are deep lilac/a kiss of gold/faint blue. Miss Liberty and the details are fully struck and boldly stand out. The eye appeal is fabulous! PCGS 109, NGC 40, CAC 34. PCGS has graded 12 in MS67+ with only 1 higher. The last PCGS CAC piece to sell in auction brought \$8,813 in September 2019. That price was on the low end of what they had been bringing for a few years. We see more people now working on 1934-1947 50C Registry sets because they can now do PCGS CAC. We believe this beauty will bring much more than the current Collectors Universe value of \$9,500. This coin will be a great fit in any set-especially a toned set. Good luck! Cert. Number 37728118 PCGS #

FROM THE SANTA FE COLLECTION The epitome of what a SUPERB GEM should look like! Boasting a thick, frosty satin luster that shimmers with a stunning and vivid brilliance. The details are sharply rendered with crisp, full definition on both sides. A tiny well hidden tick or two keep this as tied for second finest, instead of being tied for finest. Regardless, this is a very high end example worthy of another world class set. PCGS 115, NGC 75, CAC 63. PCGS has graded 14 in 67+ and there are just 2 graded 68 finer. In the last year and a half, PCGS/CAC MS67+ examples have sold in the \$3,120 to \$5,288, the most recent in our September 2019 Regency Auction at \$3,643. The current Collectors Universe value is listed at \$5,000 and this one is going to achieve a very strong bid. Cert. Number 37728121 PCGS # 6607.00

FROM THE SANTA FE COLLECTION This marvelous SUPERB GEM is among the absolute FINEST graded for the date, with just a single 68+ graded higher, this coin is a prime contender for an exceptional collection on the Set Registry. The silken, pearly silver luster radiates boldly and brilliantly on both sides, the obverse accented by a dramatic band of sunset-orange at the periphery. The pristine surfaces a totally unmarred by any significant marks of any kind. Nicely struck up on both sides, this exceptional coin is very high end and will fit nicely into a great set. PCGS 28, NGC 28. CAC is clearly very picky, they have only beaned 4 out of the 56 graded combined between PCGS and NGC. We sold the last non-CAC coin for \$5,405 in our June 2019 Regency Auction. The current PCGS value is listed at \$5,750 and we expect strong bidding for this absolute beauty. Good luck! Cert. Number 37728174 PCGS # 6611.00

The 17-S Obverse is a KEY date in GEM grades, with fewer than 50 graded MS65 or finer at PCGS. Today, with collectors demanding the absolute FINEST, this MS65 with CAC approval is bound to be a hotly contested coin among serious collectors, especially with the new PCGS/CAC Registry program, there is just a single MS66 approved by CAC finer. This lovely example that is sharply struck up, every detail is crisply rendered by an exacting blow from the dies. Even Liberty's thumb is fully delineated and separated from the surrounding area of the design. A shimmering iridescence can be seen in the light, especially on the reverse, attesting to the originality of this GEM. A few ancient contact marks can be found with a glass, but none detract from the outstanding eye appeal and the surfaces show SUPERIOR quality. PCGS 45, NGC 29, CAC 9. There have been seven PCGS/CAC examples sold in auction, four of which sold for \$30,550, though the most recent was in our March 2019 Regency Auction, realizing \$23,500. The current PCGS Price Guide value is listed at \$25,000 and the CAC CPG value is listed at \$27,200. EXTREMELY RARE any finer! Just four coins are graded finer, only one of which appears on the CAC Census, which brought \$43,475 in our March 2019 Regency Auction. WOW! What an amazing looking SUPERB GEM! This coin is stunning, totally original and TIED FOR FINEST GRADED for this late date, low mintage key issue. Even without the aid of a glass, you can clearly tell this coin is special! A full, pearlescent, frosty luster sets the surfaces aglow with a rich satin bloom on both sides. This brilliance in the fields and on the devices shows a warm brilliance and accents a delicate iridescent tone that frame the peripheral areas of the design. Exqusitely well rendered by a forceful, exacting blow from the dies, the details are fully formed and crisply rendered to their fullest definition. Every line in Liberty's drapery is boldly pronounced as are her hand details. Upon close inspection with a strong glass, we are unable to locate a single flaw of any kind that detracts from the SUPERB eye appeal. PCGS 59, NGC 23, CAC 19. There are 6 graded 67+ and NONE are graded finer! The reverse has a soft touch of iridescent blue that mingles with an even softer golden hue. We love the look! The devices are sharply struck and are accented wonderfully by the brilliant mint luster and toning. PCGS 29, NGC 17, CAC 11. We had the honor of selling the last two examples, most recently in June 2019 for \$7,344. The current Collectors Universe value is listed at \$7,000. Just a single MS68+ is graded finer, realizing a record \$29,375 in our September 2019 Regency Auction. This is a spectacularly preserved SUPERB GEM and one of the FINEST graded at PCGS. The pristine surfaces offer a radiating, satin glow with a strong vibrant sheen which underlies a rich amber-tan, and violet-blue tone that graces the reverse. The details are generally sharp in most parts of the design type, and the surfaces are devoid of any traces of contact or any kind of distracting mark anywhere. The eye appeal is excellent in every way! PCGS 420, NGC 374, CAC 229. There are 56 graded MS67+ and a mere seven graded finer. The current PCGS Price Guide value is listed at \$2,250, but recent PCGS/CAC examples have sold in the very wide range of \$1,293 to \$10,800. This one, with its exceptional eye appeal sold for as much as \$3,290 back in March 2013. Extremely RARE finer, keep in mind that no CAC approved MS68 has ever sold in auction, and if one were to come up for sale it would sell in excess of \$20,000. Good luck. Cert. Tied for FINEST GRADED! This stunning SUPERB GEM is truly beautiful and high end! Impeccably smooth, clean surfaces are pristine and glow with a vivid brilliance on both sides. Even the dreaded right field is super clean and smooth. An iridescent pearly silver with a glint of clear gold and pale blue The sharply struck up devices show all of the details throughout the design type. The eye appeal is spectacular. PCGS 107, NGC 49, CAC 37. There are 18 graded MS67+ and we have had the honor of selling the last three of them in auction, realizing between \$13,513 and \$28,200. The current Collectors Universe value is listed at \$15,000. With NONE GRADED FINER, this beautiful coin will certainly delight any advanced Registry Set collector demanding only Pop Top pieces. This is an incredible SUPERB GEM example that is tied for FINEST graded for the date. Super satiny surfaces glow brilliantly accenting the dappled blend of blue-green, rose, and golden-tan tone on both sides. The sharply struck devices stand out against the essentially PRISTINE surfaces on both sides and this beautiful coin has a great visual charm. PCGS 105, GNC 81, CAC 33. Just a half dozen examples are graded MS67+ and the most recent example to sell realized a record \$22,913 in our December 2019 Regency Auction. This coin is nearly an exact twin to that SUPERB coin and worthy of a similarly strong bid and worthy of the finest of sets. Good luck! Cert. Number 36940283 PCGS # 6629.00

A WONDER coin with breathtakingly exquisite color! Toned in a kaleidoscope of vibrant neon green, lemon yellow, ice blue, soft magenta and lilac hues rippling over intense satin-like luster. A couple of tiny, well concealed ticks are only seen under powerful magnification. A bear of a date to find with Full Bell Lines in top pop condition! When it comes to buying or selling finest known Franklin half dollars with Full Bell lines and top pops, WE are your source. This coin is sure to be added to the list of exceptional Franklin prices realized we've achieved over the last two years. PCGS 38, NGC 4, CAC 15.There are 4 graded in this lofty MS67+ FBL grade and do you realize we are the ONLY auction house to have sold all 4 of the FINEST KNOWN 1952 MS67+ FBL Franklins? In fact, we handled the other 3 last year in our January, May and September 2019 sales where they sold for \$43,300; \$32,900 and \$34,075 respectively. This current coin most closely resembles the piece which sold for \$43,300 and we believe it is worthy of a comparable price. John F. Kennedy and his technicolor obverse toning. What an amazing toned GEM example of this one year only 90% JFK half dollar, and clearly this monster toned example is worthy of a record bid for the grade. The colors rate a 10 out of 10 on our color scale. Seductive sunset red, orange, violet, and yellow-gold color dominates, yielding to an emerald green in the obverse center. A vibrant and brilliant mint luster radiates under the marvelous multicolored toning. The eye appeal is off the charts on this one. Estimate: 45,000.00 - 50,000.00

While we make no guarantees, the first thing we want to say is that this coin has the eye appeal of a higher grade! This has to be one of the prettiest Judd-60 Restrikes we have had the pleasure of selling in auction! This one has a high end visual allure that cannot be beat. The mirrors are deep and beaming with a bold, clarity of reflection that is RARELY seen on Gobrecht dollars. They are ultra flashy and have a rich glassy texture in the fields. Aside from the the faintest stray lines, the surfaces are the epitome of smooth and free of any distracting marks. Very pleasing color is seen, a bold patch of teal and violet with traces of gold that is dusted throughout. The sharply struck devices stand out in stark contrast to the icy mirrored fields. The design elements show fuller definition than normally seen and the eye appeal is much better than what you normally see. Struck in Die Alignment III, the eagle flies even, with the pellet between AMERICA and DOLLAR at 3:00. These are now recognized as the Restrikes, struck from an advanced, cracked reverse die state. PCGS 21, NGC 20, CAC 3. The NGC Population includes all J-60s graded in PR63. This is the ONLY PR63+ graded. at either service. The last PCGS PR63 sold in April 2012 and was NOT CAC. We think the current PCGS Price Guide value of \$38,500 does not reflect this coin's exceptional GEM eye appeal. We know bidding will be very strong for this exceptional quality Restrike 1836 Gobrecht. The eye appeal is better than the PR64 that sold in the 2016 ANA auction for \$47,000. Cert. FROM THE BEAR CREEK COLLECTION This is a very pleasing Mint State 1841 dollar, a challenging early date to find so fine. Brilliantly lustrous surfaces have a touch of semi-PL reflection that flashes boldly from below a layer of rich original patina. Coppery gold and faint azure tone surround the sharply struck devices. Scattered ticks and tiny traces of ancient contact can be seen under the toning, which PCGS took into account when grading this nearly choice example. Housed in an old green tag holder. PCGS 26, NGC 20. This coin has been off the market since December 2009 when it realized \$3,881. Today, the current PCGS Price Guide value is listed at \$4,500. Going back to the 2000 ANA auction, there have only been 9 sales of PCGS-graded MS62 1841 dollars. RARE any finer, there are just 28 coins graded higher at PCGS, mostly in MS63 which suggests multiple submissions of the same coin looking for a higher grade. This is certainly a challenging issue that will attract active bidding. Cert. Number 4828191 PCGS # 6927.00

FROM THE BEAR CREEK COLLECTION A pleasing, Mint State example of this earlier date Seated dollar. A brilliant satiny mint bloom glows on both sides. Scattered chatter in the fields hidden among the details attest to the assigned grade. Solidly uncirculated, this coin shows no wear on the highest points, and the details are nicely, crisply defined. Perhaps dipped ages ago, the coin has come back with traces of dappled toning, mostly concentrated at the obverse periphery and among the protected areas of the obverse devices. The eye appeal is pleasing overall, and this date is scarce finer. PCGS 14, NGC 21. The last PCGS Price Guide value is listed at \$2,750 and the most recent sold in March 2017 for \$2,585. FROM THE BEAR CREEK COLLECTION The 1848 dollar is a known rarity among the Seated dollars, indeed, its mintage of 15,000 it is the lowest mintage from 1840-1850, and is one of th lowest in the entire series. The present MS62 offers a semi-Prooflike mirrored luster, typical of such a low mintage issue. The fields show a watery texture, radiating with a strong brilliance from below a layer of coppery-golden tan that mingles with light violet that can be seen at certain angles. Generally well struck, there are areas of minor, typical weakness that are noted. Scattered contact marks, including a small scratch under the second T in STATES will forever identify this nearly Choice example as the former Sterling Collection coin (not noted on insert). PCGS 10, NGC 0. VERY RARE any finer, with just 11 graded higher. This coin last sold in August 2007 for \$6,038 and the current PCGS price Guide value is listed at \$9,000. FROM THE BEAR CREEK COLLECTION Satiny mint frost defines this virtually untoned, pleasing 1849 dollar. The barest trace of gold can be seen particularly at the margins, but this coin is virtually untoned white silver. Some very minor striking weakness can be seen in places, and a few wispy lines and scattered contact attest for the assigned grade. RARE any finer. PCGS 20, NGC 14. This was the most recent NGC-graded example to sell, bringing \$5,175 back in March 2010. The current Collectors Universe value is listed at \$6,500 and keep in mind that any MS64 is a five figure coin. Good luck. Cert. Number 2041542-001 PCGS # 6936.00

249 \$1 1859-S PCGS AU53

Estimate: 3,500.00 - 3,800.00

USD

FROM THE BEAR CREEK COLLECTION The 59-S dollar represents the first silver dollar issue produced at the San Francisco mint, and is a lower mintage issue of just 20,000. The primary reason for striking this issue was for foreign trade, notably in Asia. When in an attempt to rebalance the gold to silver ratio in domestic circulation in 1853, the half dime through half dollar had their weights reduced, making the dollar the only silver coin of the realm that would be accepted in international trade, particularly in China. The entirety of the mintage of 1859-S dollars was exported, and they circulated widely. Most known examples are in VF grade or so. Traces of mint luster remain in the lightly worn fields, clinging mostly in the protected areas of the devices. The details are sharply impressed on the planchet showing just a trace of friction on the highest points. We note scattered ticks associated with a brief stay in commerce, after transversing the Pacific Ocean at least twice. This is an issue that does not come nice, as evidenced by the lack of CAC approval; between PCGS and NGC, 125 coins have been graded in AUS0-AU58 and exactly TWO have received CAC approval! PCGS 16, NGC 13. The current PCGS Price Guide value is listed at \$4,400 and the most recent sold in October 2019 for \$3,600 and prior to that, one sold for \$4,095 in September 2015. A neat collector grade example, worthy of a cool collection of Seated dollars. Cert. Number 5782922 PCGS # 6948.00

FROM THE BEAR CREEK COLLECTION Medium champagne toning is dusted across both sides of this softly reflective lustrous Seated Liberty dollar. The devices are nicely impressed with a frosty texture. There are a number of planchet lines and some old, faint marks which we note for accuracy, but they are not a distraction for the assigned grade. PCGS 22, NGC 20. The most recent APRs have ranged from \$3,720 to \$3,995 and the current PCGS Price Guide value is listed at \$4,750. This date is rare any finer, and this pleasing coin will fit nicely in any Mint State dollar set. Cert. Number 14648240 PCGS # 6949.00

FROM THE BEAR CREEK COLLECTION Satiny mint frost radiates brilliantly on both sides of this untoned, Mint State example of this first year of the With Motto type. Some minor contact marks are noted across both the obverse and reverse, accounting for the assigned grade. Perhaps lightly dipped ages ago, the eye appeal is generally pleasing. Like most Seated dollars this date is challenging to find any finer. PCGS 11, NGC 8, CAC 4. NO CAC approved example in MS62, graded by either service has ever sold in auction. This coin sold for \$4,406 in November 2012, and since then, just two have sold in auction. The current Collectors Universe value is \$4,000. MS63s are rarely encountered as well. A pleasing first year of type for the collector. Cert. Number 26474258 PCGS # 6959.00

FROM THE BEAR CREEK COLLECTION Ex Sterling Collection, as noted on the holder. A conditionally RARE date, with just 16 coins graded MS63 or finer at PCGS. An iridescent, silver white tone is gently dusted over semi-reflective surfaces on both sides. Traces of clear gold cling to the peripheral devices accenting a strong strike. Some very light lines and a few minor contact marks account for the assigned grade, but they do not singularly detract from the decent eye appeal of this scarce date. PCGS 5, NGC 4. Since 2002, just three PCGS coins have sold in auction, the most recent for \$6,000 in the 2018 ANA and before that one sold for \$12,600. The current PCGS Price Guide value is listed at \$7,750. FROM THE BEAR CREEK COLLECTION This is a very pleasing MS62, a true "BU" coin with a bold mint luster. A vibrant satiny luster beams brilliantly on both sides. The devices are somewhat bluntly rendered with just some minor weakness seen in places. There are a few marks, mostly relegated to the reverse, which account for the grade. RARE finer. PCGS 17, NGC 13. The current PCGS price Guide value is \$4,250 and the most recent examples have sold in the \$3,241 to \$4,230. Cert. Number 12108160 PCGS # 6962.00

FROM THE BEAR CREEK COLLECTION A scarce Mint State survivor, one that offers a satiny brilliance on both sides. A soft alabaster iridescent hue mingles with the original silver and a touch of the most subtle peripheral gold. The reverse shows some PL tendencies which add character to the visual aspect. We do note some light marks and a few tiny scuffs that attest to the grade. PCGS 30, NGC 17. The last one to sell brought \$2,820 in September 2016 and the current PCGS Price Guide value is listed at \$3,250. Challenging to find in higher grade. Cert. Number 30185597 PCGS # 6963.00

257 \$1 1870-CC PCGS AU53

Estimate: 5,500.00 - 6,000.00

USD

FROM THE BEAR CREEK COLLECTION This is an important issue among dollar collectors, its low mintage of 12,462 represents the first Carson City dollar coinage. Most of these went into wild west circulation and remained in commercial channels for years. Most survivors grade between VF20 and AU50. Ample satin luster remains in the fields under a layer of dove and pewter toning. The details are very sharp, with just a touch of friction on the highest points. Some scattered ticks and lines from its time in commerce can be seen with the aid of a glass, but the surfaces are devoid of the typical scratches, harsh cleaning, or other defect that plague so many of these 70-CC Seated dollars. If it is an indication of how these come, note CAC has never stickered any AU53. PCGS 29, NGC 18. Going back to September 2011, 10 AU53 coins graded by PCGS have sold in auction, realizing an average of \$7,108 and the current PCGS Price Guide lists a value of \$7,250. Scarce in AU55 and AU58, and extremely RARE in any Mint State grade, this pleasing coin will delight any CC specialist or Seated dollar collector. Good luck. Cert. Number 11666262 PCGS # 6964.00

Estimate: 2,500.00 - 3,000.00

USD

FROM THE BEAR CREEK COLLECTION This highly reflective and lustrous example is the SOLE PL designated example at either service. The brilliance of the mirrored fields give off the first impression of a Proof striking, but it is on closer inspection a circulation striking from an early, polished state of the dies. The devices, showing some normal weakness in areas, display a thick, rich mint frost. There are scattered ticks marks, and some light lines that appear in the flashiness of the fields, when rotated in a light. While the overall color is brilliant silver, with some light white iridescence suggests an old dip that did not burn into the surfaces. PCGS 19, NGC 20 (non PL); PCGS 0, NGC 1 (PL). Off the market for nearly a generation, this coin last sold in the 2006 FUN auction. The most recent non-CAC NGC coin without the PL status realized \$3,220 in April 2012 (clearly these are not as commonly offered as the population might suggest). The current Collectors Universe value is listed at \$3,500 and perhaps this coin, with its unique status as the ONLY PL designated example will exceed that level. Cert. Number 656021-008 PCGS # 6971

Among the top dozen graded by PCGS, this is an awesome near GEM Seated dollar. A wonderful type coin! The first year of the with Motto type. Bold, vivid mint luster swirls with a vibrant satiny finish in the fields while the sharply struck devices has a rich, frosty texture. The surfaces are free of any distracting marks of any kind. Untoned and brilliant surfaces have a "just minted" visual allure. PCGS 3, NGC 0. The current PCGS Price Guide value is listed at \$16,000 and the other one to sell in auction had funky tone and sold for nearly \$26,000 seven years ago! This coin should bring a good bid. Cert. This richly toned GEM clearly ranks among the highest graded at PCGS and is a high quality, totally original example. Ample reflection, coming from watery textured mirrored fields are smooth and flashy in a light. The fields are generally smooth, free of serious defect and lovely clarity despite the deep toning. When caught in the light at certain angles, a wonderful melange of blue, violet, and orange-red hues blend neatly on the obverse, while the reverse has an iridescent gold over the silver in the center, yielding to an azure band at the rim. The eye appeal is excellent. Only 950 Proofs were struck. PCGS 22, NGC 14, CAC 6. the last one sold for \$9,600 in the 2018 ANA auction, and it did not look like this one! The current PCGS Price Guide value is listed at \$11,000 and the CAC CPG value is listed at \$11,200. Just a single PR65+ and two PR66s have graded higher at PCGS and NOTE: none of the 66s have garnered CAC approval. As such, if you are working on a PCGS/CAC set, you need this coin! Good luck. Cert. 261 T\$1 1878-S TRADE STRUCK 5% OFF CENTER. PCGS XF40

Estimate: 30,000.00 - 35,000.00

USD

A remarkably RARE and impressive mint error, one of perhaps three known Trade dollars struck off center. It is, in the words of noted error specialist, Fred Weinberg, a "trophy" error coin. Struck off center towards 1:00 on the obverse, there is a margin along the opposite rim. We highly doubt that this coin actually circulated, but was carried by the fortuitous person who discovered it as a pocket piece. Only light friction is noted, all the devices retain strong definition throughout. Very cool, deep toning "pulls away" from the peripheral devices accentuating the off center strike. The eye appeal is clearly unique and intriguing. This is a VERY RARE error, possibly unique for the date, and perhaps a handful exist for the entire series. Our estimate is based on our consignor's conversations with Fred Weinberg; Fred believes that this coin could realize anywhere between \$35,000 and \$50,000, but who knows! This is a truly unique opportunity to acquire a very important and visually impressive Mint error. We would like to congratulate the winning bidder in advance on this one! Cert. SEEING IS BELIEVING HERE! We fully rank this marvelous beast PR64+ Cameo a 64.9+ There is NO such thing as a better PR64 Cameo! Borderline ultra deep mirrors boom from all over. The mirrors are the ultimate in clarity and cleanliness. Only when using a strong glass can you find a few light lines. There is a thin band of totally reddish gold toning all over. It makes the contrast look 3D! When you twirl this coin all you see is flash. Miss Liberty and the details are fully struck and have intense thick white frost. The eye appeal is totally jaw dropping! ONLY 979 were graded. PCGS 31, NGC 24, CAC 9. PCGS has graded 6 in PR64+ Cameo. Good luck finding any similar pieces-even in PR65 Cameo. Expect strong bidding on this coin. It could even be as strong as an MS65 Cameo would sell for. Regardless, it is THAT wild and HIGH END of a coin! Cert. Number 37674799 PCGS # 87063.00

This is an OUTSTANDING GEM condition rarity! Exceedingly scarce in this SUPERB state of preservation. Stunning depth to blazing brilliant, nearly prooflike, obverse fields. The devices are needle sharp and display intense, frosty luster. The visual allure is spectacular. The reverse is frosty white with a bold cartwheel effect. PCGS 139, NGC 26, CAC 23. Only 9 grade 66+ and there are just 3 finer. The current PCGS Price Guide value is \$25,000 and recent sales of CAC pieces are March 2019 \$31,725 and September 2019 \$22,800. An anchor coin to a top shelf Morgan dollar collection. If you are hoping to add this date to your collection, NOW would be your opportunity. VAM-84, LINE UNDER 8. This is the SINGLE FINEST example of this die variety in the PL designation at PCGS! Its deeply beaming mirrors are captivating and if the devices had a bit more contrast would likely be a borderline DMPL. Sharply struck devices have a nice frosty texture, especially on the cheek and eagle. The obverse die was clearly in its earliest state, as there is a tone of reflection in the recesses of the design elements. A few scattered tiny marks are seen here and there, amplified by the PL nature of the surfaces. The eye appeal is spectacular. PCGS 19, NGC 4. This is the SOLE example of the VAM graded 66 PL and none are finer for the date or variety in the PL designation. This coin brought a record price when it sold in February 2017 for \$9,988. While the current Collectors Universe value is \$7,500, we know this one will yet again attract intense bidding interest from specialists. Keep in mind that before this coin sold, there had not been one sold since the 2008 FUN auction! Clearly these don't appear in auction with any frequency! Good luck! Cert. RARE in this grade, the 7 TF, Reverse of '79 is represented by just 37 in MS66 or finer grades. A lovely and highly lustrous GEM with a stunning look. The thickly frosted devices stand out with fully and crisply formed design elements. The highly lustrous fields have a semi-reflective brilliance which are a touch Prooflike. A scattered tick or two can be seen with the aid of a strong glass, but they do not impact the great eye appeal. PCGS 33, NGC 12. The most recent example we sold realized \$6,756 in our June 2019 Regency Auction and the current PCGS Price Guide value is listed at \$7,500. Just four coins have ever graded higher at PCGS, and there are no auction records for any of them, making this a very important opportunity for any Morgan dollar collector working on a high ranking Registry Set. Bold, brilliant, radiating lustrous surfaces are blast white with a blazing reflective look and 5"+ mirrors. Sharply struck through out, the devices are wonderfully frosted and have bold contrast. The surfaces are clean and smooth without any serious marks. The eye appeal is superb! PCGS 12, NGC 9, CAC 3. There are 3 graded MS66+ PL at the apex of the PCGS Population Report. A VERY CHOICE Mint State example of this important KEY date issue. Very scarce in such a high grade, and in constant demand from collectors, this lovely MS64 has a bold mint luster in the fields that contrasts nicely against the thick white frosty texture of the devices. The luster radiates with brilliant, swirling cartwheels, accenting the nicely struck devices. Scattered breaks in the frost are seen with the aid of a glass, only at certain angles and they have no serious impact on he eye appeal. Here is another coin that we are scratching our heads what precluded CAC approving it. PCGS 793, NGC 381. Two examples sold in the 2019 ANA auction for \$7,200, but in 2018 these were consistently selling between \$8,000 and \$9,500. The current PCGS Price Guide value is listed at \$9,500. This is such an underrated date in this grade, especially when it is the real deal like this coin is. We unhesitatingly grade it an MS66.8+++. Keep in mind, there are NO MS67's graded! Sensational surfaces are pretty much clean overall. If you use a glass or look really hard there some super light and tiny scuffs/frost breaks on the obverse. The reverse is 100% MS67 quality. Both sides are intensely lustrous. The color is a GEM frosty white. We do NOT believe this coin has been dipped. Miss Liberty and the details are thickly frosted and are sharply stuck. The eye appeal is great! PCGS 213, NC 42, CAC 27. PCGS has graded 32 in MS66+. The last PCGS CAC piece to sell in auction brought \$4,817.50 in September 2019. Ex Gold River Collection. This beautifully preserved SUPERB GEM is tied for FINEST graded at either service with just two other MS67+s. One of the many popular varieties in this series, the 8/7 high 7 is readily evident with a low power glass. This stunning coin offers a bold, semi-reflective luster that radiates boldly throughout the fields, which show almost fully PL in places. The devices are razor sharp in definition and boast a thick, creamy white frost. While the other two coins are blast white, this gorgeous coin offers a frame of flaming crimson and gold patina about the rims, which is particularly bold on the reverse. Some scattered traces of minor contact can be located with the aid of a glass, we are not sure why CAC did not bean this marvelous coin. PCGS 3, NGC 0. The other two coins are blast white and CAC, and both sold in 2019, the Shucart coin sold in September 2019 for \$84,000, and took the place of this SUPERB GEM in the Gold River Collection. The other is the former Tuxedo Park Collection coin which sold in February 2019 for \$52,800 and is now impounded in the D.L. Hansen Collection. The current Collectors Universe value is listed at \$68,000. A coin of this quality and grade will certainly see strong bidding from Registry Set collectors. The color rates a 9 on our 10-point color scale, the toning popping vividly with the vibrance of the cartwheel luster. Only a tiny tick on the cheek limits the grade, we love the look of this SUPERB example. PCGS and NGC have combined to certify over 5,640 coins in MS67, but only 845 have been approved by CAC. LRCA is proud to offer this arguably FINEST KNOWN example of this popular Hot 50 VAM variety. The remnants of the 9 under the 0 in the date clearly shows under a glass. This is truly a marvelous DMPL! Even the most fastidious of old time DMPL collectors will easily fall in love with the eye appeal and technical quality of this SUPERB GEM. The high quality fields show off a deep reflection, beaming a mirrored image a full 8"+ away. The eye appeal is even more impressive when you combine the sharp, frosty devices that stand in stark contrast with the fields. A glass will reveal a widely scattered tick or two, none of which have an impact on the overall eye appeal. The eye appeal is exceptional in every way. PCGS 3, NGC 0, CAC 1. Clearly there are no accurate pricing guides for this coin. The last time a MS67 DMPL sold in auction was in July 2008, a record from nearly a decade ago that is basically useless. The current PCGS Price Guide value is listed at \$16,000, but that amount could prove to be low. The coin that sold in 2008 realized a record for the issue, and we know that record will fall when this one crosses the block. Brilliantly untoned in any way, this better Carson City date is excessively rare in any higher DMPL grade. PCGS 69, NGC 10. LRCA had the honor of selling the two most recent non-CAC PCGS MS66 DMPLs, realizing \$6,756 and \$6,050 in September and June 2018 respectively. The 81-O dollar is a conditionally challenging date, rarely seen above MS65 and is also a date that is rarely seen with any kind of toning. This coin looks like it sat at the top of the bank roll, where the paper covered all but the central obverse portion, imparting a light gold, lilac, and pearly tan patina, leaving the center brilliant silver. The reverse is likewise untoned. Sharply struck for the issue and displaying very clean surfaces, the eye appeal is quite nice. PCGS 929, NGC 470, CAC 85. There are 96 graded MS65+ at PCGS and we sold one with CAC approval in our January 2019 Regency Auction for \$1,998 and the current PCGS Price Guide value is listed at \$2,000. This is a Morgan dollar that checks off so many qualities that many collectors look for: high grade, beautiful tone, sharp strike, and contender for a high ranking Registry Set. As one of the highest graded 80-Os (only 8 MS66+s have graded higher), this spectacular coin has a lot to offer the collector for a Registry Set. Add to that a stunning melange of brilliant gold, tangerine-orange, purple, azure, pink and green hues are brought together by a rich cartwheel luster. We rate the color as an 8.5 overall, but for a date that rarely comes with bold toning, it could be rated on a curve as a 9. The reverse is mostly brilliant with just a touch of olive, and russet-tan at the upper rim. The lustrous reverse also boasts hints of a semi-PL reflection. Sharply struck for the date, crisp details give this coin an overall wonderful look. A smattering of very minor contact, hidden under the dramatic rainbow toning and not bothering the impact of the eye appeal, is the only reason we think CAC did not bean this high grade beauty. PCGS 43, NGC 9. This coin sold for \$8,225 nearly three years ago, recognized for its outstanding visual allure. The current PCGS Price Guide value is listed at \$7,500 and just keep in mind that only 8 are graded slightly higher as 66+, making this a great coin for inclusion in a high ranked set. Cert. One of the highest graded of this conditionally challenging year. While over 5.7 million Morgan dollars were struck at New Orleans in 1881, the vast majority of these either disappeared into circulation or were melted down in 1918. Today, combined populations between PCGS and NGC show fewer than 1,500 have graded in MS65 or better grades, none have been graded finer than MS66+ at PCGS. This GEM is thickly frosted with a bold satiny luster. Swirling luster blooms glowingly on both obverse and reverse, accenting the nicely struck devices. A pearlescent silver hue shimmers with hints of pale gold. The eye appeal is quite nice, as the surfaces are unmarred by any serious marks or ticks and the cheek is very pleasingly smooth. PCGS 43, NGC 9. The most recent example that we sold brought \$5,758 in our May 2019 Regency Auction and the current PCGS Price Guide value is listed at \$7,500. Very pretty! Exceptionally lustrous with bold, whirling cartwheel bands that roll with a vivid brilliance on both sides. Razor sharp definition in all of Liberty's hair and cap features, and wonderful fullness of the eagle's feathers. Bands of color encircle the obverse and a light blue and rose gold melange dusts about the upper 40% of the obverse. The color is attractive, adding to the eye appeal, but it is not monster toning, rating a 7.5+ on our 10-point scale. A strong glass reveals a few minor ticks, appropriate for the lofty grade, which are not in focal areas and do not detract from the eye appeal. PCGS 2738, NGC 4416, CAC 891. There is no question to us this coin was sent directly from heaven to PCGS, then to Legend Auctions. This coin is real borderline MS68!

Remarkable surfaces reveal no flaws, even when using a strong glass. The surfaces are all clearly semi-prooflike and pack a powerful booming luster. You do not have to guess there are mirrors on this coin. The coins color is clearly a GEM ORIGINAL WHITE. Miss Liberty and the details are heavily frosted and are fully struck. In fact, there is a small frost break on her cheek, which is what we suspect keeps this coin from being an MS68. Regardless this is far superior to any MS67's-and many MS67+ we have seen. High end brilliance and bold reflection beam all over on both sides. Sharply struck up, the design elements stand in nice contrast to the mirrored fields, especially the cheek which is smooth, clean and frosty. The technical quality and eye appeal are high end. PCGS 218, NGC 82, CAC 41. Just 26 are graded MS66+ PL. We sold one for \$2,350 in our July 2018 Regency Auction, and the current PCGS Price Guide value is listed at \$1,800. Just 9 examples are graded finer, and a 67 PL with CAC approval will cost way more (the last one brought \$22,800 in the 2019 ANA auction). This very high end 66+ PL will suit anyone looking for a great addition to a more budget friendly Registry Set. Cert. Number 35586318 PCGS # 7145.00

290 \$1 1883-S PCGS MS64+ CAC

Estimate: 7,000.00 - 8,000.00

USD

If this was a common date, we would have no issue with it in a MS65 holder, for the 83-S, we think PCGS did the right thing holding the line. As a date, the 83-S, with its 6.25 million mintage, would appear to be a common coin. However few were saved at the time of issue and Mint State coins become quite rare at the currently offered MS64+ level. They are a classic condition rarity in GEM grade, and are EXTREMELY RARE to find such. In the days before 3rd party certification, this coin would have been graded a GEM BRILLIANT UNCIRCULATED. A satiny mint luster blooms with a radiant cartwheel brilliance on essentially GEM quality surfaces. Indeed, were it not for a tiny contact mark along Liberty's cheek bone, we think this coin would have been graded higher (no guarantees it will). The strike is strong for the issue, with nearly fully rendered curls and feathers. The brilliant surfaces are untoned and show off vivid original silver color. The eye appeal is excellent. PCGS 523, NGC 243, CAC 79. PCGS has graded 61 in 64+. We believe that since only 26 have graded MS65 or finer in 33 years of coin grading, there has to be some duplication of the same coin being submitted in hopes of attaining a higher grade. In the last 3 years, there have been 8 PCGS MS64+ CAC coins sold in auction, ranging from \$5,280 to \$11,400 and the current PCGS Price Guide value is listed at \$12,000. Keep in mind that a PCGS/CAC coin is worth \$50,000+ with the Stone Collection coin bringing \$50,000 in May 2018 and the Coronet coin bringing \$52,875 in our June 2015 Regency Auction. This is a real prize for anyone working on a high end PCGS Registry set, and with the new PCGS/CAC Registry, this coin is only bettered by 4 in MS65 for those purposes. Bidding will be fierce for sure. Cert. Number 35820230 PCGS # 7148.00

291 \$1 1884-O PCGS MS67

Estimate: 1,300.00 - 1,500.00

USD

A brilliant example in Superb grade. Bright satiny luster blooms all over, accenting the nicely rendered devices and generally clean surfaces. The details are crisply defined, with just some minor weakness in the central devices. We really do not understand why this one didn't pass CAC, but we think its quite nice. PCGS 168, NGC 121. The most recent example to sell brought \$1,500 in October 2019 and the current PCGS Price Guide value is listed at \$2,250. VERY RARE finer with just 15 in MS67+ and a single MS68 at PCGS. A very nice coin for any budget minded Registry Set collector. Cert. Number 38477428 PCGS # 7154.00

292 \$1 1884-O PCGS MS67+ CAC

Estimate: 6,500.00 - 7,000.00

USD

Ex Gold River Collection, as noted on the insert. A bold, brilliant, stunningly lustrous, high end SUPERB GEM that ranks among the absolutely FINEST of this otherwise common date. The satiny luster blooms brilliantly on both sides of this high end beauty. The most delicate blush of clear, iridescent gold can be seen on the surfaces, but will be a fine addition to any untoned set. Despite a high mintage of 9,730,000 and huge quantities of mint bags released in the early 1960s, the number of SUPERB GEMs is quite small! PCGS 183, NGC 129, CAC 41. There are 15 graded MS67+ at PCGS and a single finer in MS68. The most recent sold for \$7,800 in September 2019, and the world record for the date was achieved in our May 2019 Regency Auction for \$9,694. The single 68 has never sold in auction, making this CAC MS67+ one of the FINEST you will find on the market today! Good luck! Cert. Number 38156704 PCGS # 7154.00

293 \$1 1885 PCGS MS67 CAC

Estimate: 2,000.00 - 2,500.00

USD

A SUPERB GEM with immaculate, bright and satiny silver lustrous surfaces. This high end beauty displays a very cool multicolored half moon along the right obverse rim. PCGS 184, NGC 207, CAC 106. The most recent example sold for \$2,100 in July 2019, and we sold one in our May 2019 Regency Auction for \$3,525. The current PCGS value is \$2,500 and this date is quite RARE any finer, with fewer than three dozen graded finer. A prime example for a great Morgan dollar collection. Cert. Number 35626177 PCGS # 007158

294 \$1 1885-CC PCGS MS66 CAC

Estimate: 1,500.00 - 2,000.00

USD

A well struck and strongly detailed untoned white PQ GEM example of this popular Carson City Mint Morgan Dollar. Bold luster gleams from all over on both sides, giving it a great look. PCGS 1340, NGC 679, CAC 282. The most recent example sold in the 2019 ANA auction for \$1,700. The current PCGS Price Guide value is listed at \$1,750 and the CAC CPG value is \$2,000. A great looking coin like this will fit in nicely into any GEM set. Cert. Number 81351342 PCGS # 7160.00

295 \$1 1885-CC PCGS MS66+ CAC

Estimate: 2,000.00 - 2,500.00

USD

A marvelous borderline SUPERB GEM 85-CC dollar. The brilliant luster booms all over on this PQ example with a bold, satiny vibrance. The design elements are sharply struck and frosty. PCGS 1572, NGC 734, CAC 285. PCGS has graded 233 in MS66+ and this date is very scarce finer. The most recent example brought \$3,840 in December 2019 and the current PCGS Price Guide value is listed at \$2,500. This coin is quite nice and should bring a premium bid. Any MS67 is going to bring more than double, and a CAC approved example is five figures. Good luck. Cert. Number 82603447 PCGS # 7160.00

296 \$1 1885-O PCGS MS67+ CAC

Estimate: 3,000.00 - 3,500.00

USD

Uber-high quality, even for a coin in this lofty state of preservation. Sharply struck up, the frosty devices stand out with a bold, brilliant, booming mint luster that radiates all over. Generally quite clean and high end. PCGS 406, NGC 600, CAC 169. In MS67+, PCGS has graded 53 and a mere five coins finer. The current PCGS Price Guide value is listed at \$3,750, which is about average for the last 10 PCGS/CAC APRS. This coin brought \$3,290 three years ago. What a great opportunity to add a coin that is tied for second highest graded, keeping in mind that this date is represented by only five MS68s finer, which carry a Collectors Universe value nearly 10x as high. Good luck!

297 \$1 1885-S PCGS MS66

Estimate: 3,600.00 - 4,000.00

USD

Here is a satiny, lustrous GEM 85-S dollar. Bold and brilliant mint luster swirls over the well preserved surfaces. Clean surfaces are generally clean and free of distracting marks of any kind. A few splashes of color are noted with the aid of a strong glass, but do not detract. What a great looking coin for the collector. PCGS 94, NGC 13. The most recent example to sell in auction brought \$4,230 in our May 2019 Regency Auction. The PCGS Price Guide value is listed at \$4,500. There are just seven coins graded finer, with five in 66+ and two in MS67. This is an appealing GEM for the Set Registry collector that should see strong bidding for sure. Cert. Number 35820238 PCGS # 7164.00

298 \$1 1886 PCGS MS67 CAC

Estimate: 800.00 - 900.00 USD

A sharply struck and beautifully preserved SUPERB GEM with an vivid, bold, beautiful look. Exceptionally lustrous surfaces have a blush of color that enhances the silver brilliance. The eye appeal is truly wonderful! PCGS 539, NGC 906, CAC 315. APRs range from\$825 to \$1,680 in recent months and the current Collectors Universe value is listed at \$900. With its lovely eye appeal, this coin will delight any collector. Cert. Number 33255983 PCGS # 7166.00

299 \$1 1887 PCGS MS67+ CAC

Estimate: 5,500.00 - 6,000.00

USD

Exquisite everything, this SUPERB GEM is one of the FINEST KNOWN survivors from a mintage that was well in excess of 20 million. After nearly 34 years of operation, PCGS has graded just a SINGLE MS68 finer. Bold, swirling cartwheel luster rolls over satiny surfaces. The fields are icy smooth and the devices are sharply impressed and frosty, offering a bold, problem free look. The peripheral areas have a delicate frame of multicolored toning that contrasts against the brilliance of the shimmering, original silver that dominates. What a great looking coin! PCGS 213, NGC 350, CAC 71. There are just 20 graded MS67+ at PCGS. The most recent example to sell in auction brought \$5,520 in September 2019, and prior to that we sold one in May 2019 for \$6,463. The current Collector's Universe value is listed at \$7,000 and they list the sole finest at \$30,000! Worthy of a world class Morgan set and will see strong bidding when it crosses the block. Cert. Number 37831095 PCGS # 7172.00

300 \$1 1888-O SCARFACE. PCGS MS61 CAC

Estimate: 3,000.00 - 3,500.00

USE

VAM 1B - Top 100 Variety. The Scarface variety is known as the "mother of all Morgan die breaks." Like the Bearded Goddess in the Capped Bust half dollar series, this is one of the few times that a broken die becomes a hugely popular Red Book variety, in demand from all manner of collectors. And this one, despite its more modest MS61 grade is very attractive with a pearly-satin sheen and delicate tone. The die break is thick and bold imparting a dramatic look to this really cool coin. PCGS 15, NGC 16, CAC 6. Though the last one to sell in auction brought \$2,880 in the 2018 ANA auction, the average APR for PCGS/CAC MS61s is nearly \$5,750 and the current PCGS Price Guide value is listed at \$4,250. RARE finer, none have graded beyond MS64. This is a true Mint State coin for the collector looking to expand on their Morgan dollar set. Cert. Number 26972173 PCGS # 87184.00

301 \$1 1889-CC PCGS MS62 PL

Estimate: 32,000.00 - 35,000.00

USD

A CLASSIC RARITY and aggressively sought after Carson City Mint issue. Just 350,000 pieces coined. Considering the overall mintage, pieces with PL and DMPL surfaces are actually very scarce. This coin is a LOOKER and is begging to be in an MS63 grade holder! Very nominal contact marks and abrasions are seen in the fields, especially in light of the MS62 grade. One would expect more bagginess, but this coin is a welcome exception! Ivory white, glittering fields surround thickly frosted devices which are struck with precision detail. Lovely contrast. PCGS 35, NGC 23. Recent auction records for the date and grade have an example selling in December 2018 for \$31,200 and a nice first generation PCGS issue fetching \$60,000 in June 2019. For some reason this date rarely obtains the coveted CAC sticker. In fact only a dozen have obtained the designation in over 300 Mint State examples graded at NGC and PCGS combined! If any coin had a fighting chance to obtain one, it would be this example. Worthy of spirited bidding! Cert. Number 38788740 PCGS # 7191.00

302 \$1 1890 PCGS MS65+ CAC

Estimate: 3,200.00 - 3,800.00

USD

This is a date/grade combination that you very rarely ever see and worthy of serious consideration from any advanced Morgan dollar collector! This is a bold and high end GEM! Vivid mint brilliance gleams from all over with a strong, swirling mint luster. Both sides offer a rolling cartwheel effect especially on the reverse. The devices are sharply struck up and the cheek is nicely frosted and free of any distracting marks. Indeed, there are no serious abrasions of any kind worthy of mention. PCGS 863, NGC 313, CAC 56. PCGS has graded 104 in 65+ and just 5 finer. None of the MS66s have been CAC approved, making this among the FINEST CAC coins you can ever hope to own for the date. A 65+ CAC sold in our September 2019 for \$4,465. This is an important coin, especially for anyone working on a PCGS/CAC Registry Set. Cert. Number 37831097 PCGS # 7196.00

303 \$1 1890 PCGS MS64 DMPL

Estimate: 1,000.00 - 1,250.00

USD

This is a highly reflective DMPL 1890 Morgan dollar. The thickly frosted devices stand out with crisp definition against the deeply reflective mirrored fields. A few scattered ticks and marks, amplified by the reflection of the fields, account for the assigned grade, but the eye appeal is still quite nice. PCGS 101, NGC 33. The current Collectors Universe value is listed at \$1,700 and the average APR for the last 10 non-CAC PCGS-graded examples, which range from April 2014 to June 2019, is \$1,544. Fewer than two dozen are graded higher making this an impressive opportunity for any collector. Good luck. Cert. Number 81203470 PCGS # 97197.00

304 \$1 1890-O PCGS MS65+

Estimate: 1,200.00 - 1,450.00

USE

Here is a pleasing, satiny GEM example of this conditionally rare New Orleans mint Morgan. Rarely seen above MS65, this 65+ is the highest grade most collectors can hope to own. Nicely struck for the issue, with just the slightest touch of weakness on the hair curls. The surfaces show only the most minute traces of contact and delicate pearlescent toning. We are not sure what CAC did not like about this one, but the eye appeal is nice and the technical quality is all there. PCGS 75, NGC 3. The current PCGS Price Guide value is listed at \$1,650. This coin brought \$1,645 in June 2017. RARE any finer, fewer than three dozen have graded higher, making us think that there is duplicate submissions in 65+ hoping for the elusive MS66 grade. Cert. Number 83625330 PCGS # 7200.00

305 \$1 1890-O PCGS MS65+ CAC

Estimate: 2,500.00 - 2,800.00

USD

Scarce in GEM, and VERY RARE any finer, the 90-O dollar offered here is brilliant with a rich, frosty satin luster. Very clean surfaces for the assigned grade, the eye appeal of this impressive, original coin is high end! PCGS 883, NGC 208, CAC 62. PCGS has graded 80 in 65+ and just 31 finer. The last two PCGS MS65+ CAC examples sold in April 2016 for \$3,055. This lovely coin is worthy of a premium bid. A PCGS MS66 with CAC s a five figure coin, making this high end example a great value by comparison! Cert. Number 36154368 PCGS # 7200.00

306 \$1 1891-CC PCGS MS65+ CAC

Estimate: 5,000.00 - 6,000.00

This is a high end GEM example of this popular Carson City issue. Sharply struck devices stand out against smooth, unmarred surfaces. Highly lustrous surfaces show a rich satiny mint frost that radiates brilliance throughout. The eye appeal is impressive. PCGS 831, NGC 129, CAC 58. There are 56 graded MS65+ at PCGS and fewer than fifty finer. The most recent PCGS/CAC MS65+ sold for \$6,169 in our January 2019 Regency Auction and the current PCGS Price Guide value is \$6,000. With a bold visual appeal, this coin will find itself at home in quite the high end set. Cert. Number 34596143 PCGS # 7206.00

307 \$1 1891-O PCGS MS65

Estimate: 2,800.00 - 3,200.00

USD

Here is a pleasing 91-O dollar in PCGS certified GEM quality. Satiny mint frost glows all over the generally smooth surfaces. There are a few scattered marks, but they do not detract from the eye appeal and are appropriate for the assigned grade. EXTREMELY RARE ANY FINER! PCGS 138, NGC 67. Just a dozen examples have graded higher, with a single MS66 at the top of the Population Report that we sold in March 2019 for \$108,633. The most recent PCGS MS65 brought \$3,240 in June 2019, and the last one we sold was in July 2018 for \$3,995. If you are looking for an upgrade to your set, check this one out. Cert. 308 \$1 1891-O PCGS MS65+ CAC

Estimate: 12,500.00 - 15,000.00

USD

Ex Illinois Set. This AMAZING example boasts one of the greatest pedigrees for a GEM Morgan dollar with color: Sunnywood-Simpson (though not noted on the holder). This coin was sold in our October 2014 Regency Auction, where we described it as being a "really outstanding 1891-O dollar with a smooth and fully rounded cheek, this elegantly toned specimen would be a strong candidate for the first MS66 of this issue ever graded by PCGS. It is perhaps held back only by some typical weakness in the strike, in the vicinity of Miss Liberty's ear. This is probably the cleanest, sharpest toned 91-O we've ever seen." While it never made MS66, its high end look placed it into the all-time highest ranked PCGS Registry Set of Morgan dollars, the Illinois Set. Prior to being in our October 2014 sale, it was ex Ex Bob Brahms; Gary Adkins; Superior, Fort Lauderdale Elite Sale (1/11/05:778). PCGS 149, NGC 68, CAC 10. PCGS has graded a mere 11 in MS65+ and just a single MS66 finer (which sold in our March 2019 Regency Auction for a world record \$108,688!). The only other PCGS MS65+ with CAC approval sold in April 2015 for \$19,388. Worthy of another WORLD CLASS Morgan dollar set, this coin will see very strong bidding from anyone building a very high end set! Cert. Number 37728242 PCGS # 7208.00

309 \$1 1891-S PCGS MS66 DMPL CAC

Estimate: 35,000.00 - 40,000.00

USD

This is the singe FINEST DMPL 1891-S Morgan dollar graded! No question this coin is SUPERB with deep, full mirrors! You don't see 1891-S dollars like this, ever! Ultra high grade for the date to begin with! Both sides have full 8"+++ mirrors that beam boldly from all over. The depth and clarity of the mirrors are off the charts, enhanced by a bold cartwheel luster that rolls smoothly over the entirety of the surfaces. Ms. Liberty and every detail stand out with crisp full strikes and remarkable white frost, imparting a grand CAMEO-like contrast. The eye appeal is remarkable! PCGS 1, NGC 0, CAC 1. Unpriced in the Collectors Universe Price Guide and the CAC CPG. Far finer than anything we have seen in previous auctions, this monster 91-S DMPL will realize a new record when the hammer falls. The eye appeal and technical qualities are really off the charts and high end! Cert. Number 38396615 PCGS # 97211.00

310 \$1 1892-S PCGS MS67+ CAC

Estimate: 550,000.00 - 600,000.00 USD

Ex Vanderbilt Collection, as noted on the PCGS insert. The 1892-S Morgan Dollar is one of the most famous condition rarities of the Morgan dollar series. Any Mint State coin is a major rarity, and the higher up the grading scale you go, the harder they are to find. This STUNNING SUPERB ranks as the SECOND FINEST GRADED BY PCGS, and is likely tied with the Eliasberg-Coronet coin for second finest known honors. Legend Rare Coin Auctions is proud to offer this exceptional quality rarity and it is the highlight of our Regency Auction. This coin was from Sotheby's May 2018 Historic Coins and Medals auction, featuring Magnificent Morgan Silver Dollars from the Collection of Ralph and Lois Stone, where it was described as lot 103, in part as: "An amazing example. Fully struck, with hard, clean surfaces. The obverse with remarkably deep prooflike flash, the reverse somewhat shallower with areas of frost. Virtually blemish-free...The essentially white surfaces are gently overlaid with very pale golden hue. An absolutely remarkable coin." We contend that that description does not begin to highlight the sheer brilliance of the magnificent lustrous surfaces on both sides. While elsewhere in their description, they mention some tiny ticks, they are clearly invisible to the naked eye and require a strong glass to locate. The shimmering reflection of the obverse field certainly would warrant a PL designation if the reverse had a fresher polished finish on the dies. Totally original in every sense, this coin has a stunning eye appeal that is totally different from the Eliasberg-Coronet piece that had a halo of blue and gold splashes at the rims. The FINEST 1892-S Morgan Dollars, graded by PCGS are listed as follows: 1: MS68. Jack Lee Collection, sold in Heritage, November 2005, lot 2309. 2: MS67+. The Midwest collector to Ed Milas of RARCOA; to David Carter Collection; to Dr. George Bodway; to Jack Lee; to the Ralph Stone Collection, probably via Jefferson Coin and Bullion before 1995; Sotheby's May 2018 sale of the Ralph and Lois Stone Collection, lot 103 (housed in an old green tag PCGS MS67 CAC holder); Vanderbilt Collection. THE PRESENTLY OFFERED COIN. 3: MS67. J. Colvin Randall sold this magnificent coin to J.M. Clapp in March 1894 (Randall likely bought this coin directly at the mint at the time of issue). Passing to John H. Clapp, this coin was purchased by Louis Eliasberg as part of the Clapp estate purchase brokered by Stack's in 1942. It sold in 2001 and placed in the Arno Collection. Arno was sold in the 2009 FUN Auction, and this coin realized \$460,000 and placed into the Coronet Collection, the all time #1 PCGS Registry Set of Morgan Dollars. Appearing as lot 61 in our June 2015 Regency Sale, where it realized \$446,500; Legend Rare Coin Auctions October 2017 Regency Auction, lot 384 for \$470,000. 4: Palm Beach Collection, Heritage, January 2004, lot 2120; Anne Kate Collection, Stack's Bowers, June 2012, lot 3200. The majority of the 1892-S mintage either disappeared into circulation where they would remain for many years, or if any quantity remained in government holdings were melted en masse in 1918 as part of the Pittman Act. It is also possible that a combination of those two events accounts for its Mint State rarity. As the economy fell into a deep panic in 1893, dollar mintages dropped dramatically with earlier issues not being replaced in commercial channels. Attrition from circulation and wholesale melting in 1918 leaves just 117 examples graded by PCGS and NGC combined between MS60 and MS68. PCGS 5, NGC 5, CAC 2. There are 2 coins listed on the PCGS Population Report as MS67+ and just a single MS68 graded finer. In MS67 the current CAC CPG value is listed at \$514,200 and the current MS67+ Collectors Universe value is listed at \$525,000. That said, this coin will certainly sell for more; especially if you demand that your Registry Set coins have CAC approval (the Jack Lee MS68 is NOT CAC approved at this time). If you are working on the FINEST of Morgan dollar sets, this is the FINEST of 92-S dollars that will be on the market anytime soon! We wish you the best of luck as bidding will certainly be intense when this coin crosses the block and a new auction record will fall when the hammer does. Congratulations in advance for elevating your collection to a legendary status. Cert. Number 2241206 PCGS # 7218.00

311 \$1 1893-O PCGS AU55

A satiny, barely worn example of this low mintage date. With only 300,000 struck, the 93-O is a semi-key date in AU grades. Some minor contact from its brief stay in commerce does not detract from the pleasing eye appeal. This is a nice coin for the collector. PCGS 493, NGC 374. The current Collectors Universe value is listed at \$1,050 and recent auction prices realized range between \$780 and \$1,020. Mint State coins boast a Collectors Universe value that is much higher, beginning at \$3,850 in MS60. Cert. Number 38263274 PCGS # 7224.00

312 \$1 1893-O PCGS MS62+

Estimate: 4,200.00 - 4,500.00 USD

Estimate: 750.00 - 850.00 USD

With an original mintage of 300,000, the 93-O Morgan dollar is one of the lower mintages of the entire series. Offering a better look than what you would expect for such a modestly graded Mint State coin, this highly lustrous example is essentially CHOICE, and would easily have been called such in an old catalog before 3rd party grading. The reverse has a touch of "flash" in the lustrous fields, while the obverse is satiny with a glowing cartwheel swirl. A few widely scattered traces of contact account for the 62+ grade, but none are serious enough to call out singularly. PCGS 10, NGC 5. Only two examples have sold in auction, this one being the most recent bringing \$4,700. The current PCGS Price Guide value is listed at \$5,500 and keep in mind that in MS63, the value jumps to \$7,250. This is a pleasing example, with a strong visual allure for the assigned grade. Cert. Number 82947469 PCGS # 7224.00

313 \$1 1894 PCGS MS64

Estimate: 5,000.00 - 5,500.00

USD

Truly a CHOICE example from the second lowest mintage of the series. Only 110,000 1894 dollars were struck, 10,000 more than the famed 93-S, but more were saved at the time of issue, allowing for this date to be a mid four-figure coin in the price range of many collectors, as opposed to the 93-S which would be a six-figure coin in MS64. This one has a frosty luster that blooms with a satiny brilliance on both sides. Nicely struck with just a few minor traces of contact that keep this coin limited in grade to the MS64 level. PCGS 284, NGC 122. Going back to October 2018, 10 examples have sold in auction, realizing an average of \$5,940 and the current PCGS value is listed at \$7,000. This attractive coin brought \$7,050 in its last appearance, back in July 2016. RARE in higher grades, PCGS has graded 63 finer. Cert. Number 4947938 PCGS # 7228.00

314 \$1 1894-O PCGS MS63

Estimate: 2,800.00 - 3,300.00

USD

Conditionally scarce in MS63 and MS64, the 94-O is sometimes overlooked by its other mid 1890s O-mint coins. This one is frosty, brilliant with a strong satiny luster. The surfaces are nice for the assigned grade, and there are just a few minor traces of contact. Some light opalescent silver bloom is noted in the fields. We don't know what precluded CAC approval, this coin looks decent for a 63. PCGS 345, NGC 174. The average of the last ten to sell realized \$3,304 and the current PCGS Price Guide value is listed at \$4,000. Quite scarce in MS64 and VERY RARE in GEM. Cert. Number 26159425 PCGS # 7230.00

315 \$1 1894-S PCGS MS65

Estimate: 3,500.00 - 4,000.00

USD

While stuck in with major key dates, the 94-S is sometimes overlooked for the condition rarity that it truly is. The currently offered MS65 level is about as high a grade as most collectors can ever hope to own. A satiny brilliant GEM example, with mostly untoned surfaces save for a blush of faint color near the date. Pleasing in terms of technical and visual qualities, this coin is VERY RARE any finer. PCGS 175, NGC 38. The wide range of APRs for PCGS MS65s without CAC going back to December 2017 is \$4,657 and this one sold for \$4,818 back in March 2017. The current PCGS value is listed at \$5,750. If you are working on a high grade set, take a look at this one and bid accordingly. Cert. Number 82915304 PCGS #7232.00

Estimate: 11,000.00 - 12,500.00

USD

For the series, the 95-S has a relatively low mintage of 400,000, and they generally disappeared into circulation. Most seen today are lower grades, VF or lower. In Mint State, this date is very scarce, with certified GEMS being VERY RARE, fewer than four rolls worth of coins have been seen by PCGS and NGC combined in MS65 or finer. This highly lustrous example has traces of subtle reflective flash brought out by a bold, rolling cartwheel luster. Generally well struck, there is just a touch of bluntness in some of the hair curls above the ear. Liberty's cheek is smooth, clean, free of distractions, and well rounded. There are a few minor ticks in the fields, which account for the MS65 grade. The eye appeal is very high end. PCGS 48, NGC 12. Two examples have sold in auction in 2019, one for \$15,600 and the other for \$13,200 and the current PCGS Price Guide value is listed at \$19,500. Just 10 have graded finer at PCGS, the last MS65+ selling for \$25,200 in the 2019 FUN auction. This one is bound for a wonderful set of GEM Morgans. Cert. Number 38733165 PCGS # 7238.00

A pearlescent luster blooms all over with a satiny glow. An apricot-gold blush of color at the upper obverse adds to the eye appeal of this well struck SUPERB GEM. PCGS 245, NGC 66. The current PCGS Price Guide value is listed at \$1,500, and this one sold for \$1,645 in a July 2016 auction. There are 38 graded higher. What a pleasing example of the date. Worthy of a strong bid. Cert. Number 25796798 PCGS # 7240.00

318 \$1 1897-S PCGS MS67

Estimate: 6,500.00 - 7,000.00

USD

Exceptionally brilliant mint luster radiates with an intensity that is seen on 80-S, 81-S, and 82-S dollars. Everything about this SUPERB GEM screams high end quality and eye appeal. Vivid silver luster booms all over, with strong cartwheels. Mostly untoned, blast white silver with just a gentle trace of golden tone at the peripheries adds greatly to the exceptional eye appeal. The devices are frosted, and stand out with a strong, crisp strike from an exacting blow from the dies. We have looked this coin over and over, and cannot understand why CAC did not bean this SUPERB GEM; everything is PQ! PCGS 30, NGC 12. The last non-CAC example brought \$7,200 in July 2018 and the current PCGS Price Guide value is listed at \$7,000. Excessively RARE any finer, PCGS has graded just five coins higher, we know this coin will see very strong bidding. Anything finer is a \$15,000 coin. Cert. Number 35820274 PCGS # 7250.00

319 \$1 1898-O PCGS MS66 CAC

Estimate: 900.00 - 1,000.00 USD

From our fabled sale of the Simpson/Sunnywood Collection. Rolling cartwheel luster and mint bloom sport MAGNIFICENT color in a riot of intermingled topaz blue, deep red, fiery orange, honey gold and violet obverse hues. An end of the roll toner with a white reverse. A few insignificant, scattered tick marks are visible. Sharp strike. Superb eye appeal. To further lend credence to the eye appeal of this piece, it is significant to note that although Collectors Universe price guide is \$245, this coin fetched a whopping \$969 in our Regency Auction IX in October 2014! A glorious SUPERB example that has a bold, semi-reflective mint luster that gleams from all over. This is a truly magnificent example that combines all the attributes that anyone assembling a Morgan dollar set, or anyone looking for a SUPERIOR example for type purposes. The fields and devices are pristine, with nary even the tiniest tick or line visible, even with the aid of a strong glass. Indeed we can only find only the slightest break in the frost on Liberty's cheek. The fields show off a splendid and flashy brilliant luster that combines a semi-PL reflection with bold cartwheels and a strong satin gleam. For an O-mint dollar, the strike is bold and crisp, with bold definition even in the hair curls above Liberty's ear and eagle's breast feathers. A touch of peripheral gold makes the silver centers stand out with an even bolder vibrance. The eye appeal is simply stunning. PCGS 345, NGC 188, CAC 131. PCGS has graded 32 in MS67+ and NONE ARE GRADED FINER! The most recent sold in our September 2019 Regency Auction for \$7,931 and PCGS lists a value of \$9,500. This is a coin that is bound for a world class Morgan dollar collection and should see very spirited bidding when it crosses the block. Good luck! Cert. Number 37380063 PCGS # 7254.00

Estimate: 8,500.00 - 10,000.00

USD

Ultra satiny and brilliant, this gorgeous, untoned SUPERB GEM ranks among the FINEST certified examples of this date. A strong mint luster radiates around the nearly pristine surfaces and exceptionally well executed strike. The devices are about as sharp as you could hope for this New Orleans date, which often comes with a blunt, not sharp, impression of the hair curls and breast feathers. The reverse die was clashed and extensively cracked along the periphery, adding charm to the visual appeal. No singularly significant tick or mark of any kind can be found anywhere, even utilizing the strongest of glasses. The eye appeal is strong and this high grade coin is only bested by a single MS68 finer. PCGS 226, NGC 117, CAC 68. PCGS has graded a total of 28 in MS67+ and as stated a single 68 finer. The 10 MS67+ CAC coins that have sold in auction have brought an average APR of \$11,132 and the most example we sold at the time of this writing was in our June 2019 Regency Auction for \$9,694, and in May 2019, we sold one for \$13,513. The current PCGS Price Guide value is listed at \$12,000 and keep in mind that the only 68 last sold in the 2009 FUN auction for \$29,900. This is a great candidate for inclusion in a world class Morgan dollar set and stands out among the BEST seen! Cert. Number 25334426 PCGS # 7260.00

This is a wonderful example of the date. A bold, vibrant mint luster radiates with a strong rolling cartwheel effect on both sides. Showing good definition in the strike, Liberty's show ample detail in all the devices. The surfaces are clean, free of any distracting marks or ticks and the eye appeal is very pleasing. PCGS 576, NGC 156, CAC 54. PCGS has graded 26 in MS65+ and tis date is scarce finer. The most recent one to sell sold in our January 2019 Regency Auction for \$1,704 and the current PCGS value is listed at \$2,050. Oh so close to the next grade up, this coin has a look that will delight even the pickiest of collectors. Cert. Number 82475855 PCGS # 7262.00

A satiny frosty example of this turn of the century date and a high end survivor. This is the optimal grade for collectors as it is extremely rare any finer and the values increase accordingly. None are graded higher than MS67+. The brilliance of the luster shimmers and gleams on both sides, with radial, cartwheels when rotated in a light. Though we see some minor weakness in some areas, the strike is better than usually seen on this date. Pleasing, original surfaces are PQ and clean, a strong glass fails to reveal anything but the most minute tick, allowing this SUPERB GEM to boast a wonderful look. PCGS 80, NGC 54, CAC 15. The most recent PCGS MS67 CAC sold for \$5,170 in our May 2019 Regency Auction. Listed in the PCGS Price Guide at \$4,500 and in the CAC CPG for \$6,250, this is the highest grade that is readily obtainable for the collector; the PCGS value jumps to \$21,500 in 67+. If you demand quality and eye appeal, and are looking to upgrade your 1900 Morgan, look no further. Cert. Number 35820281 PCGS # 7264.00

This coin is as close to MS67 as you can get! If it were any 80S it possibly would have made MS67 (NO Promises). We have seen a few of these, we clearly rank this coin as one of the VERY BEST! Remarkable surfaces are incredibly clean. There is a small scrape you need a strong glass to see hidden on the reverse. Its probably what kept this coin from a full MS67. An exceptional luster beams boldly from all over. Both sides are an original white. There are no spots or discolorations. Miss Liberty and the details are fully struck. You do NOT need a glass to see the O/CC. Also, her cheek will please any fussy collector. The eye appeal is superb! PCGS 132, NGC 9, CAC 51. PCGS has graded 18 in MS66+. PCGS has graded only an MS67 and and MS67+ higher. Its critical to note the MS67 last sold for \$37,375 in 2011! We think that coin is easily worth \$50,000.00+ today. The quality this coin offers here should be worth much more, then an average MS66+ Technically nothing should be average). If you are a Morgan Collector, we invite you to check this rarity out. It will be a great fit in ANY top collection! Cert. Number 37594654 PCGS # 7268.00

Estimate: 10,000.00 - 12,000.00

One of the rarest dates in Mint State grades, the 1901 is a very popular Philadelphia mint. Unlike many other dates that were held in quantity in Treasury vaults that were released in the 1940s to the 1960s, either the vast majority of the nearly seven million coins struck went directly into circulation or the mass quantities that were stored in the Treasury vaults were melted under the orders from the 1918 Pittman Act. Either way, not counting the 1895 Proof Only issue, this is the RAREST Philadelphia Mint issue to find in Mint State. This example is exceptionally high end for the grade. Fully CHOICE, this beautifully preserved MS63 is truly deserving of its CAC endorsement. The lustrous surfaces are bold and brilliant with a vibrance rarely seen on this date. Minimally scuffed or marked, none of the few tiny ticks have a negative affect on the overall PQ for the grade eye appeal. PCGS 152, NGC 92, CAC 26. The last PCGS/CAC example realized \$13,200 in the 2019 ANA auction. The current Collectors Universe value is \$12,000 and the CAC CPG value is listed at \$13,900. This is the highest grade that most collectors can dream of owning. Just 46 have graded finer and nay MS64 with CAC approval will cost between \$50,000 and \$60,000! This is a coin that is worthy of a very high end Registry Set. Good luck! Cert. Number 25635900 PCGS # 7272.00

On this rare variety the doubling is most evident along the lower eagle's details and in E PLURIBUS UNUM. The bold strike helps to show off the prominent doubling on the tailfeathers, wing feathers and olive leaves as well as on the motto IN GOD WE TRUST. A trace of golden orange toning contrasts beautifully with highly lustrous and frosty surfaces. Rare in Mint State. PCGS 21, NGC 11, CAC 5. This coin was sold in our Regency Auction 26 in May 2018 for \$14,100. Two examples also sold in January 2019 for \$10,200 and \$10,281 respectively. The cut off point before the prices sky rocket in Mint State! A prize for the Morgan dollar specialist. Cert. Number 21287007 PCGS # 7302.00

Estimate: 6,000.00 - 7,000.00

An intense, brilliant, cartwheel luster blooms all over on both sides. The eye appeal of this resplendent GEM is imparted by a radiating luster that rolls around smoothly uninterrupted. There are a few very minor traces of contact seen with the aid of a strong glass on this untoned GEM. While the mintage of 2,284,000 was moderate, clearly these were released to commercial channels and stored in treasury vaults, where they would meet the great silver dollar melts authorized by the 1918 Pittman Act. Any Choice Mint State or finer 1901-S is scarce, and indeed RARE in GEM grades. PCGS 36, NGC 5. Though the most recent example sold in November 2019 for \$6,000, we sold a similar example in our May 2019 Regency Auction for \$8,225; the current PCGS value is about the average of the two APRs, listed at \$7,500. This date is VERY RARE any finer, with just 11 graded higher, 8 in 66+ and 3 in 67. Bound for a wonderful Morgan set. Cert. Number 34101636 PCGS # 7276.00

Very pleasing and bordering on the SUPERB category, this highly lustrous, satiny brilliant MS66+ is PQ and very eye appealing. Well struck for a New Orleans Morgan dollar, the devices are well formed with nice, crisp definition. The surfaces offer a satiny smooth brilliance that fails to reveal any mark, line, or tick of consequence. The eye appeal is quite nice. PCGS 950, NGC 676, CAC 257. PCGS has graded 154 in MS66+. The average of the last 10 APRs for PCGS MS66+ CAC examples is \$1,229 and the current Collectors Universe value is \$1,200. For a "common" date, fewer than 50 have graded higher, mostly MS67 and NONE higher than 67+. Cert. Number 35820607 PCGS # 7280.00

One of, if not the FINEST KNOWN example of this date. Tied with just one other at NGC at this lofty state of preservation, neither of which has ever sold via auction, this lustrous, SUPERB GEM is a highlight of the present offering of Morgan dollars. Incredibly clean surfaces and well struck up devices stand out. The surfaces are thickly frosted with a radiant mint luster that is boldly brilliant throughout on both sides, accenting the crisply rendered devices and and pristine surface quality. The eye appeal is beyond bold, and this coin is essentially as struck and looks like it just came off the dies. PCGS 2, NGC 2. None of these have ever sold in auction, thus, putting a value on this SUPERB GEM is quite the difficult task. We suspect that this coin will bring a world record price when the hammer falls, exceeding the record we achieved in June 2019 for a PCGS MS67 CAC that brought \$19,388. In 67+ the current Collectors Universe value is listed at \$65,000. This coin is bound for a world class Morgan dollar collection and it is very pleasing and high end to say the least. Again, we expect record bidding for this one! Cert. Number 5711210-003 PCGS #

Ex Gold River Collection WOW! This is an unbelievably high end, superlative quality GEM example! While a large number of 02-S dollars were released from treasury values in the 1920s-1950s, the vast majority of these are lower Mint State grades, and this date remains quite elusive in GEM or higher grades; in MS66 and higher fewer than 80 have been graded combined between PCGS and NGC. This coin ranks among the 16 highest graded at PCGS. High end and boldly lustrous, this frosty beauty is high end and blast silver white. The surfaces are unmarred by any distracting marks of any kind. An expert strike has rendered all but the highest design elements with crisp, complete definition. The eye appeal is stunning! PCGS 65, NGC 7, CAC 12. There are just 11 coins in MS66+ and a mere five finer. An example sold in September 2019 for \$26,400 and the current PCGS Price Guide value is listed at \$25,000. With just five graded higher, this date is virtually unobtainable in SUPERB condition and this coin will fit into any very carefully selected Registry Set! Cert. Number 36186953 PCGS # 7282.00

This lustrous, sharply struck beauty is as fresh today as it was the day it came off the dies. Generally clean SUPERB grade surfaces have a strong, swirling brilliance on both sides of this untoned beauty. A couple of ancient ticks may account for its not getting a CAC bean, but the eye appeal is nice. PCGS 117, NGC 109. The current PCGS Price Guide value is listed at \$2,500 and the average APR going back to October 2014 for non-CAC, PCGS coins is \$2,524. There are just 14 graded MS67+ finer, and those are worth around \$10,000. This is a pleasing SUPERB GEM for a high end set. Cert. Number 20468484 PCGS # 7284.00

SUPERB in every way. The 1903-O is a very popular story coin among the Morgan dollar series. Once thought to be a major rarity, a release of original mint bags in the early 1960s made this one of the more available dates. However, because so many were stored in mint bags, coins in MS67 are still rare. Sharply struck devices are frosted standing against a bold, satiny cartwheel bloom. A light touch of tone at the rim by the date is noted, as are a few very minor ticks that are mentioned only for accuracy. PCGS 118, NGC 54, CAC 26. In the last two plus years, we have sold four examples, selling between \$7,638 and the record for the date \$8,519 in our December 2018 Regency Auction. All those records are well above both the CAC CPG and PCGS Price Guide values. Only 4 in MS67+ have graded higher at PCGS, and none have ever sold. This is a great coin worthy of a very strong bid. Cert. Number 38156714 PCGS # 7286.00

Here is another very difficult to locate date in GEM. What a wonderful example for the advanced collector. Crisply impressed design elements stand out against radiating cartwheel mint luster. The surfaces show a microscopic tick or two which are seen on both sides. The devices have a warm, satiny sheen and the smooth surfaces are a delight to behold. The eye appeal is enhanced by some dappled iridescent tone. PCGS 41, NGC 8. Two examples sold in the 2019 FUN auction, one for \$15,600 and the other for \$15,000. The current PCGS Price Guide value is \$20,000. Just 18 coins have graded higher, and are rarely seen. This one will see competitive bidding when the hammer falls. Cert. A high grade example of this conditionally challenging San Francisco mint issue. Overall, the surfaces are clean and smooth, with a strong luster that mixes with hints of semi-prooflike mirrors. Both sides are white with a trace of gold. Miss Liberty and the details are frosty and are practically fully struck. The eye appeal is neat! PCGS 458, NGC 226. The most recent example brought \$4,560 in the 2019 ANA auction and the current PCGS Price Guide value is listed at \$4,850. This one sold for \$4,700 in its last appearance at auction. Exceptionally high end and totally original, this SUPERB GEM Proof 1902 Morgan dollar used to reside in an NGC PR68 holder, ex Jack Lee Collection. If you know how this date usually comes, you unhesitatingly have to agree this coin really is one of the very best that exists! This coin has extremely deep mirrors which boom (not just beam from) all over. The mirrors are ultimate in cleanliness, clarity, and have a bold reflection. You don't even have to twirl this coin to see rolling liquid mercury. A mellow but lively mix of original pale golden brown champagne colors swirl in patches all over. This coin has so much life you really need sunglasses to view it! Miss Liberty and the details are needle sharp and fully struck. They also have a delicate silvery frost (note 1902-1904 silver proofs are very rare in cameo). The eye appeal is like the quality-amazing! Only 777 Proofs were struck. PCGS 7, NGC 10, CAC 5. Just two examples have ever graded PR67+ at PCGS and only this one has ever sold in auction for about \$20,000 and the PCGS Price Guide value is listed at \$25,000. EXTREMELY RARE any finer, there are just three in PR68 graded higher. This exceptional quality coin boasts not just a great look, but also one of the very best pedigrees for Morgan dollars. 337 \$1 1922-D PCGS MS66+ CAC

Estimate: 6,000.00 - 6,500.00

USD

Tied for second FINEST graded by PCGS, a coin that is in distinct company among 30 others graded MS66+. As with many high grade examples, this lovely coin shows what silver dollar experts Wayne Miller and John Highfill call "orange peel"" which Dave Bowers' Silver Dollar Encyclopedia notes is possibly caused by the resurfacing of the dies with an abrasive wire brush or from die wear. The present example shows surfaces that suggest a rusted die but was not cracked as seen on the examples that we sold in September and December 2019. A dusting of the faintest lilac and clear gold can be seen when the highly lustrous surfaces catch the light at the right angles. Sharply struck up, the devices have a bold definition throughout. The only marks of consequence are the mint made roughness from the obverse die, and are part of the minting process, not playing a part in the technical grade. The 22-D is available in Mint State grades, thanks in part to a large hoard of some 50 bags that were located in the early 1990s. That said, in GEM and higher grades, it is a scarce date, and is VERY RARE in MS66+ and excessively so in MS67. The most recent example to sell in auction brought \$7,050 in our September 2019 Regency Auction and the other two sold in 2019 as of this writing brought \$6,600 and \$7,200. The current Collectors Universe value is \$6,000 and this one will likely sell for more. Good luck! Cert. Number 34585219 PCGS # 7358.00

Very high end! This is a superior quality MS65. A beaming, brilliant, blazing silver mint luster glows with a white hot intensity on the obverse. Sharply struck up devices and generally very clean surfaces add to the outstanding visual allure. PCGS 439, NGC 249, CAC 64. The most recent PCGS/CAC example realized \$1,980 in December 2019 and the current CAC CPG value is \$1,880. Quite RARE any finer, this GEM is worthy of a GEM Peace dollar set. Cert. The 23-D is conditionally scarce in any grade above MS65+ and this is a GEM of the highest order, indeed, this PQ 66+ is tied for second highest graded at PCGS and bested by a single MS67. Shocking, intense luster for the date radiates with a bold brilliance on both sides. Boldly struck up with fully defined, crisply rendered details. Generally clean surfaces show only a couple of insignificant marks. The obverse die was pretty well shattered when this one was struck, with a number of spidery cracks that cross the lower portion of that side. Very eye appealing and high end quality. PCGS 124, NGC 28, CAC 28. There are a dozen graded MS66+ at PCGS and just a single MS67 graded higher. The last PCGS MS66+ CAC sold for \$16,450 in February 2017, hard to believe but that was nearly 3 years ago! The current Collectors Universe value is listed at \$17,500. With the single 67 not CAC approved, if you demand only CAC approved coins this is as fine as it gets! Bound for a strong bid and a world class cabinet! Cert. Number 38035901 PCGS # 7361.00

Truly HIGH END and wonderfully preserved, the 26-D is conditionally RARE so fine. A blistering, blinding luster is booming on both sides, accenting the awesome surface quality and sharply struck devices. The eye appeal is intense and we have had a hard time putting this coin down, is luster and eye appeal captivating us! PCGS 319, NGC 104, CAC 80. There are 33 in MS66+ (including no doubt duplicate submissions) and just 8 finer. We sold the most recent example for \$11,750 and the current Collectors Universe value is listed at \$13,500. Keep in mind the last MS67 sold for \$47,000 in the 2015 ANA auction. We think this high end coin has a great look, worthy of any top tier Registry Set. Cert. Number 38794486 PCGS # 7368.00

Estimate: 135,000.00 - 150,000.00 USD

No question this coin is a MS66.8+++!!! We have a very strong admiration for this coin. It was more then worthy of being ion the #1 set! Remarkable surfaces are a tough graders delight. There are no problems-just a few tiny ticks/frost breaks. The surfaces also have a smooth appearance. Typically, 27-D's come with a flat, non-radiant luster. This coin actually has good life and luster. Both sides are GEM original white color that has faint splashes of gold/lilac colors. Miss Liberty and the detail are sharply struck and frosty. The eye appeal is gorgeous! PCGS 13, NGC 3, CAC 7. PCGS has graded 4 in MS66+ with NONE higher. It took 32 years for this coin to be graded! The current Collectors Universe Value is \$135,000. It's not so crazy since the last one we sold in March 2019 brought \$176,250! . If there ever was an MS67 PCGS CAC piece we can only imagine the total bidding war that would erupt sending it close to \$250,000! This coin could end up with a world record price-which is fitting for the quality! Good luck! Cert. Number 37728064 PCGS # 7371.00

Regardless of grade, the 1928 is the KEY to the series. Only 360,649 were struck, and is a popular date in all grades, but especially so in GEM Mint State, as offered here. Both obverse and reverse show off a stunning mint brilliance on totally untoned surfaces. Sharply struck on both sides, the surfaces are high quality and free of any distracting marks. Gem quality and eye appeal in every way. PCGS 409, NGC 106, CAC 71. In MS65+, PCGS has graded 32, and just 22 finer. Going back to August 2016, there have been 10 PCGS/CAC examples ranging in price from \$4,200 to \$17,038 and the current PCGS value is listed at \$8,500, which is about the average APR for all those examples. The high of \$17,038 was achieved in our March 2019 Regency Auction on an estimate of \$7,000 to \$7,500. This is a great coin for an excellent Gem Registry Set, worthy of a strong bid. Cert. This is an amazing Peace Dollar that is more than worthy of its MS67 designation! We are blown away at the perfection of the surfaces. Even using a strong glass will not change the fact there is NOTHING to be found. The surfaces also have a semi satiny texture. A strong glowing like luster beams from all over. A warm and totally original golden iridescence glows from the central obverse before fading into subtle peach hues at the borders. The reverse is uniformly pearlescent and frosty, dusted in original patina in the peripheries. Miss Liberty and the details are frosty and are fully struck. The eye appeal is wonderful! PCGS 6, NGC 5, CAC 1. The last time this coin sold was in August 2018. It brought \$108,000. This coin clearly is the best of the best as no other MS67's are CAC. We can see this incredible piece setting a new world record. This coin needs to be in the BEST Peace Dollar set, Type set, or box of 20.. We expect strong bidding here. Be ready! Cert. A glorious GEM, dripping with a rolling mint bloom and pearly white luster over unadulterated surfaces. A few stray tick marks are noted under strong magnification on Liberty's cheek and the feathers on the eagle's back. Clear cut design details. A glorious GEM. PCGS 559; NGC 225, CAC 57. We point out the populations to show the difficulty encountered when trying to obtain a CAC sticker for this date in GEM condition. Auction records support this as a non-cac example sold in November 2019 for \$2,275, but in contrast in September 2019 a CAC piece garnered \$3,120! If you are a TONING ENTHUSIAST, may we suggest you jump on this opportunity as 1934-D Peace dollars are seldom encountered with such amazing color. Vivid crimson red and fiery orange toning make the obverse look like it is on fire! The reverse looks like end of the roll toning with concentric rings of fiery orange softening to honey gold, ice blue and ending in lilac hues at the center. The underlying luster is so intense it holds up well even with the rich overtones. A few ticks are noted under strong magnification, but are well concealed by the pretty color. PCGS 105, NGC 25. The single FINEST graded example of this extremely RARE Proof classic gold commemorative dollar. Approximately 100 Proofs were struck, which were distributed to well connected collectors and other V.I.P.s of the era, and as such, most of them are estimated to survive today (PCGS estimates 90 survive in all grades). This one is the single FINEST in the CAM designation. Deep, bold mirrors are crystal clear, clean, and have intense reflectivity, with that signature liquid look when you twirl the coin. All of the details are fully struck and have thick, spotless gold frost. The eye appeal is fantastic! Only 100 were struck. PCGS 1, NGC 1. Extremely RARE so fine: a PR66+ CAM sold in April 2016 for \$30,550 and the PR67 non-CAM last sold in April 2006 for \$46,000! In PR67, PCGS has not yet listed a value, but in non-CAM 67, it is listed at \$46,000. This is a real prize for any advanced classic commem specialist who demands the absolute FINEST for their set. What can we say? This coin absolutely knocked us off our feet when we first saw it. It is not just a great coin, it is a SUPER HIGH END MONSTER KILLER piece! Just look at the pedigree, now you see why... At first glance, this coin looks like a proof. Incredible mirrors are 6"+ deep. The mirrors are also super clean. When you twirl this coin, the mirrors look like a freshly formed sheet of ice. We see no reason why this coin would earn the PL designation (we won't 100% promise it due to the who knows why factor). Both sides enjoy a tremendous flash and luster pop. The color is a GEMMY original orange gold. There are zero spots or discolorations. Miss Liberty and every detail are needle sharp are thickly frosted. Both sides have incredible FULL contrast. The eye appeal is just jaw dropping and insane! PCGS 4, NGC 4, CAC 4. PCGS has graded 4 in MS67+ and 3 in MS68 (good luck finding one of those). The last one PCGS CAC MS67+ to sell in auction brought \$22,325 in March 2019. Seeing is believing here. This coin would not have been personally owned by Legendary dealer David Akers or his long time friend Dr Duckor if it was anything less then a monster. The 1870-S is the final gold dollar issue struck somewhere other than Philadelphia. Only 3,000 coins were struck and today, this MS64+ ranks among the highest graded survivors. A full satin gold luster swirls on both sides with accents of semi prooflike reflection in the fields. Close inspection with a loupe reveals only one superficial scuff on the left obverse; the rest of the surfaces are very clean overall. Both sides have an intensely brilliant yellow gold hue and Miss Liberty and the details are super frosty and are sharply struck. The eye appeal is great! PCGS 7, NGC 2, CAC 3. This is NOT the MS64 that sold for \$11,750 in our July 2018 sale of the Chester Roche Collection. In MS64+ this is the only one graded, and has not sold in auction before, but Collectors Universe lists a value of \$15,000. Only a half dozen are graded higher, a PCGS/CAC MS65 sold in the 2015 ANA auction for \$37,600! Not only is this coin VERY HIGH END, it is also a borderline PL piece! A strong luster accents sensational surfaces, which exhibit partial reflectivity on both sides. Most important: all of the surfaces are super clean. Both sides are a wonderful original bright yellow gold color with a faint hint of orange gold, adding to the eye appeal too. . There are NO spots or discolorations. Miss Liberty and the details are frosted and are sharply struck. The eye appeal is sensational! PCGS 103, NGC 69, CAC 33. PCGS has graded 9 in MS67+. The last PCGS CAC MS67+ to sell in auction brought \$3,360 in October 2019; before that there is a \$4,465 record from June 2019. It had a little stronger mirrors. BD-1, the only die pair used to strike the 4,540 quarter eagles in 1830, of which 80-100 are estimated to survive according to the Bass-Dannreuther reference. Today, this marvelous, borderline GEM grade specimen ranks within the condition census for the date. The eye appeal is wonderful, boasting beaming, fully prooflike luster on both sides. Every detail is crisply rendered by a forceful blow from the dies. The only marks in the fields are mint made, from a few tiny lint marks to a few scattered planchet flakes. We note the originality of the surfaces, a lovely departure from what is typically seen in the marketplace. PCGS 5, NGC 1, CAC 1. This is the ONLY MS64+ and there are eight coins graded finer. We cannot find a record for this near-GEM example having sold, and PCGS lists a value of \$75,000 in MS64+. A non-CAC MS64 sold in the 2016 FUN auction for \$39,950 and the Garrett-Pogue MS65 sold in September 2015 for \$76,375. Again, neither have CAC approval. This is a TOTALLY ORIGINAL GEM 1927 quarter eagle. Not a rare date, but also not common in CAC-approved GEM grades either. Indeed, less than 5% of MS65s have beaned. Nicely struck, this satiny lustrous coin has a strong brilliance on both sides. The warm honey-tangerine gold patina graces both sides. Generally clean, devoid of all but the most insignificant little lines and traces of contact, mostly hidden in the reverse. The eye appeal is exceptional. PCGS 537, NGC 433, CAC 48. The most recent example to sell in auction realized \$2,200 in our June 2016 Premier Session; that is three and a half years ago! Amazing that none have sold since! The CAC CPG value is \$2,380. At first glance this over the top magnificent SUPER PROOFLIKE HIGH END GEM looks like a Proof! From an original mintage of 2,600, the 1867 \$3 is one of the silent stoppers of the series. Amazing surfaces border on sheer perfection. Fully prooflike mirrors beam intensely from all over. Add the strong luster and you really need shades on to view this killer piece. Even if you use a strong glass and look all over really hard, you will find virtually nothing except maybe a tick, Mint made striations, and a small scuff. Nothing looks negative to the naked eye. Both sides are a GEM deep gold color with light rose highlights. The contrast is amazing. Miss Liberty and every detail are fully struck and standout with thick frost. The eye appeal is just amazing too! This is the ONLY PL MS64 graded by PCGS. In regular MS64 the Population Data is: PCGS 2, NGC 3, CAC 2. There has not been a 64 sold since November 2006, a coin that sold for \$21,850. The current PCGS Price Guide value is listed at \$25,000 in MS64 and not priced in MS64 PL. Looks better than just an MS62 to us! The surfaces overall exhibit a few light ticks/scuffs. They are small and nothing stands out or is serious. They only appear because of the strong semi-prooflike surfaces. The luster is bold and blazes from all over. Both sides enjoy a beautiful and totally original deeper gold color mix with highlights of reddish gold around the details. There are NO spots or discolorations. Miss Liberty and the details are sharply struck and have delicate frost. The eye appeal is excellent! Only 4850 were minted. PCGS 51, NGC 26, CAC 6. Brilliant golden color glows and shows off a rich luster that radiates dramatically off the silky smooth surfaces. The original surfaces have a warm original gold that accents the sharply struck devices. The eye appeal is truly AMAZING and the technical quality borders on SUPERB! PCGS 10, NGC 5, CAC 3. There are just three in MS66+ and a single MS67 finer. The only other MS66+ to sell was the Pogue coin which brought \$22,325 and was not CAC. This is what a Sand Blast 1908 Proof half eagle should look like. Compare the deep green-gold color to the pale yellow gold typically seen and you know this coin is totally original! The sand blast surfaces glint brilliantly as the multitude of microscopic facets catch the light. The incuse design elements are expertly and exactly rendered by an exquisite blow from the dies. The surfaces are nicely preserved, its relatively modest grade can only be explained by a tiny mark on the wire rim on the obverse at 9:00, otherwise the surfaces show only a few hair's breadth line or two seen on the sand blast fields. Regardless, the initial visual impact is that of a GEM grade. Only 167 Proofs were struck. PCGS 33, NGC 19, CAC 4. Only a single PCGS/CAC example has ever sold in auction, bringing \$37,600 in the March 2017 sale of the Blue Moon Collection. Prior to that, an NGC/CAC example brought just shy of \$40,000. Here is a GEM Lib \$10 that is underrated and really overlooked in today's coin market. It amazes us that this coin is currently valued the same as the ultra common 1901-S, when the population for the 03-S is a mere fraction! Highly lustrous, the satiny surfaces gleam with a GEM brilliance. The devices are razor sharp in definition with no weakness seen anywhere. Some minor contact keeps this coin from grading higher, but they do not impact the outstanding eye appeal. Truly high end for the grade. PCGS 71, NGC 65, CAC 20. Compare with the 01-S, which is PCGS 1216, NGC 1291, CAC 157. There is no major premium for the 03-S, the CAC CPG Value in MS65 is the same for both dates, \$3,720! We suspect this coin will bring more. Good luck! Cert. Number 1655984-003 PCGS # 8754.00

370 \$10 1904-O PCGS MS63

Estimate: 1,600.00 - 2,000.00

USD

An attractive, original example that has the look of an old bank hoard coin. Rich orange-gold patina blankets a satiny lustrous surface and sharply struck devices. Scattered minor ticks account for the assigned grade, but the original tone imparts a good visual effect. PCGS 105, NGC 41. The most recent MS63 to sell in auction was graded by NGC and brought \$2,160 in the 2019 ANA auction. The current Collectors Universe value is \$2,800 and this date is useful to represent the mint in a mint mark set. Good luck. Cert. Number 35439288 PCGS # 8756.00

371 \$10 1916-S PCGS MS63 CAC

Estimate: 5,000.00 - 5,500.00

USD

Medium orange gold toning complements frosty cartwheel luster and light surface marks are consistent with the grade. There are more scratches on the holder than the coin. The details are sharp, especially in the feathers on Miss Liberty's headdress. San Francisco was the only mint to issue Eagles in 1916, and the date is moderately scarce, especially in MS63 or better. PCGS 123, NGC 33, CAC 5. Prior to this coin selling, these were bringing between \$5,520 to \$8,813. While the current PCGS Price Guide value is \$6,000 though the CDN CAC Price Guide Bid/Ask is \$6,500/\$8,150. Any CAC-approved MS64 (pop 8) is a five figure item. Seems like this is a great value for the collector. Cert. Number 25004400 PCGS # 8880.00

Estimate: 4,600.00 - 5,000.00

An impressive Mint State early date Type 1 double eagle. Crusty and totally original, this satiny brilliant example has the look of an even higher grade. Sharply struck, this coin has just a little too much chatter on the reverse for a 62 grade, though the obverse alone would have graded MS62. The eye appeal is impressive. PCGS 30, NGC 23, CAC 10. Just 30 are graded higher, nothing is finer than MS63 at PCGS. The current Collectors Universe value is listed at \$7,000 and the CAC CPG value is listed at \$7,190. The average of the 5 MS61 CACs that sold in auction, going back to 2010 average nearly \$6,500. ANY MS62 is worth \$12,000-\$15,000 even without CAC approval. Bound for a carefully selected Liberty double eagle date set. Cert. Number 38352917 PCGS # 8908.00

Totally original! This is clearly a Type 1 double eagle that is fresh, and has never been dipped, stripped, or conserved in any way. We are so glad that this coin was left alone! Just a hint of friction is noted on the highest points, indeed, most of that is from bag contact with other coins, as this coin shows a smattering of small marks, typical of these large gold coins. These marks are evenly distributed and minor, not impacting the naked eye appeal, and only with aid of a strong glass can you make them out. Nearly a full, glowing mint luster surround the fields, coming out in a light when the coin is rotated. This is the optimal grade for this date, as Mint State coins are truly RARE! PCGS 44, NGC 83, CAC 115. The current CAC CPG value is listed at \$5,310 and the current Collectors Universe value is \$6,250. We sold the most recent PCGS/CAC coin in our September 2018 Regency Auction for \$6,169. PCGS has graded 24 coins in all Mint State grades, mostly in MS60-62. This AU58 is high end and will delight the collector not wishing to spend \$10,000+ on a MS61 that does not posses the eye appeal and originality of this CHOICE example. Cert. Thanks to the shipwrecked Brother Jonathan and Republic, this date is available in circulated grades, the 63-S double eagle remains quite scarce in any Mint State grade, and is downright RARE in MS62 or finer. Indeed, PCGS estimates about 60 coins survive in Mint State grades. A frosty luster remains on both sides of this well struck MS61 example. Totally original, this coin was freshly graded at PCGS before being consigned to us. The golden surfaces are warmly toned with a lovely olive and peach patina that truly is a delight to behold. Sure the surfaces show some minor traces of contact, that is common for such a heavy gold coin and the eye appeal is that of an even higher grade, and we would not be surprised if this coin grades MS62 one day (no guarantees). PCGS 43, NGC 29, CAC 11. The last two pieces to sell in auction were from the Fairmont Collection and they were very choppy and heavily abraded, selling in 2018 for \$10,800 and \$10,200. The current PCGS Price Guide value is listed at \$11,500 and the current CAC CPG value is listed at \$10,600. RARE any finer this is a great coin for any advanced Civil War gold collector or double eagle collector. Good luck! Cert. Number 38352927 PCGS # 8940.00

What a NEAT coin! Tied for FINEST graded example for the date at PCGS, this is a remarkable, very high end, near-GEM quality example! The surfaces have only small and scattered ticks-no big scrapes or whacks. They are also pretty much hidden to the naked eye. There is no question this coin has a great original "skin" with a full "Mint bloom" luster. The reverse even shows traces of semi-prooflike mirrors. both sides are a GEM original pale gold with highlights of faint greenish gold by the rims. There are NO spots or discolorations. Miss Liberty and the details are frosty and are well struck. The eye appeal is fantastic! PCGS 63, NGC 36, CAC 9. PCGS has graded 4 in MS64+ with NONE higher. The current PCGS Price Guide value is \$17,500 and the last PCGS MS64+ CAC to sell in auction brought \$15,600 in the 2019 ANA auction (NOT this coin-which is slightly nicer). With NO MS65's or higher graded, this coin clearly ranks as one of the finest examples you can obtain for the date. Yet another opportunity that knows loud! Cert. Number 6746839 PCGS # 9009.00

A beautiful, totally original, borderline GEM example. Rich golden-orange color is brought out by a brilliant frosty luster. This coin has a great look and you know how tough CAC is on gold coins, so you know you are getting a high end piece. The most recent PCGS/CAC example brought \$1,860 in November 2019 and in MS64 the CAC CPG value is listed at \$2,260--a 64+ should be worth that or more. Good luck! Cert. WOW! This is quite the impressive PQ 1911-D/D repunched mintmark double eagle. One of the few distinct die varieties in the Saint Gaudens series, collectors have long searched unattributed 1911-Ds for one. Bordering on the SUPERB GEM grade, the present coin has a great look for the date. Well struck devices stand out against frosty lustrous fields that have an almost sandblast-like texture. Rich orange-gold with lighter brilliant gold highlights. The first D was placed too far to the right, and then repunched properly. The D/D is quite bold and can be seen without the aid of a glass. As expected for the lofty, borderline SUPERB GEM grade, any traces of contact are extremely minor and almost not worth mentioning. PCGS 55, NGC 40, CAC 22. PCGS has graded just 5 in MS66+ with just a single MS67 finer (which is impounded in the Simpson Collection). The current Collectors Universe value is listed at \$30,000 and we have sold two others in 2019 for \$22,913 and \$25,850. A real prize for any advanced die variety collector or specialist in the St. Gaudens series. Cert. Number 38157487 PCGS # 9158.00

WOW! At first glance, this coin looks like any common date in SUPER HIGH grade! It actually borders on full MS66. Scarce in all grades and RARE in GEM, only 95,250 were struck for the entire issue. This coin is easily in the Condition Census for this rarity. The surfaces appear clean and satiny like. Only when using a strong glass can you find some scattered and microscopic ticks. A strong luster beams from all over. Both sides are an original deeper yellow gold color. There are no spots or discolorations. Miss Liberty and the details are exceptionally well struck. The eye appeal is fabulous! PCGS 40, NGC 35, CAC 5. There are just 2 graded MS65+ and just five are graded higher. Neither MS65+ has ever sold in auction, and no CAC-approved MS65 has sold in a DECADE! The current PCGS Price Guide value is listed at \$35,000. Keep in mind no CAC MS66 ever sold in auction (a 66+ CAC sold eight years ago). This is a very rare opportunity for anyone working on a high end GEM set of Saints! Bidding will be fierce! Cert. One of the RARE late date Saints, and we unhesitatingly grade this coin an MS64.95+! Really! It IS that close to full MS65. Superior surfaces resemble what you would see on a common date. The surfaces are remarkably clean and have thick satiny texture. When using a strong glass all we could find was a TINY tick and a few light and tiny frost breaks. For sure we have seen lesser quality coins in higher holders. This coin might fare even better off raw (we make no promises it will ever MS65)! A full cartwheel like luster vividly beams from all over. Both sides have an original deeper yellow gold color. There are NO marks or spots. Miss Liberty and the details are sharply struck (yes, including the nose) and have generous frost. The eye appeal is heart pounding! While over 3 million examples were struck, the vast majority were stored in treasury vaults and melted the following decade. Those that survive mostly came from overseas sources, coins paid out to Europe or South America and repatriated over the years since importation of gold was made legal. The present near-GEM ranks among the top 25 examples graded at PCGS! PCGS 198, NGC 91, CAC 14. There are 13 in MS64+ and just 12 graded higher. Only a single PCGS/CAC MS64+ has ever sold in auction, realizing \$11,200 in July 2019. Keep in mind that only a single MS65 CAC ever sold in auction realizing \$138,000 in the 2010 FUN auction. This borderline GEM has a lot to offer even the pickiest of Saint collectors! Good luck! Cert. Number 37423487 PCGS # 9178.00

The 25-S is shockingly RARE in any grade approaching GEM, more so than some of the other major rarities in the latter years of this popular series. Indeed, between PCGS and NGC, just 55 examples have graded MS64 or finer, after 33 years of operations! Any that survived the Gold Recall and subsequent melting was a miracle. This PQ coin is a borderline MS65! We could not believe our eyes when we saw this magnificent GEM. For a 1925-S, it really is SUPER HIGH END! Remarkable surfaces have just a few trivial scattered tiny ticks. If this were a common date it could have been graded an MS65 (NO promises). A full booming and glowing type luster beams boldly from all over. The color is a brilliant yellow gold. There are no spots or discolorations anywhere. Miss Liberty and the details are well struck. The eye appeal is fantastic! PCGS 27, NGC 19, CAC 3. There are just three graded MS64+ and a mere handful finer at PCGS in all grades. There is no record of any MS64+ ever selling via auction. It is critical to note the last GEM PCGS MS65 CAC to sell in auction brought \$218,500 in the 2010 FUN auction. No PCGS/CAC MS64 has sold since 2012! Clearly this is a VERY IMPORTANT opportunity of anyone working on a very high end set of Saints! Do not let this coin slip you by! Cert. Number 38156797 PCGS # 9182.00

Why isn't this coin graded MS65? We consider this to be a MS64.9+++! While we make no guarantees it will upgrade, we have seen MS65s that do not look like this! Radiant satiny mint luster boldly glows throughout the essentially GEM quality surfaces. The eye appeal is AMAZING. This is a pleasing, high quality and totally original Isabella quarter. Nicely struck devices stand out against the clean surfaces. A warm satiny glow brings life to the surfaces and the delicate golden, tan, and olive tone. We can see this coin getting a "+" one day (no guarantees), it is that high end. PCGS 514, NGC 430, CAC 115. The current CAC CPG value is \$1,880, and the average for the last 10 PCGS/CAC examples at \$2,196 justifies a strong bid vs. the PCGS Price Guide value of \$1,300. Scarce finer, this is a very popular type as the only commemorative quarter struck in the classic period. Good luck. Cert. Number 36483854 PCGS # 9220.00

This is a beautiful, shimmering SUPERB example of this popular, conditionally rare early commem. The surfaces are clean with a brilliant, frosty luster that glows with a vivid sheen, accenting a dusting of iridescent gold patina. Sharply struck devices and smooth, problem free surfaces, combine for a beautiful state of preservation and bold eye appeal. PCGS 154, NGC 88, CAC 47. There are 27 graded 66+ at PCGS and just five finer. The last PCGS MS66+ CAC sold for \$3,120 in November 2018 and the current PCGS Price Guide value is \$3,000. Keep in mind that the value for a CAC MS67 will be around \$20,000 (if you can find one, none have sold in auction). Bound for a great set of classic early commemorative half dollars. Good luck! Here is a gorgeous, SUPERB GEM, tied for second finest seen at PCGS. Shimmering, satiny frost glows all over, giving life to the original dappled gold and russet that is seen at the rims, yielding to the satiny frosty silver in the centers. A lovely example with good eye appeal. PCGS 229, NGC 153, CAC 72. PCGS has graded 26 in MS67+ and just a trio finer. The most recent example to sell in auction brought \$1,469 in our September 2019 Regency Auction, and the current PCGS Price Guide value is listed at \$1,500. Excessively RARE any finer, three have graded MS68 at PCGS, none of which are CAC approved and the last one sold nearly a decade ago! A major opportunity for the Registry Set collector. Cert. Tied for second FINEST graded 37-S Boone, a classic commemorative with a diminutive mintage of just 2,506 pieces. Pearlescent silver luster blooms brilliantly on both sides, enhancing the soft, pastel tones that add to the originality of this HIGH END survivor! PCGS 59, NGC 31, CAC 17. Only 9 PCGS MS67+s have been graded by PCGS and none of the four MS68s graded have ever sold in auction. The last two 67+s brought \$3,840 and \$3,360, well above the current PCGS Price Guide value of \$2,500. Keep in mind the value jumps to \$17,500 in MS68, good luck! Cert. 386 50C 1893 COLUMBIAN. PCGS MS66 CAC

Estimate: 600.00 - 700.00 USD

This is a delightfully original and high end MS66 example with a great, colorful look. Teal and pewter with traces of gold are brought out by the brilliance of the underlying luster. The eye appeal is great. PCGS 254, NGC 147, CAC 106. The current PCGS Price Guide value is listed at \$600 and the CAC CPG value is listed at \$975, a value determined by the average of \$915 realized in auction. Cert. Number 84241316 PCGS # 9297.00

387 50C 1938 NEW ROCHELLE. PCGS SP66 CAC

Estimate: 6,500.00 - 7,500.00

USD

This is an intensely flashy Specimen Striking of the New Rochelle half dollar. During the course of production, mint employees struck 50 examples on polished planchets after polishing the dies. Sharply struck devices stand out against the bold reflection of the fields. Die polish lines are seen on both sides. A strong glass reveals a tiny tick or two that account for the SP66 grade. The eye appeal is exceptional. PCGS 2, NGC 4, CAC 5. The most recent SP66 to sell was a non-CAC NGC coin we sold in May 2016 for \$10,575. The current PCGS Price Guide value is listed at \$11,000. This issue by nature is RARE and this one is affordable for a Specimen Strike. Cert. Number 38478041 PCGS # 99335.00

388 50C 1938 OREGON. PCGS MS67+ CAC

Estimate: 800.00 - 900.00 USD

A totally original, tab toned example of this lower mintage classic commem. Only 6,006 were struck, of which this one ranks among the highest graded examples. Frosty luster shows a nice satiny glow that accents the golden-russet tab tone on the obverse. The eye appeal is lovely. PCGS 162, NGC 135, CAC 65. There are 22 graded MS67+ at PCGS. The last one to sell realized \$870 in October 2019 and prior to that, one brought \$840 in April 2019. The current Collectors Universe value is listed at \$1,100. RARE finer, with four higher; any MS68 will cost \$10,000+. Cert. Number 37381022 PCGS # 9348.00

Ultra deep, vivacious toning blankets both sides of this low mintage Oregon half dollar. Sharply struck devices stand out against the satiny smooth surfaces. Swirling bands of magenta, gold, purple, lilac, violet, sunset orange, and azure tones blend over the surfaces. We have looked this impressive beauty over and over with a strong glass, and cannot figure out why CAC did not sticker it. Clearly this, and the 39-S that follows has remained in the old paper holder acquiring amazing matched color that is dazzling! PCGS 186, NGC 171. Ignore the APRs and Price Guide values, this coin's value is determined by the AMAZING color. Expect very strong bidding for this one, collectors who demand the best in color look no further! Cert. Not only is this SUPERB GEM among the top 22 examples graded by PCGS, it also must be among the most colorful and beautiful examples that survives from a low mintage of 3,005 pieces. Dramatic toning on both sides, imparted by long term storage in the original cardboard holder at the time of issue. The toning, with shades of crimson, gold, orange, magenta, violet, lemon-yellow, and violet tones all mingle together on both sides of this essentially flawless SUPERB GEM. This coin rates a 9.5 on our 10-point color scale, dramatic and wonderful on both sides. PCGS 145, NGC 113, CAC 70. In MS67+, PCGS has graded just 13 coins, and a mere 9 have ever graded finer. This coin, like the 39-D above is worth a significant premium over published prices and prices realized, this coin will bring out the serious toned Commem collectors. Good luck! Cert. An ORIGINAL, beautifully toned Vancouver that looks like it was just removed from the cardboard holder on the day of issue! Intense satin-like luster graces flawless surfaces. Toned in deep iridescent rainbow hues around the border. The reverse is toned in amber, teal green and steel gray hues. Sharp motifs. If not for one small mark on the head of Loughlin, this coin would be an MS-67+ if not finer! PCGS 74, NGC 50. Three non-CAC examples sold last year. One in July for \$1,860; and two in December 2019 for \$1,440 and \$1,560 respectively. If you appreciate originality, this is the coin for you! Good luck! Cert. Number 38305982 PCGS # 9399.00

Steely teal-blue iridescent toning gently graces both sides of this highly lustrous Mint State Hawaiian cent. Sharply struck, this lovely coin has some minor contact and a tiny fleck or two that account for the grade. The coin was commissioned by King Kamehameha III who, as ruler of the Hawaiian Islands established a new monetary system. Struck by Edward Hulseman in Massachusetts, these were Hawaiian legal tender until 1884. It is reported by Walter Breen that Wayte Raymond traveled to Hulseman's descendants in the 1950s to buy Mint State pieces. Perhaps this is one of those. PCGS 16, NGC 36, CAC 3. The only CAC-approved example to sell in auction realized \$990 in September 2019. The current Collectors Universe value is \$1,225. Attractive color will entice the type collector. Cert.
